Introduction xvii

CHAPTER 1
Where To Go and How To Get There 1

I. Spaceflight Operations 1
II. The Physics of Spaceflight 3
   A. Earth/Space Boundary 3
   B. Describing an Orbit 3
   C. Spacecraft Orbits 5
   D. Getting into and Staying in Orbit 8
III. Power and Propulsion 11
   A. Delta-v 11
   B. Spacecraft Propulsion Systems 13
   C. Internal Power Systems 15
IV. Satellite Systems 16
   A. Components 16
   B. Threats and Security 18
   C. Constellations 18
V. Hazards of the Outer Space Environment 19
   A. Sustaining Human Life 19
   B. Microgravity 20
   C. Radiation 20
   D. Micrometeoroids and Space Debris 22
VI. Practical Uses of Outer Space 24
   A. Telecommunications 24
   B. Satellite Navigation 25
   C. Earth Observation 25
   D. Space Exploration 26
   E. Space Tourism 26
Glossary 26
Chapter 2
The History of Spaceflight 31

I. Theory and Early Practice 31
   A. Unmanned Spaceflight 33
   B. Manned Spaceflights 39

II. Ready . . . Set . . . Space Race! 33
   A. Unmanned Spaceflight 33
   B. Manned Spaceflights 39

III. Other National Space Programs 46
   A. China 46
   B. Europe 47
   C. India 47
   D. Japan 48

IV. Commercial Spaceflight 48
   A. Suborbital 49
   B. Orbital 51
   C. Beyond LEO 54
   D. Spaceports 55

Chapter 3
The International Outer Space Legal Framework 57

I. The International Lawmaking Process 57
   A. Sources of International Law 57
   B. International Dispute Resolution 58

II. Making International Agreements in the United States 59

III. International Sources of Space Law 60
   A. Major Outer Space Treaties 61
   B. U.N. Outer Space Resolutions 66

IV. International Organizations Relevant to Space Operations 67
   A. United Nations Committee on Peaceful Uses of Outer Space and Office of Outer Space Affairs 67
   B. European Space Agency (ESA) 68
   C. International Telecommunications Union (ITU) 68
   D. Other International Organizations of Relevance 69
C H A P T E R  4
The Development of U.S. Space Law 71

I. The 1950s: Creation of a Civil Space Agency 71

II. The 1960s: Exploring Space Not Because It Is Easy, But Because It Is Hard 73
   A. The Wiesner Report 73
   B. John F. Kennedy and the Apollo Program 75
   C. Communications Satellite Act 75

III. The 1970s: The Space Shuttle 75

IV. The 1980s: Developing a Framework for Commercial Space Transportation and Remote Sensing 76
   A. Commercial Space Launch Act 76
   B. Land Remote-Sensing Commercialization Act 77
   C. National Aeronautics and Space Act Amendment 77

V. The 1990s: Where Do We Go from Here? 77
   A. The Augustine Report 78
   B. Land Remote Sensing Policy Act 79

VI. The Early 2000s: Focusing on the Details of Commercial Space Regulation 80
   A. Commercial Space Launch Amendments Act 80
   B. Regulating Commercial Remote Sensing Data 80

VII. The Late 2000s: Codifying Space Law as an Independent Body of Law 82

C H A P T E R  5
Licensing Commercial Spaceflight 83

I. FAA Jurisdiction 83

II. Obtaining an FAA License 86
   A. Preliminary Consultation 87
   B. Policy Review 88
   C. Safety Review 88
   D. Environmental Review 90
   E. Demonstration of Financial Responsibility 91
   F. Postlicensing Requirements 91
   G. Payload Reviews 92
CONTENTS

III. Waivers: A Case Study 92
IV. Experimental Permits 95
V. Training, Medical, and Informed Consent Requirements 95
   A. SFPs 95
   B. Crew 97
Glossary 98

CHAPTER 6
Liability and Insurance Issues for Private Spaceflight 103
I. Identifying Sources of Risk 103
II. Liability Regimes within the United States 104
   A. Liability at the National Level 105
   B. State Space Tourism Liability Laws 107
   Sample Warning Statements 111
III. Insurance Practices 113
   A. Stages of Spaceflight to Insure 113
   B. Obtaining Insurance 114
   C. Global Insurance Market 114
IV. Contractual Risk Allocation 115

CHAPTER 7
Licensing Private Telecommunication Satellites 117
I. International Coordination of Satellite Services 118
II. ITU Allocation and Allotment 120
III. FCC Licensing of Private Telecommunications Satellites 122
   A. Underlying Spectrum Management Principles 123
   B. Licensing the Space Station Segment of Satellite Systems 124
   C. Licensing Earth Stations 129
Glossary 130
CONTENTS

CHAPTER 8
Licensing Private Earth Remote Sensing Satellites 133

I. NOAA Licensing Process 133
A. Who Must Be Licensed 134
B. Application Process 134
C. Licensing Conditions 135
D. Monitoring and Compliance Requirements 137
E. Prohibition on Collection and Release of Satellite Imagery Relating to Israel 137

II. United Nations Resolution on Data Dissemination 138
Glossary 139

CHAPTER 9
Compliance with Export Control Laws 141

I. International Traffic in Arms Regulations 142
A. The United States Munitions List 145
B. ITAR Export Authorizations 147
C. Special Export Controls for Foreign Satellite Launches 151
D. Violations and Penalties 151

II. Export Administration Regulations 152

III. Export Compliance and Monitoring 155
A. Overview of the Export Compliance Process 155
B. The Empowered Official 156
C. Screening for Restrictions and Diversion Risks 157
D. Safeguarding Technical Data 160
E. Foreign National Employees 162
F. International Business Travel 163
G. Requesting Clearance for Information Release 164
H. Record Keeping 164

IV. Export Control Reform 165
Glossary 167
CHAPTER 10
The U.S. Government as Your Customer 173
I. U.S. Government Space Activities 173
II. Key Government Contracting Laws and Regulations 176
III. Types of Government Contracts 179
   A. FAR-Based Contracts 179
   B. CRADAs and Space Act Agreements 180
IV. Federal Contracting Process 181
   A. Government Contracting Personnel and Agencies 181
   B. Solicitation Process 182
   C. Protests 185
V. Contract Administration 185
   A. Accounting 185
   B. Changes 187
   C. Termination 187
   D. Disputes 188
   E. Subcontracting 188
   F. Liability 189
   G. Socioeconomic Obligations 191
   H. Protecting Classified Information 191
VI. Ethical Obligations 192
VII. Intellectual Property Rights 194
   A. Inventions 195
   B. Data Rights 196
Glossary 199

CHAPTER 11
Space Operations and the Environment 205
I. International Environmental Law 205
II. Contamination 207
   A. Launch Vehicles 208
   B. Planetary Protection 210
CONTENTS

III. Nuclear Power Sources 213
IV. Space Debris 215
   A. Tracking 217
   B. Mitigation 218
   C. Removal 221
Glossary 223

CHAPTER 12

Property Rights 225

I. Tangible Property 225
II. Intellectual Property 228
   A. Patents 228
   B. Trade Secrets 231
   C. International Treaties 232

Appendices 235

Appendix 3-1—Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies 237
Appendix 3-2—Agreement on the Rescue of Astronauts, the Return of Astronauts and the Return of Objects Launched into Outer Space 245
Appendix 3-3—Convention on International Liability for Damage Caused by Space Objects 251
Appendix 3-4—Convention on Registration of Objects Launched into Outer Space 263
Appendix 3-5—Agreement Governing the Activities of States on the Moon and Other Celestial Bodies 269
Appendix 3-6—Principles Governing the Use by States of Artificial Earth Satellites for International Direct Television Broadcasting 281
Appendix 3-7—Principles Relating to Remote Sensing of the Earth from Outer Space 287
Appendix 3-8—Principles Relevant to the Use of Nuclear Power Sources In Outer Space 293
X  CONTENTS

Appendix 3-9—Declaration on International Cooperation in the Exploration and Use of Outer Space for the Benefit and in the Interest of All States, Taking into Particular Account the Needs of Developing Countries 303
Appendix 6—Sample Contract for Launch Services 307
Appendix 9—U.S. Munitions List Categories IV and XV, Sample Technical Assistance (or Manufacturing License) Agreement, and Sample Technology Control Plan 327
Appendix 11-1—U.S. Government Orbital Debris Mitigation Standard Practices 349
Appendix 11-2—IADC Space Debris Mitigation Guidelines 353

Table of Authorities 365
