Acknowledgments

Gratitude is owed, first, to my students and colleagues at the University of Central Florida, particularly Michael Frumkin, Dean of the College of Health and Public Affairs, and Alisa Smith and James A. Beckman, current and former Chair of the Department of Legal Studies, respectively, for their friendship and enthusiastic support of my scholarship and teaching.

Thanks also to Steve Dedmon, Professor and Associate Chair, Department of Aeronautical Science at Embry-Riddle Aeronautical University, for his example in the aviation law bar, his friendship over the last two decades, and his constructive comments.

I am especially thankful for my family for their excitement and support of this project.
