ABOUT THE CONTRIBUTORS

Andrea Berlowe is Senior Counsel in the Law and Policy Section of the United States Department of Justice’s Environment and Natural Resources Division (ENRD). In that role she handles a variety of legal and policy issues related to NEPA and a range of other federal environmental and natural resources laws. She also litigates cases on behalf of the United States in federal trial and appellate courts. Prior to joining the Law and Policy Section in 2001, Ms. Berlowe was a Trial Attorney, then Senior Attorney, in ENRD’s Natural Resources Section where she litigated a diverse array of cases on behalf of the United States under NEPA and various natural resource and public land management statutes. The views expressed here are those of Ms. Berlowe and not necessarily the views of the Department of Justice.

Alexandra Magill Bromer is an associate with Perkins Coie’s Environmental, Energy & Resources practice. She concentrates her practice on a wide range of regulatory compliance obligations concerning the environment, under the Clean Air Act, CERCLA/EPCRA and other federal environmental statutes as well as their state counterparts, with a focus on stationary sources. Alexandra is involved with environmental enforcement actions, permitting, regulatory counseling, and tracking and reporting on recent rule-making and EPA policy interpretations. She also advises clients on potential climate change issues and liability. Alexandra holds a Masters of Science in international relations from the London School of Economics and graduated cum laude from the University of Michigan Law School.

Joseph Feller has been a Professor of Law at Arizona State University since 1988. His teaching includes property, water law, public land law, natural resources law, and the Natural Resources Clinic. Professor Feller has frequently represented conservation interests in matters involving the application of NEPA and other environmental laws to the management of federal public lands.
in the western United States. These matters have included cases before federal and state administrative agencies, U.S. District Courts and Courts of Appeal, state supreme courts, and the U.S. Supreme Court. He has also published numerous law review articles and essays on environmental law, public land law, and water law. Professor Feller received his law degree from Harvard Law School, where he was an editor of the *Harvard Law Review*. After law school he served as a law clerk to Judge Joseph T. Sneed on the U.S. Court of Appeals for the Ninth Circuit and then as an attorney in the Office of General Counsel of the U.S. Environmental Protection Agency. Before studying law, he was an Assistant Professor of Physics at Columbia University.

**Alexander Hood** is a founding attorney at Towards Justice, a non-profit law firm located in Golden, Colorado. At Towards Justice, he represents clients and causes that would otherwise go unrepresented. The firm’s work includes policy research and state and federal litigation involving environmental law, asylum law, and employment law. Mr. Hood also works with the Natural Resources Law Center at the University of Colorado Law School, where he most recently co-authored a report entitled *NEPA, Climate Change, and Public Lands Decision-Making*. He received his law degree with honors from Boston College Law School, where he was an editor on the Environmental Affairs Law Review and earned a Certificate in Environmental and Land Use Law.

**Jay C. Johnson** is an attorney in the Regulatory Affairs group of Dorsey & Whitney LLP in Washington, DC. His practice focuses on the regulatory, environmental and litigation aspects of infrastructure and natural resource development projects, food and agriculture biotechnology, and federal land policy. Mr. Johnson also has significant experience in environmental litigation and other complex environmental disputes. He has represented clients in federal trial and appellate courts, and before federal agencies like the Surface Transportation Board, the United States Department of Transportation Federal Highway Administration, the Environmental Protection Agency and the United States Army Corps of Engineers. Mr. Johnson’s practice includes providing advice to clients throughout the NEPA process, from the development of the environmental review through agency approval of the project, and extends to any courtroom challenges that may arise.

**Laura Lindley** is a shareholder in the law firm of Bjork Lindley Little PC, Denver, Colorado, where she specializes in oil and gas
About the Contributors

**Jena A. MacLean** is a partner in the law firm of Perkins Coie, LLP in Washington, DC, where she specializes in Native American, wildlife and public lands issues. She has extensive regulatory and litigation experience in the application of NEPA and other environmental laws in the context of the trust acquisition of land for Indian tribes and energy development. She co-authored “The ‘Degreening’ of Wind Energy, Alternative Energy v. Ocean Governance” for the *ABA Natural Resources and Environment* in 2004, and “The Impact of the Indian Gaming Regulatory Act on Gambling in the United States and the Role for State and Local Governments” for the International Municipal Lawyers Association in 2003. She is also a contributing author in *Biotic Response to Global Change, The Last 145 Million Years* 2000, Cambridge University Press (2000). Before studying law at the University of Virginia, she worked as an exploration geologist in the intermountain west for a gold mining company.

**James M. McElfish, Jr.** is a Senior Attorney and Director of the Sustainable Use of Land Program at the Environmental Law Institute, where his work includes natural resources, mining, land use, water quality, biological diversity, and NEPA. He co-wrote two books on mining regulation and two on “nature-friendly” land use ordinances. Mr. McElfish has contributed chapters to several treatises, including “State Environmental Law” in *The Law of Environmental Protection* (Clark Boardman Callaghan 1987), and “Recreation Law” in *Sustainable Environmental Law* (West 1994). Mr. McElfish wrote “Rediscovering the National Environmental Policy Act: Back to the Future” (Environmental Law Institute 1995). Before joining ELI, he was in private practice in Washington, DC, and served in the Solicitor’s Office of the U.S. Department of the Interior.
Hadassah (Dessa) M. Reimer is an attorney in the Jackson Hole, Wyoming office of Holland & Hart LLP, with the firm’s Energy, Environment, and Natural Resources group. Her practice focuses on federal and state environmental regulation, including NEPA, ESA, and other regulatory and permitting requirements for project development on public and private lands. Dessa represents a variety of clients including conventional and renewable energy developers and water resource providers. Dessa was a judicial clerk to the Honorable William F. Downes, United State District Judge for the District of Wyoming. She graduated with honors from the University of Wyoming College of Law in 2004.

Kathleen C. Schroder is a shareholder in the law firm of Bjork Lindley Little PC, Denver, Colorado, where she specializes in public land law with a focus on oil and gas leasing and development on federal lands. She is a co-author of Clean Air, Hazy Law: The Emerging Interplay between NEPA, FLPMA, and the Clean Air Act, 55 Rocky Mt. Min. L. INST. 14-1 (2009). She previously served as an attorney-advisor in the Solicitor’s Office of the U.S. Department of the Interior as part of the Solicitor’s Honors Program and as a law clerk for Justice Alex J. Martinez on the Colorado Supreme Court.

John F. Shepherd is a partner in the law firm of Holland & Hart LLP in Denver, Colorado, where he specializes in natural resources, environmental, and public land law. Mr. Shepherd frequently advises clients seeking approval of projects that require review under NEPA. He has also litigated a number of the leading NEPA cases concerning natural resource development in the West. In 1998, Mr. Shepherd was the Distinguished Natural Resources Practitioner in Residence at the University of Denver College of Law. He is the author of Key NEPA Issues Affecting Oil and Gas Development on Federal Lands, 37 ROCKY MT. MIN. L. INST. 15-1 (1991), and is a coauthor of “National Environmental Policy Act of 1969 (NEPA),” in American Law of Mining, vol. 5 (2d ed. 2010). Mr. Shepherd was Chair of the ABA’s Public Lands Committee from 1990 to 1993.

Nicholas C. Yost is a partner in the San Francisco, California, office of SNR Denton US LLP, where he practices environmental and natural resources law. In 2010 he was the recipient of the ABA’s award for distinguished achievement in environmental law and policy. He has served as General Counsel of the Council on Environmental Quality, and was the principal drafter of the
CEQ NEPA regulations. He served as Deputy Attorney General in Charge of the Environmental Unit of the California Department of Justice, where he was instrumental in launching that state’s “little NEPA.” In his current practice, he litigates NEPA cases and advises clients on NEPA compliance. Mr. Yost has also chaired the American Bar Association’s Standing Committee on Environmental Law, the California State Bar Committee on the Environment, and the Washington, DC, Bar Section on Environment, Energy, and Natural Resources.
