Foreword ................................................................. xxxvii

Preface ................................................................. xxxix

List of Abbreviations ................................................. xli

**PART I. COMMENTARY ON THE AMERICA INVENTS ACT**

**Understanding the America Invents Act and Its Implications for Patenting** ............ 3

*Robert A. Armitage*

Overview: An Historic Reform, Capping a Three-Decade Revolution in U.S. Patent Law ................................................................. 3

The Vocabulary of the New Patent Law: Understanding the New Nomenclature ............ 9

The Evolution of the Text of the AIA Non-Obviousness Requirement ..................... 14

Comparing the Terms “Effective Filing Date” and “Effectively Filed” .................... 18

Building New § 102(a): The Step-by-Step Construction .......................................... 23

  Step Zero: Understanding the Drafting Challenge of Pre-AIA § 102 .................... 23

  Step One: Conscious Congressional Subtraction from Pre-AIA § 102 ................... 27

  Step Two: Choosing Pre-AIA § 102(b) as New § 102(a)(1)’s Backbone ................ 29

  Step Three: Crafting the “Public Disclosures” Provision in § 102(a)(1) ............ 30

  Step Four: Clarifying the “Available to the Public” Standard ......................... 35

  Step Five: Earlier “Patent-Filing Disclosures” as § 102(a)(2) Prior Art ............ 36

Under New § 102, the Hilmer Doctrine Becomes Moot ........................................... 38

Constructing Inventor—and Collaboration-Friendly Exceptions: § 102(b) ............... 39

  Disclosed, Subject Matter Disclosed, Publicly Disclosed .................................. 40

  Subparagraph (A) Exceptions: The Inventor’s Own Work .................................. 41

  Subparagraph (B) Exceptions: Publicly Disclosed Subject Matter ..................... 44

  Subparagraph (C) Exception: Co-workers and Other Collaborators .................... 48

Invalidity, Unenforceability and the “Best Mode” Requirement ............................ 51

Inventor-Related Provisions in the First-inventor-to-file World ............................ 55

  Assignee as Patent Applicant: The Real Party in Interest Can Seek the Patent .... 56

  The Necessity to Leave Pre-AIA § 102(f) with No AIA Statutory Counterpart .... 57

  Naming the Inventor of the Application for Patent: The Fundamental Requirement ................................................................. 59

  The New and Trivialized “Inventor’s Oath” Requirements ............................... 59

  Simplified Inventor Documentation Needed before Allowance .......................... 59

  Inventor Documentation: Required Authorization/Confirmation Statements ........ 61

  Alternative to the Submission of an Oath or Declaration in the Assignment ........ 62

  The Two-Statement/One-Time Nature of Required Inventor Documentation .......... 62

  Correction of Inventorship: New Opportunities for Patent Applicants .............. 64

Supplemental Examination: The Ultimate Boon for the Honest Patent Applicant ........... 65

  The New Mechanism for Supplemental Examination ....................................... 68

  Consequences on Enforceability of a Patent Following Supplemental Examination ................................................................. 69

  Use of Supplemental Examination by Patent Owners: The Public Benefit .......... 70

  New and Creative Patent Prosecution Options Making Use of Supplemental Examination ................................................................. 71
Deceptive Intention Limitations on Remedial Action: Congressional Repeal ................. 72
Reissue Available in Situations Where Deceptive Intent May Have Been Present ......................................................... 75
Impact of Invalid Claims and the Patent Owner’s Right to Disclaim and Enforce ........ 76
Optimizing the Opportunities Afforded by the America Invents Act ....................... 78
Conclusions ................................................................. 79

A Guide to the Legislative History of the America Invents Act ........................................ 81
Joseph D. Matal
Introduction ............................................................... 81
The Role of Legislative History ........................................ 82
The Path to Enactment of the AIA .................................... 83
The 110th Congress (2007–2008) ..................................... 84
The 111th Congress (2009–2010) ..................................... 86
The 112th Congress (2011–2012) ..................................... 88
Sections of Title 35 Amended by the AIA .................................. 90
35 U.S.C. § 100(f), (g), (h), and (j)—Definitions of “Inventor,” “Joint Inventor,” “Joint Research Agreement,” and “Claimed Invention” ....................... 90
35 U.S.C. § 100(i)—Definition of “Effective Filing Date” ............................. 91
35 U.S.C. § 102—Overview ............................................... 92
35 U.S.C. § 102(a)—The First-to-File Debate .................................. 94
  The March 2011 Senate Debate ...................................... 94
  The June 2011 Debate in the House of Representatives ......................... 100
  The September 2011 Senate Debate .................................. 102
35 U.S.C. § 102(a)—The New Definition of Prior Art ............................. 103
35 U.S.C. § 102(b)—The Grace Period ................................... 111
35 U.S.C. § 102(c)—The CREATE Act .................................... 119
35 U.S.C. § 102(d)—Effective Date of Patents and Applications That Are Cited as Prior Art .......................................................... 122
35 U.S.C. § 103—Nonobviousness ........................................ 123
35 U.S.C. § 111(b)(8)—Provisional Applications ............................. 123
35 U.S.C. § 115—Inventor’s Oath or Declaration ............................. 124
35 U.S.C. § 122(e)—Third-Party Submissions of Prior Art ......................... 124
Uncodified Sections of the AIA ............................................. 129
AIA § 3(i)—Small Business Study ....................................... 129
AIA § 3(n)—Effective Date of the First-to-File Rule and the New Definition of Prior Art .......................................................... 130
AIA § 14—Ban on Tax-Strategy Patents ................................... 132
AIA § 21—Travel Expenses and Payment of Administrative Judges ................. 134
AIA § 23—Satellite PTO Offices .......................................... 134
AIA § 24—Name of the Detroit Satellite Office ............................. 135
AIA § 25—Priority Examination for Important Technologies ......................... 136
AIA § 26—Study of PTO Implementation of the AIA ............................. 136
AIA § 27—Study on Gene Patents ......................................... 136
PART II. SUMMARIES OF LEGAL DEVELOPMENTS
The framework of part II of the Annual Review consists of a master index of topics, as shown below. Legal developments covered in this volume are italicized and referenced with page numbers.

Chapter 1. Patents ................................................................. 143
  Introduction ................................................................. 143
  Section 1. Patent Practice and Procedure .................................. 145
    A. Policies
      1. Constitutional Basis
      2. Social Justifications
        a) Economic Rationales
        b) Noneconomic Rationales
    B. Structure .............................................................. 145
      1. Congressional Activities
        a) Delegation to Judiciary
        b) Delegation to USPTO
        c) Legislation
      2. Judicial Review .................................................. 145
        a) Deference ........................................................ 145
          (1) Factual Determinations ..................................... 145
            Requisite Standard of Evidence in Review of Obviousness
            Determinations ............................................... 145
          (2) Legal Determinations
            b) Leadership Qualifications
    C. Procedures ........................................................... 146
      1. Application Contents
        a) Nonprovisional Applications
          (1) Oath
          (2) Specification
            (a) Disclosure
            (b) Claims
          (3) Drawings
          (4) Filing Fees
        b) Provisional Applications
      2. Secrecy and Publication
      3. Examination ..................................................... 146
        Examiner Need Not Provide Claim Construction in Setting Out
        Prima Facie Case of Invalidity ................................... 146
        a) New Matter
        b) Prosecution Laches
        c) Continued Examination
d) Interviews .......................... 148

Applicants Must Be Afforded Opportunity to Argue BPAI’s
New Ground of Rejection .............................. 148

Patentability of Dependent Claims Must Be Separately
Argued before the BPAI .............................. 149

USPTO Constrained by Administrative Procedure Act to
Provide Notice and Opportunity to Respond When Changing
Basis of Examiner’s Rejection .......................... 150

f) Revival

4. Continuation and Divisional Practice

a) Continuations

(1) Requirements
   (a) Same Inventor
   (b) Same Invention
   (c) Copendency
   (d) Cross Reference

(2) Limits on Continuation Practice
(3) Continuations-in-Part

b) Divisionals

D. Practice before USPTO

1. Rules of Practice
2. Suspension or Exclusion from Practice
3. Unauthorized Practice

E. Post-Patent Issuance .............................. 152

1. Certificate of Correction
2. Reissue .............................. 152

a) Eligibility .............................. 152

Divided Federal Circuit Endorses Use of Reissuance for
“Hedging” Dependent Claims .......................... 152

(1) New Matter Prohibition
(2) Error .............................. 153
   (a) Restrictions and Divisional Applications
   (b) Nonrecapture Rule .............................. 153
      Reissue Claims Not Broadened and Reissue Recapture
      Inapplicable Where Construction of Reissue Claim
      Results in Claim Scope Commensurate with Original
      Patent .............................. 153
      Federal Circuit Applies Recapture Rule in Denying
      Reissue Claims .............................. 154

(3) Broadening

b) Limitations on Remedies .............................. 155

(1) Expiration
(2) Intervening Rights .............................. 155

Disclaimer of Claim Scope in Reexamination Can Give Rise
to Intervening Rights .............................. 155
   (a) Already Existing Embodiments
   (b) Compulsory License for Future Uses
3. Reexamination .................................................. 157
   a) Ex Parte .................................................. 157
      Effect of Previously Litigated Disputes on Reexamination
      Proceedings ............................................ 157
      Whether a Child Application Should Receive Benefit of Priority
      Date of Parent Application May Be Properly Considered during
      Patent Reexamination ................................ 158
   b) Inter Partes ............................................. 160
      Federal Circuit Determines When 35 U.S.C. § 315(c) Estoppel
      Attaches ............................................... 160

4. Disclaimers

5. DedICATIONS

6. Oppositions

Section 2. Claim Interpretation .................................. 161
   A. Allocation to Proper Decisionmaker
      1. Law Versus Fact
      2. Judge Versus Jury
   B. Deference
   C. Pertinent Sources ........................................ 161
      1. Intrinsic Sources ..................................... 161
         Claim Construction That Conflicted with Construction of Similar
         Term in Related Patent Held Improper .................... 161
         Federal Circuit Rejects Construction of “Predetermined” as
         Meaning a “Range,” but Agrees That “Within” Does Not Mean
         “Always Within” ........................................ 162
         Summary Judgment of Noninfringement Vacated Based on
         Erroneously Limiting Claim Construction of Terms Not Disclosed
         in Specification .......................................... 163
         Federal Circuit Vacates Summary Judgment, Jury Verdict,
         Reverses Findings of Inequitable Conduct, and Affirms Findings
         of Invalidity ............................................. 164
      a) Claims .................................................. 165
         (1) Preamble ............................................. 165
            Determining Whether Claim Preamble Is Limiting Requires
            Application of Multiple Principles ..................... 165
         (2) Claim Differentiation ................................ 167
      b) Specification ........................................... 167
         Federal Circuit Resolves Split in District Court Claim
         Constructions in Multidistrict Litigation ................. 167
         Limited Disclosure in Specification Supports Limited Claim
         Scope, Regardless of Claim Differentiation ................ 168
         Claim Construction Based on Plain Meaning and Descriptions
         in Specification .......................................... 169
         Scope of Claim Terms Must Be Consistent with Extent of
         Disclosure in Specification .............................. 171
         Summary Judgment Reversed Where Claim Construction Narrowed
         Term Beyond Plain and Ordinary Meaning without Support in
         Intrinsic Evidence ....................................... 173
         (1) Objects of Invention
         (2) Lexicography
c) Prosecution History

2. Extrinsic Sources
   a) Dictionaries
   b) Treatises
   c) Experts
   d) Prior Art

D. Procedures
1. Disclosures
2. Markman Hearings

E. Format

1. Transitional Phrases
2. Common Terms
3. Types

a) Dependent
b) Product-by-Process
c) Jepson
d) Means-Plus-Function
   Presumptions Regarding Means-Plus-Function Limitations
      (1) Corresponding Structure
      (2) Scope of Equivalents
e) Computer System

Section 3. Patent Requirements

A. Patentable Subject Matter

1. Static Configurations
   a) Articles of Manufacture
   b) Machines
   c) Compositions of Matter
   d) Biotechnology and Animals
      Federal Circuit Affirms Patent Eligibility of Isolated DNA
   e) Plants
   f) Printed Matter

2. Processes and Methods
   Method Claims Patent Eligible under Machine-or-Transformation
   Test if They Contain Limitations Directed to Further
   Transformative Steps
   a) Business Methods
   b) Tax Strategies

3. Information Technology
   a) Software
   b) Signals

4. Exceptions
   a) Abstract Ideas
      Method and Computer-Readable Medium Claims for Verifying
      Internet Credit Card Transactions Were Not Patent Eligible
      Subject Matter
      Internet Process May Be Patentable Subject Matter
      Abstractness Must Be “Manifest” to Be Unpatentable under
      35 U.S.C. § 101
   b) Laws of Nature
c) Mental Processes
d) Considerations
   (1) Tangible
   (2) Physical
   (3) Useful

B. Utility
   1. Classical
   2. Practical

C. Single Invention
   1. Same Invention Double Patenting
   2. Obviousness-Type Double Patenting

D. Novelty ................................................................. 185
   1. Technological Contents of Reference
      a) All Elements Rule
      b) Possession and Enablement
      c) Accidental and Inherent Anticipations
   2. Priority-Based Prior Art—§ 102(a) ................. 185
      Practicing the Prior Art as a Defense ............... 185
      a) Prior Knowledge by Public
      b) Prior Use
      c) Prior Disclosure in Printed Publication
      d) Prior Patenting
   3. Prior Application by Another—§ 102(e)
   4. Derivation and Lack of Originality—§ 102(f)
      a) Prior Knowledge by Public
      b) Prior Use
      c) Prior Disclosure in Printed Publication
      d) Prior Patenting
   5. First-to-Invent—§ 102(g) ................................. 186
      Acts Qualifying as “Made by Another in This Country” under
      35 U.S.C. § 102(g)(2) ................................. 186
      a) Conception
      b) Reduction to Practice ...................................... 187
         Uncorroborated Inventor Testimony Insufficient to Antedate
         Prior-Art Reference; Cataloged Library Document in a
         Foreign Library Established as a Publication under
         35 U.S.C. § 102 .................................... 187
         Invalidity Affirmed When Accused Infringer Reduced
         Composition to Practice but Did Not Fully Appreciate Effects
         of Individual Compounds in Its Composition ............ 188
      c) Diligence
      d) Exceptions
         (1) Foreign Priority—§ 119
         (2) Priority Based on PCT Applications
         (3) NAFTA and GATT/TRIPS
   6. Prior Art in Relation to Filing Date—§ 102(b) ............ 190
      a) Grace Period
      b) Prior Public Disclosure
         (1) Prior Knowledge by Public
         (2) Prior Use
         (3) Prior Disclosure in Printed Publication
         (4) Prior Patenting
      c) Prior Commercialization ................................. 190
(1) On Sale .................................................. 190
   (a) Adequate Technological Completion .................................. 190

On-Sale Bar Requires That Invention Be Ready for Patenting at Critical Date, Not When Offer Was Made .......... 190

(b) Adequate Commercial Exploitation

(2) Public Use
   (a) Nonteaching Disclosure
   (b) Use by Independent Third Parties
   d) Experimental Use Exception

7. Abandonment—§ 102(c)
8. Prior Nonconvention Filing by Applicant—§ 102(d)

E. Nonobviousness ........................................ 191
1. Question of Law
2. Factual Determinations—Four Graham Factors ................. 191

Patentee Failed to Show Nexus between Commercial Success and Patented Features of System for Exchanging Data Via a Keypad and Internet ............................................. 191

a) Scope and Content of Prior Art .................................. 193
   (1) Analogous v. Nonanalogous Art .................................. 193

Pertinence of References Cited under 35 U.S.C. § 103(a) .... 193

(2) Motivation to Combine Prior Art ................................. 194

Selection of Lead Compound over Other Known Lead Compounds and Replacing Substituent Groups with Chemical Opposites Renders Patent Nonobvious ........... 194

   (a) Obvious to Try
   (b) Predictability
   (c) Design Incentives
   (d) Market Demand
   (e) Common Knowledge
   (f) Common Sense and Ordinary Creativity

b) Differences between Claimed Invention and Prior Art ......... 195
Patentee Failed to Overcome Obviousness .......................... 195

c) Level of Ordinary Skill in the Pertinent Art

d) Secondary Considerations ................................. 197
Factual Findings Necessary for a Finding of Obviousness ...... 197

(1) Copying by Others
(2) Licensing
(3) Long Felt Need
(4) Commercial Success
(5) Failure of Others
(6) Simultaneous Invention

3. Unexpected Properties and Results
4. Chemical/Biotechnological Processes

F. Enablement
1. Breadth of Disclosure
2. Undue Experimentation
G. Written Description ................................................................. 198
  Federal Circuit Tackles Whether Claimed Subject Matter Not Passing
  the Written Description Test Can Be a Trade Secret ................. 198
  Federal Circuit Invalidates Patent for Failure to Identify or Isolate
  DNA Mutation ......................................................................... 199
  Written Description Threshold for Claiming Genus .................. 200
  Later-Added Claims to CIP Fail to Comply with Written Description
  Requirement ........................................................................... 202
  Claims Not Addressing All Problems Identified in Specification Are
  Sufficiently Described .............................................................. 203
H. Best Mode ............................................................................ 204
  Incorporation by Reference Accomplished by Clear and Unequivocal
  Identification of Prior Application .............................................. 204
  Specification Supported “Single Anchor . . Adapted to Enter a
  Groove” Limitation Despite Not Mentioning Word “Groove” ...... 205
  Patent Disclosing Range Still Failed Best Mode Requirement, but
  Claims Lacking Intrinsic Guidance Not Held Indefinite ............ 206
I. Indefiniteness ......................................................................... 207
  District Court May Correct Clear Errors in a Patent’s Claims When
  Each of Multiple Possible Corrections Would Leave the Claim with
  the Same Meaning ................................................................. 207
  1. Means-Plus-Function .......................................................... 208
    Computer-Implemented Means-Plus-Function Element Not
    Supported by Sufficient Disclosure of Algorithm Held Indefinite .... 208
  2. Mixed System-Method Claims

Chapter 2. Patent Litigation .......................................................... 211
  Introduction ........................................................................... 211
  Section 5. Patent Infringement and Defenses ................................. 214
    A. Direct Infringement ............................................................... 214
      Ordinary Meaning of a Claim Construction Used to Affirm Grant of
      JMOL ................................................................................. 214
      Summary Judgment of No Invalidity Affirmed Based on Claim
      Construction ........................................................................ 216
        1. Temporal Scope
          a) Patent Term
          b) Term Restoration
          c) Term Extensions for FDA-Regulated Goods
          d) Patent Term Adjustment
        2. Geographic Scope
          a) Territorial Scope of Patent Rights
             (1) Extraterritoriality
             (2) International Protection
          b) Situs of Accused Activity
             (1) Making
             (2) Using
             (3) Offering for Sale
3. Commerciality of Infringing Activity
   a) Requirements
      (1) Make
      (2) Use
      (3) Sell
      (4) Offer for Sale
      (5) Importation

4. Technological Scope .................................................. 217
   Judicial Estoppel Found Not to Apply Where Characterization of
   Accused Infringing Product Never Contested .......................... 217
   Federal Circuit Affirms Denial of JMOL on Noninfringement of
   Tobacco Curing Patents Based on Jury’s Crediting One Expert over
   the Other ................................................................. 218
   Patentee’s Clear and Unambiguous Disclaimer to Distinguish
   Prior Art during Prosecution of Asserted Patent Precluded Claim
   Construction That Recaptured Disclaimed Subject Matter .......... 219
      a) Literal Infringement
      b) Doctrine of Equivalents
      c) Experimental Activity Exception

B. Indirect Infringement .................................................... 220
   1. Inducement ............................................................. 220
      Inducing Infringement Requires Knowledge That Inducing Acts
      Constitute Patent Infringement ..................................... 220
   2. Contributory Infringement

C. Joint Infringement ........................................................ 224
   “Use” of a System Means Putting the System as a Whole into Service,
   but Does Not Require Direct Control over Each System Element .... 224

D. Willful Infringement
   1. Opinion of Counsel
   2. Copying

E. Hatch-Waxman ............................................................. 225
   Injunction Bars Approval of ANDAs Based on Hatch-Waxman Act ..... 225

F. Design Patent Infringement

G. Misuse

H. Exhaustion ................................................................. 226
   Patent Exhaustion Applies Where Predecessors Had License ........ 226
   Authorized Sales Do Not Become Nonauthorized if Licensees Fail to
   Make Royalty Payments ............................................... 228

I. License
   1. Express
   2. Implied

J. Inequitable Conduct ...................................................... 229
   More Stringent Standard for Proving Inequitable Conduct .......... 229
   Federal Circuit Remands Finding of Inequitable Conduct for
   Reconsideration in Light of Therasense ................................ 232
   Summary Judgment on Defense of Inequitable Conduct Denied Because
   of Issue of Intent ....................................................... 233
   No Inequitable Conduct for Failure to Disclose References Used to
   Reject Claims in Ancestor Applications ................................ 234
Defendant’s Inequitable Conduct Defense Rejected for Failure to Provide Particularized Allegations .................................................. 235

Patents Were Not Unenforceable over Prior-Art Reference .............. 235
1. Materiality
2. Intent to Deceive

K. Defenses to Doctrine of Equivalents ........................................... 236

Partial Summary Judgment of Noninfringement Literally or under the Doctrine of Equivalents Supported by Claim Vitiation and Specific Exclusion ............................................................... 236
1. Coverage of Prior Art
2. Estoppel
   a) Prosecution History Estoppel
      (1) Argument-Based Estoppel
      (2) Amendment-Based Estoppel
3. Disclaimer
4. All-Elements Rule

L. Equitable Estoppel

M. Laches ................................................................. 238

Federal Circuit Reverses Finding of Prosecution Laches Because of No Harm to Infringer or Patentee .......................................... 238

N. Antitrust
1. Knowingly Unenforceable Patents
2. Knowingly Invalid Patents

O. Sovereign Immunity

P. Ownership ..................................................................... 239

Bayh-Dole Act Clarifies Priority Rights between the Government and the Contractor to Inventions Implicitly Owned by the Inventor ................. 239

Q. Inventorship
1. Definition
2. Joint Inventorship
3. Joint Applications
4. Correction

R. Reverse Doctrine of Equivalents

Section 6. Court Practice and Procedure ........................................... 243

A. Pre-Filing Investigation

B. Jurisdiction ..................................................................... 243

Court Rejected Argument That Claim Transfer to Nonparty Eliminated Any Actual Controversy ................................................. 243

1. Subject Matter Jurisdiction .................................................... 244

Declaratory Judgment Jurisdiction Conferred under the Patent Laws Despite Plaintiff’s Defense under State Law ............................... 244

Controversy between Patent Owner and Licensee’s Customers Supports Jurisdiction for Licensee’s Declaratory Judgment Action ............................................................. 245

2. Personal Jurisdiction ......................................................... 248

Licensing and Marketing Efforts Do Not Establish Basis for Personal Jurisdiction in a Declaratory Judgment Patent Action .... 248
District Court Abused Its Discretion in Dismissing Russian Company for Lack of Personal Jurisdiction .......................... 249

C. Venue
1. Patent Venue Statute
2. General Venue Statute
3. First Filed Action
4. Venue Transfer ................................................................. 251
   Writ of Mandamus Issued to Transfer Case Where District Court Gave Undue Weight to Plaintiff’s Choice of Forum, Ignoring Other Factors ................................................................. 251
   District Court Abused Its Discretion in Denying Motion to Transfer ................................................................. 252
   Federal Circuit Grants Mandamus Petition for Venue Transfer Despite District Court’s Prior Experience with Asserted Patent .... 252
   District Court Denied Motion to Transfer on Grounds That a Forum Selection Clause for Online Services Did Not Apply to Patent Infringement Suit ................................................................. 253
   Federal Circuit Grants Writ of Mandamus Transferring Case to Northern District of California ................................................................. 254
   Federal Circuit Holds District Court Failed to Evaluate All Transfer Factors under 28 U.S.C. § 1404(a) ................................................................. 255
   Federal Circuit Declines to Apply Per Se Rule Favoring Convenience Factors over Judicial Economy in Motions to Transfer ................................................................. 256
   Transfer to Defendant’s Home State Denied Given That Both Parties Had Real Connections to Current Forum, and Transfer Was Not Clearly More Convenient ................................................................. 257

D. Standing ................................................................. 259
   Implicit Accusations of Contributory Infringement Sufficient to Establish Article III Case or Controversy ................................. 259
   Putative Patent Holder Lacked Standing to Sue for Infringement .... 260
   Where Parties Intended Assignment, Predecessor Company, Although Not Yet in Existence, Acquired Rights Subsequently Passed to Successor Company ................................................................. 261

   Existence of Physical Evidence Made for the Purpose of Testing in
   Support of a Noninfringement Defense ............................. 278
   Sanctions Imposed for Violation of Preservation Orders and
   Spoliation of Evidence ............................................. 280

G. Settlement ............................................................. 281
   Settlement Agreement Did Not Release Patent Infringement Claims
   When Language Was Unclear and Included an Option to License
   Patented Technology .................................................. 281
   No Waiver of Right to Appeal Based on Stipulation to the Form, as
   Opposed to the Substance, of a Final Judgment ................ 283

H. Trial ................................................................. 283
   Federal Circuit Affirms District Court’s Decision to Limit Number of
   Asserted Claims to Keep Case Manageable ..................... 283
   Senior Judge Does Away with Markman Hearings ............... 284
1. Presumption of Validity ............................................. 285
   U.S. Supreme Court Determines That the Patent Act Requires
   Invalidity to Be Proven by “Clear and Convincing” Evidence .. 285
2. Evidence ............................................................... 288
   Patent Applicant’s Right to Introduce New Evidence before the
   District Court .......................................................... 288
   Patent Law Expert Permitted to Testify Outside Presence of Jury on
   Patentee’s Failure to Disclose Material Information and Conduct ... 290
3. Right to Trial by Jury
4. Jury Instructions
5. Form of Verdict
6. Bifurcation
7. Post-trial
8. Appeal ................................................................. 291
   Federal Circuit Reaffirmed That a Party May File a Cross-Appeal
   Only Where It Is Adversely Affected by the Appealed Judgment in
   Some Particular Which It Seeks to Have Modified ................. 291
   Stay of Litigation Regarding Certain Defendants Not Appealable
   as a Final or Interlocutory Order under 28 U.S.C. §§ 1295, 1292 . 292
   Federal Circuit Found That Stay of Permanent Injunction Was
   Warranted in View of Patentee’s Inability to Make and Sell
   Replacement Products ............................................. 294
   Federal Circuit Determines When Judgment Is Final for Purpose
   of Appeal .......................................................... 294

I. Preclusion
   1. Claim Preclusion
   2. Issue Preclusion

J. Malpractice .......................................................... 295
   District Court Has Jurisdiction over Legal Malpractice Claim Where
   Plaintiff’s Right to Relief Necessarily Depends on Resolution of a
   Substantial Question of Patent Law ............................... 295
   No Good Cause Existed to Bar Plaintiff’s Trial Counsel Who Had
   Access to Defendants’ Confidential Information from Participating in
   Reexamination of Plaintiff’s Patents ............................. 296

Section 7. Judicial Relief ................................................. 297
A. Preliminary Injunctions ............................................ 297
   Preliminary Injunction Affirmed Enjoining Inducement of Infringement
   of Claims of Method Patents ..................................... 297
   Preliminary Injunction Improper Where the Accused Raises a Defense
   That Has Substantial Merit ....................................... 298
   1. Probability of Success
   2. Irreparable Injury
   3. Public Interest
   4. Balance of Hardships

B. Permanent Injunctions .............................................. 299
   District Court Abused Its Discretion in Denying Permanent Injunction ... 299
   Federal Circuit Partially Upheld Finding of Contempt but Overruled
   KSM and Remanded in Part for District Court to Apply New “Colorable
   Differences” Test ............................................... 300

C. Damages ............................................................... 303
   1. Reasonable Royalty ............................................. 303
      Federal Circuit Rejected Use of 25-Percent Rule to Calculate
      Reasonable Royalty in Hypothetical Negotiation ................ 303
      Motions in Limine Granted to Preclude Expert from Proving
      Reasonable-Royalty Damages Based on the Entire Market
      Value Rule .......................................................... 306
      a) Financial Factors
         (1) Gross Profit
         (2) Operating Profit
         (3) Expected Profit
      b) Technical Factors
         (1) Advantages
(2) Extent of Use
(3) Nature of Invention
(4) Patentee-Accused Infringer Relationship
c) Licensing Factors
(1) Nature of License
(2) Licensing Policies
(3) Comparable Licenses
(4) Term of License
d) Royalty Rates

2. Lost Profits ................................................. 307
   Federal Circuit Remanded District Court’s Determination to Permit
   the Jury to Consider Lost-Profits Damages ...................... 307
   a) Demand
   b) Noninfringing Substitutes
   c) Capacity
   d) Proven Profit
   e) Price Erosion
   f) Market Share

3. Conveyed Sales

4. Marking

5. Attorneys’ Fees ........................................ 309
   Award of Attorneys’ Fees Denied for Lack of Objective Baselessness . 309
   Award of Attorneys’ Fees under 35 U.S.C. § 285 Vacated Because
   Case Not Exceptional ........................................... 311

6. Costs and Prejudgment Interest ......................... 312
   Agreement of the Parties Governs Damages and Precludes
   Prejudgment Interest ........................................... 312
   Prejudgment Interest Calculated from Date of First Infringement
   Using Annualized and Compounded Commercial Paper Rate ........ 314

Section 8. ITC Practice and Procedure ...................... 315
A. Pleading ................................................. 315
   Litigation Expenses Not Sufficient to Satisfy Section 337’s Domestic
   Industry Requirement ......................................... 315
   ITC Rule Amendments Require Further Development of Public Interest
   Issues .............................................................. 316

B. Discovery

C. Motion

D. Trial ....................................................... 317
   ITC Issues Initial Determination Finding No Violation of Section 337 by
   Respondent in Connection of Its Electronic Devices .............. 317

E. Relief ....................................................... 319
   Patent Holder Entitled to Vacatur of ITC Ruling of Invalidity Where
   Patent Expired Prior to Conclusion of Appeal ................... 319
   ITC Provided Sufficient Basis for Issuance of Limited Exclusion Order;
   Its Actions Were Not Arbitrary, Capricious, an Abuse of Discretion, or
   Otherwise Not in Accordance with Law ........................ 320
   In Nascent Industries, Certain Prepatent Issuance Activities May Be
   Used to Show That a Domestic Industry Is in the Process of Being
   Established ....................................................... 322
Chapter 3. Trademarks .......................................................... 325

Introduction ........................................................................ 325

Section 9. Nature of Trademarks ............................................. 328

A. Words, Numbers, Slogans .................................................. 328
B. Designs, Images ................................................................ 328
   No Registration for Scandalous and Immoral Bottle Design Depicting
   Raised Middle Finger ....................................................... 328
C. Colors, Sounds, Smells, Other ............................................. 329
   Color Blue Found Functional Despite Thirty Years of Use, Supplemental
   Registration, and Advertisement Highlighting Color .................. 329
   Where Color Combination Does Not Form Separate and Distinct
   Commercial Impression, It Does Not Function as a Mark and Cannot
   Be Registered ................................................................. 330
D. Spectrum of Distinctiveness ................................................ 331
   1. Fanciful
   2. Arbitrary
   3. Inherently Distinctive ..................................................... 331
      Refusal of Registration to Cuffs and Collar Trade Dress for Lack of
      InherentDistinctiveness Affirmed ...................................... 331
   4. Suggestive
   5. Secondary Meaning ...................................................... 332
      No Likelihood of Confusion Where Plaintiff’s Mark Featured
      Common Term and Had Acquired Distinctiveness in Limited
      Geographic Area ............................................................. 332
      Failure to Establish Secondary Meaning by Local Business
      Precludes Finding of Infringement by National Chain Using Similar
      Marks in Local Territory .................................................. 333
   6. Descriptive ................................................................. 334
      Mere Misspelling of Geographic Term Warrants Mark Refusal
      Where Proposed Mark Is Geographically Deceptively Misdescriptive 334
      Abbreviation Has Acquired Distinctiveness in Connection with
      Bibles ........................................................................... 335
   7. Generic ........................................................................ 336
      Mark Found Generic and Therefore Unregistrable .................. 336
      TTAB Reverses Genericness Refusal of Mark for Flash Drives ...... 337
E. Territorial Scope
   1. Zone of Protection
   2. Goodwill
   3. Extra-territorial Rights
F. State Registration
G. Federal Registration .......................................................... 339
   Gas Station Pole Spanner Sign Configuration Refused Registration as
   Nondistinctive Trade Dress ................................................ 339
   Section 2(c) Bars Registration of Mark Having Part of the Name of a
   Well-Known Living Individual Without Written Consent ............. 340
   1. Constructive Notice
   2. Constructive Use
   3. Incontestability .......................................................... 341
Contents

Design Marks Held to Be Functional and Thus Incapable of Trademark Protection Despite Plaintiff’s Ownership of Incontestable Trademark Registrations .......................... 341
Validity of Ownership of Incontestable Marks May Be Challenged .................. 342

4. Principal Register
5. Supplemental Register
6. Specimens
7. Intent-to-Use
8. Use in Commerce
H. Concurrent Use
I. Proper Use

Section 10. Trademark and Unfair Competition Actions and Defenses ............. 344
A. Infringement ................................................................. 344
1. Likelihood of Confusion ............................................... 344
   Federal Circuit Affirms Dismissal of Trademark Act Section 2(d) Oppositions Despite the Fame of Opposer’s Marks ................. 344
   Likelihood-of-Confusion Finding and Fee Awards Affirmed Where Mark Was Found to Be Distinctive ................................. 345
   Registration Refused Where Cited Marks Were Likely to Confuse Consumers Purchasing Related Goods ......................... 346
   TTAB Finds Likelihood of Confusion and Likelihood of Dilution with Famous Mark ..................................................... 347
   Petition to Cancel Granted Where Marks Were Nearly Identical and Relevant Consumers Would Not Exercise Great Deal of Care in Purchases ..................................................................... 348
   No Likelihood of Confusion or Dilution between Accessories and Educational Services .................................................. 349
2. Actual Confusion
3. Contributory Infringement ............................ 350
   Complying with Industry Practice Defeats Claim for Contributory Trademark Infringement .............................................. 350
   Defendant Not Liable for Acts of Affiliate under Vicarious Liability or Contributory Infringement Theories ......................... 351
4. Vicarious Liability
B. Unfair Competition ............................................................ 352
1. Lanham Act
   a. False Designation of Origin
   b. False Representation of Nature of Goods or Services
   c. False Endorsement (added)
   d. Palming Off
2. Common Law Unfair Competition ............................................ 352
   Standing under Section 17204 of the California Business and Professions Code Not Limited to Actions for Restitution ............ 352
C. Dilution ................................................................. 354
1. Likelihood of Dilution
2. Actual Dilution
3. Public Recognition
4. Famous Marks
5. Blurring ................................................................. 354
“Identical or Nearly Identical” Standard from the FTDA Found to Be Supplanted by the TDRA ........................................ 354

6. Tarnishment

D. Trade Dress ........................................ 355

1. Infringement ........................................ 355

  Court Grants Treble Damages after Entry of Default Judgment in Trade Dress and Design Patent Infringement Case against Government of Iran ........................................ 355

  No Preliminary Injunction in Product Design Trade Dress Infringement Case ........................................ 356

  Question of Functionality Found Inappropriate in Motion to Dismiss because of Inherently Factual Nature ........................................ 357

  Jury Verdict Finding Trade Dress Infringement Upheld Where Copying Was Direct and Intentional ........................................ 358

  Court Finds Trademark Infringement Claim Barred by Doctrine of Issue Preclusion ........................................ 359

2. Dilution

3. Defenses ........................................ 361

  Trademark Registrations for Bath Tissue Designs Cancelled Due to Functionality Where Utility Patents Claimed Same Designs ........................................ 361

4. Remedies

E. Defenses ........................................ 362

  Denial of Summary Judgment on Likelihood-of-Confusion Grounds ........................................ 362

  Plaintiff Lacks Standing to Assert Common Law Infringement Claims ........................................ 363

  Individual Assignment of ITU Application and Mark to Related Corporate Defendant Fell Under Exception to “Assignment in Gross” Rule and Was Valid ........................................ 364

  Finding of Lack of Standing to Assert False Advertising Claim Due to Failure to Show Reasonable Basis for Belief of Harm ........................................ 364

  1. Laches ........................................ 365

  Court Denies Defendant’s Motion to Dismiss for Lack of Personal Jurisdiction Based on Potentially Infringing Activities in Forum State ........................................ 365

  2. Estoppel

      3. Unclean Hands ........................................ 366

          Ninth Circuit Sets Out Test for Prima Facie Acquiescence Defense ........................................ 366

          Unclean Hands Defense Must Be Based on Conduct Related to the Mark Plaintiff Seeks to Enforce ........................................ 368

  4. Fraud ........................................ 369

      Eighth Circuit Upholds Jury Verdict Finding Fraud on the USPTO in Registering Credit Score Range as Trademark ........................................ 369

      Court Holds That It Has Power under Section 1119 to Order USPTO to Deny Pending Application and to Cancel Existing Registration Based on False Claim of Priority ........................................ 370

      Petition to Cancel for Fraud Falls Short of In re Bose Standard ........................................ 372

  5. Misuse

  6. First Amendment

  7. Nominative Fair Use ........................................ 373

      Court Finds Manufacturer of Coffee Maker Unlikely to Succeed on Infringement and False Advertising Claims against Manufacturer of Coffee Cartridges ........................................ 373
Contents

Court Holds Nominative Fair-Use Doctrine Allows Use of Plaintiff’s Company’s Name as Metatag on Website for Documentary Film That Discusses Plaintiff .............................................................. 374

8. Innocent Use

9. Abandonment ............................................................................................................. 375
   Naked License Results in Abandonment of Rights in Trademark ................................. 375
   Change in Corporate Status Did Not Result in Abandonment of Common Law Trademark Rights ................................................................. 376
   Court Finds Plaintiff Abandoned Trademark Rights through Period of Nonuse and Intent Not to Resume Use .......................................................... 377

F. Procedural Matters ..................................................................................................... 378
   “Reasonable Belief” Exception Caused Attorney-Client Privilege to Apply Even Where In-House Counsel Was Not Active Member of State Bar ................................................................. 378
   Eighth Circuit Rejects Attempt to Set Aside Consent Judgment on Grounds of Fraud ..................................................................................... 379

1. Jurisdiction .................................................................................................................. 380
   Business Based in Houston Lacks Sufficient Contacts with Illinois for Specific Personal Jurisdiction ................................................................. 380
   Defendant’s National Advertising and Numerous In-State Customers Sufficient Contacts to Support Specific Personal Jurisdiction ................. 381
   Personal Jurisdiction Established through Interactive Website and Intentional Infringing Conduct ................................................................. 382

2. Venue

G. Legislation

Section 11. Trademark Relief ............................................................................................ 384
   A. Plaintiff’s Lost Profits .............................................................................................. 384
      Actual Confusion Not Required for Award of Defendant’s Profits Where Licensee Exceeds Scope of License .......................................................... 384
   B. Reasonable Royalties
   C. Statutory Damages
   D. Corrective Advertising
   E. Defendant’s Lost Profits
      1. Apportionment
      2. Reverse Confusion
   F. Attorneys’ Fees
   G. Exceptional Case Remedies .................................................................................... 385
      Abuse of Process by Plaintiff Sufficient to Show an Exceptional Case under Lanham Act, Thereby Warranting Attorneys’ Fees for Prevailing Defendant ................................................................. 385
   H. Punitive Damages
   I. Special Counterfeit Remedies
   J. Injunctions .................................................................................................................. 387
      1. Preliminary Injunctions .......................................................................................... 387
         Preliminary Injunction Denied Due to Fraud and Trademark Abandonment .......... 387
Court Grants Preliminary Injunction for Infringement of Bottled Water Packaging and Design Trade Dress

2. Permanent Injunctions
3. Ex Parte Seizure Orders

K. ITC Practice and Procedure

Section 12. USPTO Trademark Practice and Procedure

A. Procedure

B. Oppositions
Opinion by Cereal Maker to Series of Applications for Yogurt Products Sustained on Likelihood-of-Confusion Grounds
Opposition Fails Based on Extensive Third-Party Uses and Visual Connotations of Respective Marks
TTAB Sustains Opposition Based on Applicant’s Lack of Bona Fide Intent to Use Mark with Alcoholic Beverages

Section 13. Trademark Licensing and Other Transactions

A. Licensing
CRADA Allows Government to Continue to Use Marks Despite Exclusive License Agreement

1. Quality Control
Marks Held to Be Abandoned Due to Naked Licensing

2. Sublicensing

B. Assignment
Chapter 4. Copyrights ................................................................. 407

Introduction ........................................................................... 407

Section 14. Subject Matter of Copyright ................................. 411
A. Originality and Fixation ..................................................... 411
   No Originality in Minor Changes to Existing Building Plans .... 411
   Short Phrases Not Protectable by Copyright .................... 412
   Single-Sentence Listserv Post Not Sufficiently Creative to Satisfy
   Originality ........................................................................ 413
B. Works Subject to Protection .............................................. 414
   1. Literary Works and Computer Programs
   2. Musical Works and Sound Recordings
   3. Motion Pictures and Audiovisual Works
   4. Dramatic Works, Pantomime, and Choreography
   5. Pictorial, Graphic, and Sculptural Works ...................... 414
      Flower Bed Is Not Authored or Fixed for Purposes of VARA... 414
      Lighting Fixture Designs Too Utilitarian to Be Copyrightable.. 416
      Design of Shot Glasses with Three-Dimensional Dolphins and
      Tigers Deemed Copyrightable ........................................ 417
   6. Architectural Works ...................................................... 419
      Evidence of Other Designs Insufficient to Prove Architects’
      Registered Designs for Low-Cost Houses Not Entitled to
      Copyright Protection .................................................... 419
   7. Compilations
   8. Derivative Works
C. Works Not Subject to Protection ....................................... 420
   1. Ideas and Inventions ...................................................... 420
      Mathematical Equations, Figures, and Text Not Protected by
      Copyright Act ............................................................ 420
   2. Useful Articles
D. Preemption ........................................................................ 422
   Implied Contract Claims Are Not Preempted by Copyright Act... 422
E. Commerce Clause

Section 15. Copyright Exclusive Rights and Limitations .......... 424
A. Exclusive Rights .............................................................. 424
   Proposed Class Action Settlement Agreement Deemed Unfair .... 424
   1. Reproductions ............................................................. 426
      Class Adequacy Requirement Must Be Met for Settlement Approval... 426
   2. Derivative Works
   3. Distribution ............................................................... 428
      Unauthorized Resale of Licensed Software Not Protected by
      First-Sale Doctrine ....................................................... 428
   4. Public Performance ...................................................... 429
      Music Downloads Are Not Public Performances; Blanket License
      Fees Must Reflect the Varying Nature and Scope of the Music Use ... 429
   5. Public Display
   6. Performance by Digital Audio Transmission
   7. Rights to Attribution and Integrity .................................. 432
      Motion to Dismiss Denied Where It Was Arguable That Placement of
      Colored Glass Tiles Could Qualify as a Painting under VARA ...... 432
B. Limitations on Copyright ........................................ 433
  1. Fair Use ......................................................... 433
     Use of Copyrighted Logo in Highlight Films Is Not Fair Use ...... 433
     Practice Questions in Published Lecture Notes and Texts Were Copyrightable Compilations, but No Summary Judgment Where Vendor Used Only Small Percentage of the Works .................. 435
  2. Statutory Exemptions
C. Anticircumvention .............................................. 436
     Buyers of Game Software with License Agreement Restrictions Not Owners ..................................................... 436
     Use of Software Subsequent to Bypass by Another Party of Technological Protections Insufficient to Trigger DMCA Anticircumvention Provision .............................................. 439
Section 16. Copyright Ownership, Duration, and Transfer ............... 440
A. Ownership ....................................................... 440
     Trade Association Lacks Standing to Sue Where It Did Not Own the Copyrights at Issue ........................................... 440
     1. Registration and Notice Formalities ............................... 441
        No Valid Copyright in Song Where Recording Was Not Included in Submission to Copyright Office ........................................... 441
        Copyright Certificate Gives Owner Presumption of Validity ...... 443
        Public Domain Posters Do Not End Copyright Protection for Movie Characters .................................................. 444
     2. Works Made for Hire
     3. Joint Works and Collective Works .................................. 446
        Comments of “No,” “Yes,” and “Go Back To It” Do Not a Joint Author Make .................................................. 446
        District Court Denies Defendants’ 12(b)(6) Motion to Dismiss Copyright Infringement Complaint Except for a Single Claim of Unfair Competition .................................................. 447
B. Duration
  1. Works Created on or after January 1, 1978
  2. Works Created before 1978
  3. Restoration of Copyright
  4. Renewal
C. Transfer .......................................................... 448
  1. Formalities ....................................................... 448
     Lack of Standing to Sue for Infringement Due to Clouded Chain of Ownership of Betty Boop Character .................................................. 448
     Written Agreement Eight Years Later Was Insufficient Evidence of Copyright Transfer .................................................. 450
  2. Termination
Section 17. Copyright Infringement and Defenses ...................... 452
A. Infringement ....................................................... 452
  1. Actionable Conduct ............................................... 452
     United States Not Directly or Secondarily Liable for Copyright Infringement Where Cached Versions of Websites Were Available after Removal of Infringing Works .................................................. 452
     Deletion of Gutter Credit Identifying Author of Photograph Violates DMCA .................................................. 453
Contents

Action Dismissed because Alleged Infringed Material Lacked Requisite Originality ..................................................... 454
Infringement of the Exclusive Right to Distribute Requires Actual Dissemination of a Copy of the Work .......... 455
Copyright Not Invalidated by Employee’s Conduct .................. 456
Unlicensed Karaoke Performances Infringe ASCAP Members’ Copyrights ............................................................. 457
Internet Company Not Liable for Direct Infringement without Showing of “Direct, Volitional Steps” to Infringe ............... 458
Parties’ Participation in Same Writing Contest Insufficient Evidence of Opportunity to Copy ................................. 458

2. Substantial Similarity .......................................................... 460
Copyright Holder Must Show Registered Work Was Infringed ...... 460
No Copyright Ownership Where Producer Suggested Ideas for Plots and Characters for Television Show ..................... 461
Copyright Infringement Claim against Harry Potter and the Goblet of Fire Dismissed for Lack of Substantial Similarity .......... 463
Copying a Competitor’s Website Product Images Constitutes Actionable Infringement ..................................................... 464
Music Video Was Substantially Similar to Protectable Images in Copyrighted Photographs .................................................. 465
Summary Judgment Not Granted When Evidence Exists For and Against Improper Appropriation ................................. 466

3. Contributory ................................................................. 467
Preliminary Injunction Appropriate Where Website Found to Contribute to Infringement by Allowing Users to Post Copyrighted Materials and Failing to Take Reasonable, Available Steps to Prevent Infringement ......................................................... 467
No Contributory Infringement Where Inducement Occurred Years before Alleged Infringing Works Were Created ................... 468

4. Vicarious ................................................................. 470
Court Willing to Hold Officers and Supervisors Vicariously Liable for Copyright Infringement of Employer ......................... 470

5. Criminal

B. Defenses ................................................................. 471
Website Where Users Can Share Videos Protected by DMCA Safe Harbor ............................................................. 471
First-Sale Doctrine Does Not Apply to Copies Manufactured Outside the United States .......................................................... 473
Provider of Online Music “Locker” Service and Search Engine Qualifies for DMCA Safe Harbor Protection, but Still Liable for Contributory Infringement for Failure to Remove Songs from Lockers Following DMCA Notices ............................................................................. 475
Distribution of Promotional CDs Triggers the First-Sale Defense to Infringement ............................................................. 477

1. Fair Use ................................................................. 478
No Fair Use in Commercial Appropriation of Multiple Photographs for Use in Derivative Artwork ................................. 478
Fair Use Found Where Nonprofit Organization Posted Entire Newspaper Article on Its Website ................................. 479
Fair Use Found Where Internet Blogger Posted Part of a Newspaper Article

2. Misuse

District Court Dismissed Copyright Misuse Claim for Damages with Prejudice, Copyright Misuse Declaratory Judgment Counterclaim, and Claim for Violations of California’s Unfair Competition Law with Leave to Amend

3. Estoppel

4. Implied License

Court Upholds Revocation of Implied License

5. Laches

6. Statute of Limitations

No Copyright Infringement Where Ownership Is in Dispute and Ownership Claim Is Time-Barred

7. De Minimis

Section 18. Copyright Relief

A. Injunctive Relief

Plaintiff May No Longer Presume Irreparable Harm in Ninth Circuit to Obtain Injunction in Copyright Cases

Showing of Likelihood of Success in Copyright Infringement Claim Does Not Necessarily Raise Presumption of Irreparable Harm

TRO Granted against Blog Owner Posting Excerpt from Sarah Palin’s Unreleased Book

Preliminary Injunction Granted against Company That Retransmitted TV Broadcasts over the Internet without Copyright Owners’ Consent

B. Damages

Prejudgment Interest May Be Awarded in Copyright Infringement Actions, Even Where the Measure of Damages Is the Infringer’s Profit

1. Actual

Compensation of $5,000 Deemed Reasonable for Postal Service’s Unauthorized Reproduction of Copyrighted Sculpture on Stamps

Hypothetical License Damages Were Grossly Excessive in Light of the Evidence Abstract

2. Statutory

Courts Must Consider Remittitur before Reducing Jury Award on Constitutional Grounds

Limit of One Statutory Damage Award Per Infringed Work

C. Costs and Attorneys’ Fees

Attorneys’ Fees and Costs for Trial

Attorneys’ Fees Grant Not Limited by Damages Award

D. Impoundment

Section 19. Copyright Practice and Procedure

A. Copyright Office

B. Procedural Matters

1. Formalities

Allegations That Defendants Shared Plaintiff’s Copyrighted Files over an Internet File-Sharing System Is Sufficient to Obtain Defendants’ Identities through Subpoena to Their ISP

2. Jurisdiction
