p = permissive deduction

d = deviation factor

1. May be voluntarily agreed by the parties, in which case it is contractually enforceable thereafter, but otherwise may not be imposed by the court. However, an obligor parent may be required to contribute during a child's minority to an educational trust fund, which would be used for college costs postminority.

2. Support may be increased or decreased if the obligor spends more or less than 80 days (the putative normal amount of time) with a child.

3. Credit given for actual cost of health care insurance premium paid for children.
