

Mandatory Insurer Reporting Has Arrived! What It Will Mean For Your Practice

WEDNESDAY, June 30, 2010 • 1:00 P.M. - 2:30 P.M. Eastern

A 90-MINUTE TIPS TELECONFERENCE

Program Description:

Join our experienced experts for this extremely relevant and informative teleconference, as they examine the complex area of the new Mandatory Insurer Reporting (MIR) guidelines as set forth in Section 111 of the Medicare, Medicaid and SCHIP Extension Act (MMSEA) of 2007.

This is a can't miss seminar if your practice involves the handling of workers' compensation, liability (including self-insurance) and no-fault cases under either state or federal law. This new law became effective July 1, 2009 for all primary payers except for group health plans for which the effective date was January 1, 2009. The penalty for non-compliance is steep: \$1,000 per day, per claim. CMS has continued to make repeated substantive changes to many key aspects of its proposed MIR guidelines even as the complexity of the process has caused CMS to repeatedly postpone the compliance dates applicable to various reporting triggers.

This Program Will Cover:

- 1.) Section 111 and how it fits into Medicare compliance
- 2.) CMS' Current RRE directives
- 3.) CMS' Reporting "Timeline Maze" – Understanding the various Section 111 reporting timelines
- 4.) TPOC vs. ORM – Analyzing the "reporting triggers" and what they mean as part of every day claims handling
- 5.) Determining Medicare Status – The role and limitations of CMS' "Query Function" process
- 6.) Assessing the practitioner's role and expectations as part of the Section 111 process
- 7.) Section 111 and its impact on claims handling and settlement practices
