Committee ........................................................ xix

Chapter 1
Entrepreneurial Medicine: Fraud and Abuse Risk Areas for
Physician Business Relationships .............................. 1

By: Clay J. Countryman, J.D.

I. Introduction ......................................................... 1
II. Federal Fraud and Abuse Laws ................................. 1
   A. The Federal Anti-Kickback Statute ......................... 2
      1. Exceptions and Safe Harbors to the Anti-Kickback Statute 2
      2. OIG Special Fraud Alerts Involving Physicians .......... 4
   B. The False Claims Act ......................................... 7
      1. Whistleblower Actions under the False Claims Act ..... 7
      2. Examples of Potential False Claims for Items and
         Services ..................................................... 7
      3. Penalties for Violation of the FCA ....................... 8
      4. The 60-Day Overpayment Obligation ..................... 8
   C. The Stark Law .................................................. 9
      1. Scope of the Stark Law Physician Self-Referral
         Prohibition ................................................ 9
      2. Examples of Physician Relationships Subject to the
         Stark Law .................................................. 10
      3. Penalties for Stark Law Violations ....................... 11
      4. Exceptions to the Stark Law Physician Self-Referral
         Prohibition ................................................ 11
      5. Differences between Stark Law and the Federal Anti-
         Kickback Statute ........................................ 12
      6. Stark Law and Hospital Ownership ....................... 12
      7. Recent Stark Law Changes and Clarifications .......... 14
   D. The Civil Monetary Penalties Law ......................... 16
      1. Civil Monetary Penalties—False or Fraudulent Claims .. 16
      2. Examples of Recent CMPL Settlements Involving
         Physician Self-Referral and Kickback Violations ....... 17
Physician Law: Evolving Trends and Hot Topics

E. Exclusion Authorities ........................................... 18
   1. Mandatory Exclusion .................................. 18
   2. Permissive Exclusion ................................. 18
   3. Exclusion Liability ................................. ... 19
   4. OIG Guidance on Permissive Exclusion ........... 19

III. Fraud and Abuse Risks with Physician Compensation

A. Physician Employment and Professional Service
   Agreements ................................................. 21
   1. Employment Relationship ........................ 21
   2. Fraud and Abuse Concerns .................... 21
   3. Compliance Recommendations ............... 23
   4. Recent Cases and Settlements Based on Compensation to
      Employed or Contracted Physicians .......... 24

B. Payments to Physicians for Other Than Professional
   Services ...................................................... 28
   1. General Description and Compliance
      Recommendations .................................. 28
   2. Recent Enforcement Actions and Settlements .... 28
   3. Joint Ventures ....................................... 30

C. Service Line Co-Management Arrangements ............ 30
   1. General Description ............................... 30
   2. Fraud and Abuse Concerns .................... 32
   3. Compliance Issues and Recent Guidance ........ 32
   4. General Recommendations to Address Fraud and
      Abuse Concerns .................................. 35

D. Gainsharing Arrangements ................................. 35

E. Medical Directorships ....................................... 36
   1. General Description ............................... 36
   2. Fraud and Abuse Concerns .................... 37
   3. Compliance Recommendations and Available
      Guidance and General Recommendations .... 38
   4. Recent Cases and Settlements ............... 40

F. Free or Discounted Items and Services .................. 41
   1. General Description ............................... 41
   2. Fraud and Abuse Concerns .................... 41
   3. Recent Guidance ................................. 41
Contents

G. Call Coverage Agreements ........................................... 43
1. General Relationship ............................................. 43
2. Fraud and Abuse Concerns ................................. 44
3. Guidance Involving Call Coverage Agreements ......... 45
H. FCA Cases Based on Physicians Providing Medically
    Unnecessary Services ............................................. 45
IV. Concierge Medicine .................................................. 46
A. General Description ............................................. 46
B. “Concierge Medicine” vs. “Direct Primary Care” ........ 47
C. Compliance Concerns .............................................. 47
1. General Description ............................................. 47
D. Compliance Issues and Recent Government Guidance .... 48
   1. Private Payor Compliance Issues ......................... 48
   2. Recent Civil Monetary Penalty Settlements ............. 49
V. Physician-Owned Medical Device Distributorships .......... 49
A. Fraud and Abuse Concerns ..................................... 49
B. OIG Special Fraud Alert Physician-Owned Entities ...... 50
C. Cases and Settlements Involving Physician-Owned
   Distributorships (PODs) ........................................ 51
VI. Fraud and Abuse Risks with Electronic Health Records
    Arrangements and Electronic Health Record Billing
   Arrangements .......................................................... 51
A. Fraud and Abuse Concerns with Electronic Health
   Record Arrangements ........................................... 51
B. Stark Law and Applicable Exceptions ....................... 52
   1. EHR Exception .................................................. 52
   2. Electronic Prescribing Exception ......................... 53
   3. Community-Wide Health Information Exception ......... 54
C. Anti-Kickback Statute ............................................ 55
D. Compliance Issues and Recent Government Guidance .... 56
   1. Notable Settlement Related to Donations for EHR
      Systems for Physicians ..................................... 56
   2. OIG Advisory Opinion 12-2087 Free Access to an
      Electronic Interface to Physicians ......................... 56
   3. CMS Stark Law Advisory Opinions 2008-01 ............... 56
   4. OIG Alert—Information Blocking and the Federal
      Anti-Kickback Statute ...................................... 57
Chapter 2
Evolving Trends in Physician-Hospital Contracting:
Integration, Relationships, and Collaborations
Toward Accountable Care .......................... 61
By: ROBERT W. McAADAMS, JR., J.D., VIOLET M. ANDERSON, J.D., CHRISTINA HULTSCH, J.D.
I. Introduction ............................................. 61
II. Trends in Physician Employment ...................... 62
  A. Number of Employed Physicians .................. 63
     1. Numbers ............................................. 63
     2. Independent Physicians ......................... 64
     3. New Physician Recruitment ....................... 64
  B. Attitudes Toward Physician Employment ........... 65
  C. Non-Employee Physician Alignment ............... 66
     1. Lessons from the Past .......................... 66
     2. What's Different This Time? ..................... 66
III. Recruiting Arrangements ........................... 67
  A. Recruiting Agreements ............................. 68
     1. Stark Law .......................................... 68
     2. Anti-Kickback Statute ........................... 70
  B. Employment Agreements ............................ 71
     1. Scope of the Exceptions ......................... 71
     2. Fair Market Value ................................ 72
  C. Professional/Personal Services Agreements—Physician
     Staffing Models ................................. 74
IV. AMA Physician Employment Principles .............. 76
  A. Potentially Problematic Aspects of Employer-Employee
     Relationships ...................................... 77
     1. Conflicts of Interests ........................... 77
     2. Advocacy for Patients and the Profession ...... 77
     3. Contracting ........................................ 77
     4. Hospital Medical Staff Relations .............. 78
     5. Peer Review and Performance Evaluations ...... 78
     6. Payment Agreements ............................. 78
  B. Related Codes of Medical Ethics ................... 78
Contents

V. Contractual Issues with Recruiting Physicians .................. 79
      2. Contracting Process .................................. 79
      3. Physician and Hospital Interests ....................... 79
   B. Current Contractual Hot Spots .............................. 82
      1. Due Diligence Authorization Agreements ................ 83
      2. Non-Competition and Non-Solicitation .................. 85
      3. Terms and Standards of Care ........................... 86
      4. Disability Insurance ................................. 86
      5. Extended Reporting “Tail” Policy ...................... 87

VI. Accountable Care Organizations: The Future of Physician-
    Hospital Relationships ........................................ 87
   A. Non-Employment Physician Alignment ....................... 88
      1. Numbers ............................................... 88
      2. Physician Opinion ..................................... 88
   B. Risk-Sharing and Value-Based Reimbursements .............. 90
      1. Value-Based Contracting Arrangements ................ 90
      2. Changes in Recruitment Strategies ..................... 91

VII. Conclusion ....................................................... 92

Appendix 1: AMA Principles for Physician Employment .......... 93
   Contract Govern the Following Areas ......................... 98
Appendix 3: Physician Recruitment and Generic Checklist ....... 100
Appendix 4: OSU Wexner Medical Center Office of Legal
   Services Guidelines for Interactions with Physicians for
   Recruitment Purposes ........................................... 102

Chapter 3
Medical Professional Liability: Trends in Claims and
   Legislative Responses ........................................... 103
   By: Michael C. Stinson, J.D., Patrick D. Souter, J.D.

Introduction ......................................................... 103
Part A—Medical Professional Liability Claims Trends .......... 104
   Introduction to the Data Sharing Project .................... 104
   Data Sharing Project Data—Claims Analysis ................ 105
   Claim Details ................................................. 105
*Physician Law: Evolving Trends and Hot Topics*

Trend Analysis of Claims by Close of Year ........................................ 105
Comparative Payment Analysis by Close Year ........................................ 107
Expense Payment Analysis by Close Year ........................................ 108
Comparative Payment Threshold Analysis by Specialty ......................... 108
Comparative Total Expense Payments by Specialty ............................ 111
Claims by Adjudication Status .......................................................... 112
Claims by Five Most Prevalent Medical Conditions ............................... 114
Claims by the Five Most Prevalent Medical Factors ............................... 115
Claims by Most Prevalent Procedures Performed .................................... 116
Payments by Severity of Injury .......................................................... 116
Summary ............................................................................................. 117
Part B—Medical Professional Liability Legislative Trends ....................... 117
  State Reforms ...................................................................................... 118
  MICRA and Traditional State Reform Efforts ....................................... 118
  Supplemental Reforms ....................................................................... 121
  Alternative Reforms .......................................................................... 122
  The Future of State Reforms .............................................................. 125
  Federal Reforms ................................................................................ 125
  HEALTH Act ...................................................................................... 125
  Additional Reforms .......................................................................... 126
  Targeted Reforms ............................................................................. 126
  The Future of Federal Reforms .......................................................... 128
  Summary ............................................................................................. 129
Conclusion ............................................................................................ 129

Chapter 4

**Telemedicine** ................................................................................... 131
*By: Tara Kepler, J.D., M.P.A.*

I. Introduction ......................................................................................... 131
II. Practitioner Licensing Dilemmas ...................................................... 132
   A. Multi-State Licensing and Special Telemedicine Permits ............... 133
   B. Licensing Exceptions .................................................................... 134
   C. Regulation of Non-Physician Practitioners .................................. 135
III. E-Prescribing Restrictions: The Government’s Most Recent Gauntlet for the Telemedicine Industry ...................................................... 135
   A. Do You Love or Haight the DEA’s Internet Prescribing Restrictions? .................................................................................... 136
   B. DEA Restrictions on e-Transmission of Controlled Substance Prescriptions .................................................................................. 137
Contents

C. State Regulation of e-Prescribing .............................. 138
D. Survey of State Telemedicine Laws ............................... 140

IV. Beware of the Lesser-Known Telemedicine Regulations .... 142
   A. States that are Currently Leading the Pack on Heightened
      Requirements .................................................. 142
   B. Informed Consent ................................................. 143
   C. Medical Records and Privacy .................................... 143
   D. Standards of Care and Unprofessional Conduct .......... 144
   E. Hospital Licensing ................................................. 144
   F. Certificate of Need ................................................ 144
   G. Teleradiology ......................................................... 145
   H. Physician-Patient Relationship and Physician
      Supervision ....................................................... 145
   I. Email, Internet Advertising, and Websites ................ 145
   J. Contractual Arrangements ......................................... 146
   K. FDA Regulation of Telemedicine Software, Devices, and
      Mobile Apps ...................................................... 146
   L. Federal Trade Commission Scrutiny of Telemedicine
      Technologies ....................................................... 147

V. Reimbursement .......................................................... 148
   A. Medicare Reimbursement .......................................... 148
   B. State Medicaid and Private Payor Reimbursement ........ 150

VI. Malpractice, Liability, and Heightened Standards of Care .... 151
   A. What are the Applicable Standards of Care? ............. 152
   B. Duty of Care, Continuity of Care, and Patient
      Abandonment—The Telemedicine Dilemma of
      Multiple-Physician and Multiple-Facility Involvement .... 153
   C. Malpractice Insurance Coverage .................................. 155
   D. Jurisdiction and Choice of Law .................................... 155

VII. Fraud and Abuse Issues Unique to Telemedicine .......... 157
    A. Federal Kickback Restrictions ............................... 157
    B. Federal Self-Referral Prohibition ............................ 160
    C. False Claims Act and Civil Monetary Penalties .......... 161
    D. State Fraud and Abuse Laws .................................... 162
    E. Corporate Practice of Medicine and Fee-Splitting—
       The Real Barriers to Telemedicine Ventures ............. 163
    F. International Implications ....................................... 164
Chapter 5
Final HIPAA Omnibus Rule: What’s Changed, and a Guide to Complying for Providers (Or, “Better Late than Never”) ... 167

BY: CLINTON R. MIKEL, ESQ.

I. Overview .......................................................... 169
II. This Chapter .................................................... 169
III. Your First Steps ................................................ 170
IV. Required Changes to Notices of Privacy Practices ............ 171
V. Impact Related to Business Associate Relationships ........ 173
   A. Next Steps .................................................. 175
VI. Changes to Breach Notification Rule ........................... 176
   A. Next Steps .................................................. 178
VII. Requests for Restrictions ...................................... 178
   A. Next Steps .................................................. 179
VIII. Limits on Marketing and Sale of PHI ......................... 180
   A. Marketing .................................................... 180
   B. Sales .......................................................... 181
   C. Next Steps .................................................. 182
IX. Changes to Patient Access to PHI Rights ....................... 183
   A. Access to and Sending Electronic PHI .................... 183
   B. Fees .......................................................... 183
   C. Response Time .............................................. 184
   D. Next Steps .................................................. 184
X. Increased HIPAA Enforcement ................................ 184
   A. Investigations Triggered by Willful Neglect ............... 185
   B. Civil Monetary Penalties .................................. 185
   C. Defenses ..................................................... 187
XI. Research ........................................................ 188
   A. Next Steps .................................................. 189
XII. Fundraising Activities ....................................... 189
   A. Next Steps .................................................. 190
XIII. Immunizations ............................................... 191
   A. Next Steps .................................................. 191
XIV. Decedents ..................................................... 192
   A. Next Steps .................................................. 192
XV. Phase 2 Audits ............................................... 192
   A. Next Steps .................................................. 193
XVI. Other Resources ............................................ 193
XVII. Staff Training ............................................... 200
XVIII. Conclusion ................................................ 200
Chapter 6

Accountable Care Organizations—Overview .......................... 201

By: Sidney S. Welch, J.D., M.P.H., Jennifer Rangel, J.D.

I. What Are ACOs? ............................................................ 201
   A. History and Background ............................................. 201
   B. The Affordable Care Act ........................................... 202
   C. American Medical Association ACO policy .................... 207

II. The Center for Medicare and Medicaid Innovation and
    Current ACO Models .................................................. 208
   A. The Center for Medicare and Medicaid Innovation. .......... 208
   B. ACO Models ........................................................... 208
      1. Medicare Shared Savings Program (MSSP) ACO
         Models (Track 1, 2, and 3) .................................. 208
      2. Pioneer ACO Model .............................................. 216
      3. ACO Investment Model (AIM) .................................. 219
      4. The Next Generation ACO Model ............................... 221
      5. The Comprehensive ESRD Care (CEC) Model ............... 222
      6. The Medicare-Medicaid ACO Model ........................... 224

III. Legal Issues ............................................................... 226
   A. Antitrust ............................................................... 226
   B. Anti-Kickback Statute/Stark/Gainsharing Civil Monetary
      Penalty Waivers ..................................................... 226
      1. Brief description of the Anti-Kickback/Stark/
         Gainsharing Civil Monetary Penalty Laws ................. 226
      2. The CMS, FTC, and OIG Workshop, and Subsequent
         Waivers of Applicability of the Anti-Kickback, Stark,
         and Gainsharing CMP Laws to MSSP ACOs ............... 229
   C. Tax-Exempt Status .................................................. 234
   D. State Insurance Laws .............................................. 237

IV. Practical issues .......................................................... 237
   A. Who Are Members? .................................................. 237
   B. What Does the Structure Look Like? ........................... 238
   C. Who Controls/Leads? .............................................. 240
   D. Size ................................................................. 243

V. Viability ................................................................. 243
   A. Viability of ACOs under MACRA ............................... 245

VI. Conclusion .............................................................. 249
Chapter 7
Doctors’ Defense in Medical Staff Hearings and Appeals:
An Overview for Attorneys and their Physician Clients  ..... 251
BY: MERHNAZ HADIAN, M.D.
I. Introduction ..................................................... 251
II. Anatomy of a Medical Staff Hearing and Repercussions
   Resulting from a Negative Outcome ......................... 252
   1. The Need for Legal Counsel ............................... 252
      a. Right to Representation ............................. 252
      b. How Lawyers Are Selected ......................... 253
      c. Cost ..................................................... 253
      d. Hospital and Medical Staff Lawyers ............... 253
      e. Hearing Officers ..................................... 254
   2. Governing Law ............................................... 255
      a. Federal Health Care Quality Improvement Act ...... 255
      b. State Immunities and Confidentiality Law ......... 256
      c. State Procedural Law ................................ 257
      d. Reporting Requirements ............................... 258
   3. Medical Staff Bylaws ..................................... 259
      a. Accreditation Requirements .......................... 259
      b. State Law Requirements ............................... 259
      c. Enforceability as Contract .......................... 260
   4. Hearing Procedural Roadmap ............................... 260
      a. Notice of Proposed Action ............................ 260
      b. Notice of Hearing ..................................... 261
      c. Discovery .............................................. 261
      d. Evidence .............................................. 262
      e. Witnesses ............................................. 262
      f. Hearing Body Composition and Voir Dire ............ 262
      g. Pre-Hearing Conference ............................... 263
      h. Hearing Record ....................................... 263
      i. Counsel/Representative in the Hearing ............. 264
      j. Burden of Proof ...................................... 264
      k. Written Memoranda ................................... 265
      l. Decision ............................................... 265
   5. Summary Suspension ...................................... 266
   6. Appeals ................................................... 266
   7. Alternative Dispute Resolution ......................... 267
   8. Effect of Employment or other Hospital Contracts .... 267
## Contents

III. Advice for Those Participating in a Medical Peer Review ........ 268  
   1. Preventive Medicine for Avoiding Peer Review .......... 268  
   2. Prescriptions for the Target of Peer Review .......... 268  
      a. Physicians Should be Proactive in Their Defense ...... 268  
      b. Legal Counsel Should be Proactive not just during the 
         Hearing Stage but Early in the Process ............... 269  
IV. Conclusion ......................................................... 271

Chapter 8  
Physician Well-Being: Healing the Healer—Assisting Physicians 
with Substance Use Disorders and Other Health Issues .... 273  
By: Daniel H. Angres, M.D.

I. Introduction ......................................................... 273  
II. Unique Features of Physicians in General .................... 274  
III. Physicians and Personality Styles ............................... 275  
IV. Physician Addiction in the Workplace: Identification, 
   Intervention and Assessment .................................. 276  
   A. Identification of Addiction in the Workplace .......... 276  
   B. Intervention ..................................................... 278  
   C. Assessment ....................................................... 280  
V. Comprehensive Evaluation ....................................... 281  
   A. Vignette ......................................................... 283  
      1. Simply More Depressed than Usual ................. 283  
      2. Intervening .................................................... 284  
   B. Potential Reporting Requirements ....................... 284  
   C. The Comprehensive Assessment ......................... 284  
VI. Physician Health Programs ...................................... 285  
   A. Caduceus Groups ................................................. 286  
   B. The American Medical Association Physician Wellness 
      Program ......................................................... 286  
   C. State Licensing Boards ...................................... 286  
   D. Employee Assistance Programs ............................ 287  
   E. Physician Impairment Independent of Addiction .......... 287  
VII. Legal Concerns ..................................................... 287  
   A. Fair Procedure ................................................ 287  
   B. The Americans with Disabilities Act and the 
      Rehabilitation Act ............................................ 289
Contents

V. Medicare Program Integrity Contractors .......................... 321
   A. Program Safeguard Contractors/Zone Program Integrity
      Contractors .................................................. 322
   B. Medicare Drug Integrity Contractor ......................... 324
   C. Benefit Coordination and Recovery Center ................. 325

VI. Medicaid Contractors ........................................... 327
   A. Medicaid RACs ............................................. 327
   B. Medicaid Integrity Program .............................. 328
   C. Payment Error Rate Measurement Program .............. 329

VII. The Future of CMS Contracting ................................. 330
   A. Supplemental Medical Review Contractor ................. 330
   B. Unified Program Integrity Contractors .................. 332

VIII. Conclusion ..................................................... 333

About the Authors ................................................... 335
