Praise for *Using Law Project Management in Merger and Acquisition Transactions*:

“This book should be on the shelf of every deal lawyer. As legal project management has become the expectation of many clients and a necessary approach to achieve efficiencies for lawyers in-house and in private practice, this guidebook provides checklists, templates and forms to improve the management of every part of the deal lifecycle. With a comprehensive set of tools developed by seasoned deal lawyers of all types (in-house, private practice, etc.), no other resource provides this level of customized LPM approaches specifically for M&A”

—Susan Raridon Lambreth, Principal, LawVision Group; Founder, the LPM Institute, and co-author of 6 books on law firm management, including *The Power of Legal Project Management: A Practical Handbook*

“The practice of law today, with its blinding pace, unprecedented complexity, and enormous cost pressures, presents ever greater opportunities for lawyers to let things fall through the cracks. For some time, we have been advocating that lawyers and firms should embrace various project management tools, such as checklists, to help control that risk. The authors here have done the profession an important service by providing these detailed, well thought-out tools for M&A lawyers. This book should be viewed as a valuable risk management guide for any firm with an M&A practice.”

—Robert L. Denby, Sr. Vice President – Loss Prevention, ALAS, Inc.

“In the past several years, there have been a number of seminars and books published on the concept of legal project management. This guidebook is the first to provide legal teams with customized tools and resources that can be applied in a specific type of engagement. The checklists, practice aids and supporting guidance will jump start your effort to improve the planning, execution and efficiency of your legal services in M&A transactions.”

—David A, Rueff Jr., Shareholder, Baker, Donelson and Chair, Legal Project Management Interest Group, ABA Law Practice Division
