PREFACE

The Section of Antitrust Law is pleased to publish this Handbook of U.S. Antitrust Sources. The Handbook is designed to give practitioners easy access to the most fundamental resources for practicing antitrust law. It collects the full text of the relevant antitrust statutes, the most important statutory antitrust exemptions, all current federal antitrust guidelines, and the Hart-Scott-Rodino premerger notification rules.

The lead editor for this Handbook was Stephen A. Stack, ably assisted by Joyce E. Choi and Elizabeth A. N. Haas of the Section’s Civil Practice and Procedure Committee, Kristen M. Anderson, the Young Lawyer Representative to the Books and Treatises Committee, Tracey D. Berger, Wesley R. Powell, and Melissa Whitehead.
