Alan Kaminsky is a partner with the firm of Lewis Brisbois Bisgaard & Smith LLP in New York, where he serves as co-chair of the firm’s General Liability Practice Team. Mr. Kaminsky specializes in defending landowners, law enforcement and security providers, and businesses and corporations against high-profile personal injury actions. Mr. Kaminsky has obtained over 50 defense verdicts in trials involving claims of negligence.

Mr. Kaminsky is the editor of A Complete Guide to Lead Paint Poisoning Litigation, which was published by the American Bar Association in 1998 and is the predecessor to this book. Mr. Kaminsky has been a guest speaker at dozens of national conventions. He has also served as chair for a series of programs sponsored by the New York State Bar Association and regularly lectures to insurance companies, trade groups, and business associations.

Mr. Kaminsky is a graduate of New York University and of Hofstra University School of Law, where he served as the research editor for the Law Review. Mr. Kaminsky is admitted to the New York and New Jersey state and federal courts. He is a member of the American Bar Association, the New York State Trial Lawyers Association, the Bronx County Bar Association, and the New York State Bar Association.

Your comments are welcome. Mr. Kaminsky can be reached at Lewis Brisbois Bisgaard & Smith, New York office, telephone (212) 232-1340, or by e-mail at kaminsky@lbbslaw.com.
Karen L. Campbell is a partner in the New York office of Lewis Brisbois Bisgaard & Smith LLP, where she is a member of the General Liability, Environmental Law and Toxic Tort and Medical Malpractice practice teams. She has tried more than 30 cases to verdict or successful resolution for her clients, obtaining defense verdicts in many cases, including lead-based paint cases.

Ms. Campbell earned her J.D. from Tulane University School of Law. She is admitted to practice in the states of New York, New Jersey, and Florida and is a member of the Federation of Defense and Corporate Counsel and the Defense Research Institute.

Ms. Campbell can be reached by telephone at (212) 232-1391, or by e-mail at kcampbell@lbbslaw.com.

Bruce Bolger is a partner in the Los Angeles, California, office of Lewis Brisbois Bisgaard & Smith LLP, specializing in asbestos insurance coverage. Mr. Bolger has advised insurance companies regarding insurance coverage issues and has represented insurance companies in coverage litigation for more than 20 years. In addition, Mr. Bolger has lectured on issues of insurance coverage both to the public and to insurance companies.

Mr. Bolger can be reached by telephone at (213) 580-7959, or by e-mail at bolger@lbbslaw.com.

Nikki McKennedy is an associate in the San Francisco, California, office of Lewis Brisbois Bisgaard & Smith LLP, specializing in asbestos. Ms. McKennedy has been in the trenches in California asbestos defense litigation since 1996. In addition to asbestos, her practice has focused generally on products liability and mass toxic torts, including breast implants, food poisonings, pharmaceuticals, and other medical devices.

Ms. McKennedy can be reached by telephone at (415) 262-8542, or by e-mail at McKennedy@lbbslaw.com.

Expert Authors

Vincent M. Coluccio, DrPH is a Senior Environmental Health Consultant with TRC Corporation (NYSE: TRR), a nationwide environmental consulting and engineering firm. Dr. Coluccio has 20 years of professional consulting and training experience in the field of lead risk management and has served as an expert in over 400 lead toxic tort cases on behalf of both families and property owners. Dr. Coluccio earned his doctorate in public health from the Columbia University School of Public Health. He is a Fellow of the New York Academy of Medicine and a Fellow of the United Kingdom Royal Society of Medicine. He is also the Lecturer on Foreign Sources of Lead Exposure for the U.S. Centers for Disease Control, conveying best practices to health department personnel nationwide on assessing cultural sources of lead exposures.

Dr. Coluccio has managed lead-based paint risk management services for realty firms with tens of thousands of pre-1978 multifamily dwelling units nationwide. He serves on the NYC Department of Health Lead Poisoning Prevention Technical Advisory Committee. He is also co-founder and first president of the Lead and Environmental Health Association, and editor and co-author of the textbook Lead-Based Paint Hazards: Assessment and Management, published in 1994 by Van Nostrand Reinhold Publishers.

David Masur, Ph.D., ABPP is a clinical professor of neurology at the Albert Einstein College of Medicine, and is the director of the Division of Neuropsychology in the Department of Neurology at Montefiore Medical Center in the Bronx, N.Y. He is Board Certified in Clinical Neuropsychology. Dr. Masur has had extensive experience in the neuropsychological evaluation of many neurotoxic syndromes including lead poisoning, and teaches clinical neuropsychological assessment to both neurologists and graduate students in neuropsychology.
