Cloud Computing: Healthcare IT Models

REGISTER TODAY

\$10 fee, which includes lunch

For the latest way to get what we call *the SciTech Edge*, try the SciTech Section's new Think Outside the Box Lunch series, featuring box lunches, outside-the-box thinking, and a chance to get outside the box you call your office to network and share insights with other forward-thinking practitioners.

Where: ABA Headquarters, 321 N. Clark St., 21st FL, Chicago, IL

When: Friday, March 2, 2012 from 12noon – 1:30 p.m.

Co-Sponsored by: ABA Health Law Section; ABA Young Lawyers Division; Chicago Bar Association

Program Description: Cloud computing has been redefined. Learn to navigate legal technical issues of new and emerging technologies: electronic health records, personal health records ("PHRS"), mobile health, information exchanges, cloud, robotics and beyond. The panel will provide an overview of some of the healthcare industry's new models and uses of the cloud. There will be the opportunity for questions.

- Learn some of the operational and legal concerns of working in the cloud.
- Gain an understanding of technology licensing and IP protection from a healthcare perspective.
- Overview of privacy and security (HIPAA, HITECH Act, and myriad of state laws), and how use of the cloud can impact interoperability/standards/"meaningful use"/government reimbursement programs.
