Lawyers as Managers: How to Be a Champion for Your Firm and Employees

A book review by Wendy Werner

“I have been working with lawyers and law firms for more than thirty years. This is a book I would recommend to any lawyer who supervises any lawyer, manages a law firm or department or aspires to be a lawyer-manager. The authors are knowledgeable, thorough and practical. They are both extremely experienced in working with lawyers and law firms. I do not believe there is a better or more thorough book available. I would recommend reading it and using it as a reference guide again and again.”
