Preface	xiii
Acknowledgments to the First Edition	xv
Acknowledgments to the Second Edition	xvii
About the Author	xix
Chapter 1: Getting Started	1
The Challenge	1
Meet the Challenge: Understand Three Key Perspectives	5
Meet the Challenge: Apply the <i>PLAN Model</i>	7
The Roadmap	7
Part One: Develop Your <i>PLAN</i>—Three Critical Perspectives	11
Chapter 2: The Emotional Perspective: Emotional Dynamics of Problem Divorces	13
The Emotional Effects of Divorce and Resiliency	14
Three Keys to Understanding Problem Divorces	16
The First Key—“His” and “Her” Marriages	17
The Second Key—The Marital Separation Events	19
The Third Key—Recognizing Sources of Impasses to Resolving the Divorce	20
Summary	22

Chapter 3: The Legal Perspective: Building the <i>PLAN Model</i>	23
Introduction	23
The <i>Frye</i> Test	24
Introduction and Concerns	24
The Different Faces of <i>Frye</i>	25
The <i>Daubert</i> Test	29
Introduction	29
Applying <i>Daubert</i> in Bench Trials	32
Comparing <i>Frye</i> and <i>Daubert</i>	33
The <i>PLAN Model</i> : Applying Shared Principles	34
Step One: Determine the Expert’s Qualifications to Testify	35
Step Two: Determine Whether the Expert’s Methods Conform to Relevant Professional Standards—Methods Reliability	39
Step Three: Evaluate the Empirical and Logical Connections Between the Data Arising from the Expert’s Methods and the Expert’s Conclusions—Reasoning Reliability	45
Step Four: Gauge the Connections Between the Expert’s Conclusions and the Expert’s Opinions	46
Summary	48
Chapter 4: The Psychological Perspective: Filling Out the <i>PLAN Model</i>	49
Introduction	49
Step One: Determine the Expert’s Qualifications to Testify	50
Professional Identities and Qualifications	50
Sorting Through the Qualifications Maze	56
Choosing Mental Health Experts: Distinguishing Qualities	58
Using Mental Health Experts: The Matter of Professional Roles	62
Step Two: Determine Whether the Expert’s Methods Conform to Relevant Professional Standards—Methods Reliability	71
Guidelines and Protocols Informing Methodology	72
Forensic Interviews	74
Collateral or Third-Party Information	77
Psychological Testing	79
Seven Keys to Understanding Tests	83
Step Three: Evaluate the Empirical and Logical Connections Between the Data Arising from the Expert’s Methods and the Expert’s Conclusions—Reasoning Reliability	99
Judgment Biases	100
MHP Use of Research and Professional Literature	100

Problems Inherent in DSM-5 and Syndrome-Based Testimony	102
Organizing Data and Conclusions: A Functional Assessment Model	104
Step Four: Gauge the Connections Between the Expert’s Conclusions and the Expert’s Opinions	116
Summary	119
Part Two: Exposing the Analytical Gaps—Applying Scientific-Critical Thinking	121
Chapter 5: Scientific-Critical Thinking: The Mindset for Exposing Analytical Gaps	123
Introduction	123
The Scientific-Critical Thinking Mindset	125
Critical Thinking Elements	126
Benefits of the Scientific-Critical Thinking Mindset	128
Chapter 6: Exposing Analytical Gaps	129
Exposing Overly Abstract Psychological Concepts	129
Exposing “Common Sense” Notions Used to Support Expert Opinions	131
Exposing <i>Ipse Dixit</i> Assertions	134
Exposing Attempts to Invoke the General Acceptance Factor Absent Support	136
Chapter 7: Exposing Judgment Biases: Keep It <i>REAL</i>	141
Introduction	141
Types of Biases	143
Overt Biases	143
Covert Judgment Biases	144
The Decision-Making Process	144
Common Judgment Biases	145
Overconfidence Bias	146
Confirmatory Bias	146
Hindsight Bias	147
Anchoring and Adjustment	147
Availability Bias	148
Fundamental Attribution Error	149
Discounting Base Rates	149

Can You Expose Experts' Biases?	150
Conduct the <i>REAL CHECK</i> to Expose Experts' Biases	151
The Foundation	151
Generating and Testing Reasonable Alternative Explanations	152
Conducting the <i>REAL CHECK</i> to Expose Experts' Biases	155
Summary	158
Chapter 8: Exposing Misapplied or Misrepresented Research: The Example of Domestic Violence	159
Introduction	159
Conceptual Challenges in Domestic Violence Cases	160
Definitions and Legal Implications	161
Looking at the Literatures	162
The Different Faces of Domestic Violence	163
The Issue of Female-Initiated Violence	169
Looking Inside the Literature	170
Exposing the Gaps in Domestic Violence Testimony	172
Is the Expert Familiar with the Domestic Violence Literature?	172
Does the Expert Acknowledge That the Domestic Violence Literature Reflects Different Types of Domestic Violence That May Have Different Causes?	173
What Methods Does the Expert Use to Generate Data That Inform the Evaluation Conclusions and Expert Opinions?	173
Chapter 9: Exposing Confirmatory Bias: The Example of Sexual Abuse Allegations	177
Introduction	177
Behaviors and Symptoms: Problems in Sexual Abuse Validation	179
Definitions	179
What About Sexualized Behaviors?	180
Key Principles When Considering Sexual Abuse Allegations	183
Allegations—True or False?	183
Children's Disclosure Statements	184
Suggestibility and Its Concerns	188
The Legal Effects of Suggestibility Research	196
Forensic Interviews	197
Concerns with Problem Forensic Interviews	198
The Forensic Interview Structure—Basic Principles	208
The Forensic Interview in Context	211

Chapter 10: Exposing Misuse of DSM-5: A Lawyer’s Approach	213
Introduction	213
Topic One: Purposes and Development of DSM-5	214
Purposes of DMS-5	215
Development of DSM-5	216
Topic Two: The Elements of a DSM-5 Diagnosis	223
The DSM-5 Diagnostic Two-Step	224
Selected DSM-5 Diagnostic Issues	226
Summary of Topics One and Two: The Psychological Perspective	229
Topic Three: DSM-5, the Rules of Evidence, and Caselaw—The Legal Perspective	230
The Legal Backdrop	230
Integrating the Psychological and Legal Perspectives	232
Arguments for Admissibility or Use of DSM-5 Based Testimony	234
Arguments Against Admissibility or Use of DSM-5 Diagnosis-Based Testimony	235
Summary: Understanding DSM-5—A Lawyer’s Approach	238
Part Three: Obtaining Mental Health Records	241
Chapter 11: Negotiating the Mental Health Records Maze: Confidentiality, HIPAA, and Privileges	243
Introduction	243
1. The Mental Health Record	244
2. Confidentiality	247
3. HIPAA and the Disclosure of Records	250
Three Key HIPAA Points	250
Key HIPAA Terms and Concepts	252
HIPAA Rules for Disclosing Protected Health Information	257
What About Alcohol and Substance Abuse Program Records?	263
4. Obtaining Psychological Test Data	266
5. Psychotherapist-Patient Privilege	270
The Privilege Rationale	270
The Privilege Landscape	271
Managing Special Issues	275
Strategies for Negotiating the Mental Health Records Maze	276

Appendix A: Deconstructing an APA Journal Article	279
Abstract	279
Introduction	280
Methods	280
Study Participants or Subjects	280
Materials or Apparatus	281
Procedures	282
Results	284
Discussion	285
Appendix B: Internet Sources for Relevant Mental Health Ethical Codes and Professional Practice Guidelines	287
Index	289
