**Moderator:** Patricia A. Sexton, Membership Director and

**Speaker:** Thomas A. Haunty, Senior Partner, North Star Resource Group

**Topic:** Retirement Savings During Tough Economic Times

**Description:** It is time to treat “yourself” like your most important client and begin to construct a framework for turning your retirement dreams into a realistic retirement lifestyle. As a lawyer, you spend your days advocating for your clients’ needs, yet may lack the tools or knowledge to begin addressing your own retirement planning goals. In particular, solo or small practice lawyers enjoy many benefits and freedoms, yet when thoughts of retiring from that practice arise, planning can seem burdensome. So for too long you have put off addressing your inevitable need for retirement income planning.

This session will give you a general blueprint and help you focus on the most important remedies to maximize your retirement wealth even during these tough economic times. Join us to learn more about how you can benefit from this program and answers to other frequently asked questions.

The General Practice, Solo & Small Firm Division’s Committee Audio Programs (Brown Bag Sessions) are short, informal educational events on timely GPSolo topics organized by committees and held entirely by teleconference as an ABA member benefit at no additional cost. They normally last one hour and are held during lunch hours. Due to the informal nature of the programs, and the fact that accompanying written materials may not always be prepared and distributed, the Division does not offer continuing legal education credits for these programs.

*Recordings of this program and others will be posted on the GPSolo Division’s website after each session.
