The Federal Civil Enforcement Committee of the ABA Section of Antitrust Law is pleased to present this second edition of the *DOJ Civil Antitrust Practice and Procedure Manual*. The Manual is intended to provide those practicing before the Antitrust Division with guidance on the process and procedures that drive the decisionmaking behind the Antitrust Division’s civil enforcement, competition advocacy, and issuance of guidance to the antitrust community.

Many who contributed to this Manual have served at the Antitrust Division; others regularly appear before the Division. We appreciate the efforts of the authors and editors to ensure that the Manual is objective, thorough, and balanced. The final product does not necessarily reflect the views of the Division or of the clients or employers of the authors.

This Manual is the product of the hard work of numerous individuals, and we were fortunate to have an experienced and dedicated team of contributing authors and editors. The following individuals contributed their time and expertise drafting and revising this second edition of the Manual:
