About the Authors ........................................... ix
Abbreviations ............................................... xi

1.0 Executive Summary ........................................ 1

2.0 The History of the Clean Water Act ...................... 5
  2.1 Foundations of the Modern Act .......................... 5
  2.2 The 1972 Amendments: The New Clean Water Act ...... 7
  2.2.1 Effluent Limitations ................................. 9
  2.2.2 Water Quality–Based Program ....................... 9
  2.2.3 Monitoring and Enforcement of the Clean Water Act .9
  2.2.4 Construction Grant Programs ....................... 10
  2.3 The 1977 Amendments .................................. 10
  2.4 The 1987 Amendments and the Clean Water Action Plan .10
  2.5 The Oil Pollution Act of 1990 ........................... 12
  2.6 The Clean Water Act at 40 ............................. 12

3.0 General Prohibition of Discharges ....................... 15
  3.1 Introduction ............................................. 15
  3.2 The Prohibition Defined ............................... 15
    3.2.1 Addition ............................................. 16
    3.2.2 Pollutant ........................................... 17
    3.2.3 Navigable Waters ................................... 18
    3.2.4 Point Source ........................................ 23
  3.3 Exceptions to the Prohibition ......................... 24

4.0 NPDES Overview .......................................... 27
  4.1 The NPDES Process ..................................... 27
  4.2 Exceptions to the NPDES Process ...................... 28
  4.3 NPDES Administration ................................... 28
    4.3.1 Levels of State Participation ...................... 28
    4.3.2 EPA Approval of State Programs ................... 29
    4.3.3 EPA Power of Review of State Water Quality Standards and Individual Permits ........................................... 31
## Contents

4.4 Applying for a Permit ............................................. 32
  4.4.1 The Application Process ....................................... 32
  4.4.2 Individual Permits ............................................. 33
  4.4.3 General Permits ............................................... 33
  4.5 Elements of a Permit ............................................. 34
    4.5.1 Effluent Limitations ......................................... 34
    4.5.2 Monitoring and Reporting Requirements ....................... 35
    4.5.3 Standard Conditions ......................................... 35
    4.5.4 Special Conditions ........................................... 36
  4.6 Review of Permits ................................................. 36

5.0 Technology-Based Standards .................................. 39
  5.1 Introduction ...................................................... 39
  5.2 The Range of Technology-Based Standards ....................... 40
    5.2.1 Best Practicable Control Technology Currently Available (BPT) 41
    5.2.2 Best Conventional Pollutant Control Technology (BCT) .......... 42
    5.2.3 Best Available Technology Economically Achievable (BAT) ..... 43
    5.2.4 New Source Performance Standards (NSPS) ..................... 44
  5.3 Setting Effluent Limits .......................................... 45
    5.3.1 Effluent Limitation Guidelines (ELGs) ...................... 45
    5.3.2 Best Professional Judgment (BPJ) .......................... 47
    5.4 “Fundamentally Different Factors” (FDF) Variance .............. 47
    5.5 BAT Variances .................................................. 49

6.0 Water Quality–Based Effluent Limitations .................. 51
  6.1 Introduction ....................................................... 51
  6.2 History and Purpose of Water Quality–Based Effluent Limits .... 52
  6.3 Establishing Water Quality–Based Effluent Limits ............... 53
    6.3.1 Determining Water Quality Standards ......................... 53
    6.3.2 Total Maximum Daily Loads .................................. 58
    6.3.3 Threshold Determination of the Need for WQBELs ............ 61
  6.4 Water Quality Trading Policy of 2003 ........................... 62

7.0 Publicly Owned Treatment Works .............................. 65
  7.1 Introduction ....................................................... 65
  7.2 Regulation of Discharges from POTWs ............................ 66
    7.2.1 NPDES Permits for POTWs .................................... 67
    7.2.2 Primary Treatment Requirements .............................. 68
    7.2.3 Secondary Treatment Requirements ............................ 68
    7.2.4 Tertiary (or Advanced Secondary) Treatment Requirements ... 69
    7.2.5 Sewage Sludge Treatment and Biosolid Disposal .............. 69
