PART I
Rights to Use Water 1

1 Water Rights Based on State Law 3
Amenda Waters and Erica Spitzig

A. Introduction 3
B. Riparian Rights 5
1. Origins of Riparian Rights 5
2. Reasonable Use Doctrine 7
3. Regulated Riparianism 8
4. Challenges Associated with Riparian Rights 9
C. The Prior Appropriation Doctrine 11
1. The Doctrine 11
2. Early Days in California 12
3. The Spread of the Prior Appropriation Doctrine throughout the West 13
4. Prior Appropriation Today 15
5. Beneficial Use Requirement 16
6. Flow Protection 17
7. Groundwater and Prior Appropriation Doctrine 18
8. Western States and the Public Trust Doctrine 19
9. Prior Appropriation as a Barrier to Innovation and Compliance with Federal Law 21
2 Water Rights Based on Federal Law
Robert H. Abrams

A. The Pillars of the Doctrine in the U.S. Supreme Court
   1. Initial Recognition of the Doctrine—Winters v. United States
   2. Extension to All Federal Reservations and the PIA Standard—Arizona v. California
   3. Subterranean Surface Water and Probably Groundwater—Cappaert v. United States
   4. Tightening the Doctrine—New Mexico v. United States (Rio Mimbres)

B. Adjudicating and Effectuating Tribal Reserved Water Rights
   1. Adjudicating Reserved Rights
   2. Recent Development Regarding Tribal Rights to Groundwater
   3. Recent Development Regarding Tribal Fishery Rights and Instream Flows
   4. Aboriginal Water Rights of Tribes
   5. State Administration of Reserved Rights
   6. Reserved Rights Settlements

3 Interstate Water Rights
Jason Oyler, Sarah Klahn, and Robert H. Abrams

A. Introduction
B. Judicial Determination of States’ Water Rights
   1. The Origins of Equitable Apportionment of Interstate Waters
   2. Equitable Apportionment—Principles and Precepts
   3. Litigation of Interstate Water Rights
C. Congressional Apportionment
D. Interstate Compacts
   1. Compact Scope and Formation
   2. Effect of Compacts
   3. Interpretation of Compacts
   4. Compact Agencies
   5. Enforcement of Compacts
   6. Amendment or Reformation of Compacts
E. Private Interstate Litigation
F. Interstate Apportionment of Groundwater Basins—Contemporary Examples
   1. The Sparta Aquifer—Mississippi and Tennessee
   2. The Snake Valley Aquifer—Nevada and Utah
G. The Dormant Commerce Clause Limitation on Water Hoarding and the Supremacy Effect
   1. Dormant Commerce Clause
   2. The Supremacy Effect of Federal Allocation

4 Overlapping Sovereignties: Shared Control of Water, U.S. and Mexico
Wesley A. Miliband and Parissa Ebrahimzadeh Florez
A. Introduction
B. Regulating Body
   1. International Boundary and Water Commission
   2. Treaties Establishing Other Regulating Bodies
C. Governing Authority
   1. Treaties
   2. Minutes
D. Historical Project Challenges and Trending Topics
   1. “Downstream Impacts”: All-American Canal Lining in Imperial County, California, Limits Return Flows to Mexican Farmers
   2. Mexico Desalinated Water to Be Imported to the United States
Ralph Pentland and George William Sherk

A. What Is Past? 144
B. What Is Prologue? 147
1. Practical Obstacles to Large-Scale Water Export 148
2. Legal Obstacles to Large-Scale Water Export 151
3. Wild Cards 155
C. Conclusions 157

PART II  
Federal Agencies with Major Water Use Impacts 159

The United States Bureau of Reclamation 161
Meredith E. Nikkel and Wesley A. Miliband

A. Contracting Authority 162
1. Reclamation Law and What Reclamation Does 162
2. Consistency with State Law 165
B. Reclamation Projects 167
1. Types of Projects 167
2. Types of Contracts 170

The United States Army Corps of Engineers 175
Kathryn S. Firsching

A. Introduction: History and Overview of the Army Corps of Engineers 175
B. The Water Supply Act of 1958 180
C. Costs of Storage: Original and Reallocated 182
D. Reallocation of Storage to M&I Use Pursuant to the Water Supply Act 186
E. Section 6 of the 1944 Flood Control Act (Surplus Water Act) 193
### 8 Other Federal Agencies Having Programmatic Responsibilities for Water

**Robert H. Abrams**

A. Introduction 203

B. Water Project Building and Regulating Federal Agencies 204
   1. The Tennessee Valley Authority (TVA) 204
   2. The Federal Energy Regulatory Commission (FERC) 207

C. Federal Land Management Agencies 211
   2. United States Forest Service Special Use Permits: History and Controversy 217

### PART III

**Major Federal Environmental Laws Affecting Water Rights** 227

### 9 Endangered Species Act

**Andrea Wortzel and Meredith E. Nikkel**

A. Overview of the Endangered Species Act 229

B. Listing Decisions That Relate to Water Resources 232

C. Critical Habitat Designation 234

D. Section 7 Consultation 235
   1. Agency Action 235
   2. Consideration of Effects 237
   3. Jeopardy and Adverse Modification 240
   4. Reasonable and Prudent Alternative 242
   5. Unconstitutional Takings 244

E. Section 9 Take Prohibition 245

F. Section 10 Incidental Take Permits 247
G. Litigation Considerations 250
   1. Standing to Bring a Claim 250
   2. Identifying the Proper Defendant 252

10 Management on the Fly: Water and the Migratory Bird Treaty Act 255
   Keith W. Rizzardi
   A. Introduction: Evolution of the MBTA 256
   B. The Rigors and Uncertainty of the MBTA 258
      1. Violations: Strict Liability, or Not? 259
      2. Consequences: Enforcement and the Benefits of Discretion 262
   C. Planning: Taking a Risk Avoidance Approach to Migratory Bird Conservation 265
      1. The Role of the Federal Agencies as Project Managers 265
      2. Proactive Conservation as a Loss Prevention Tool for Non-federal Actors 267
   D. Permitting: Getting Permission to Take Migratory Birds 270
   E. Conclusions: The MBTA Deserves Another Century 272

11 The Clean Water Act 275
   Robin Kundis Craig and Kathryn S. Firsching
   A. Introduction: Basic Intersections between the Clean Water Act and State Water Law 275
      1. Basic Deference to State Water Law in the Clean Water Act 276
      2. State Use of Water Quality Standards and Section 401 to Protect Water Quantities 280
   B. The National Pollution Discharge Elimination System 285

12  Designations  
Sarah Klahn and Mitra Pemberton  
A. Impact of Wilderness Act Designations on State Water Rights  
1. Did Congress Intend That the Wilderness Act Would Imply Sufficient Federal Reserved Rights to Satisfy the Goals of the Designated Wilderness?  
2. Impacts on State-Based Water Users from Wilderness Area Reserved Rights  
B. Impact of Wild and Scenic Rivers Act Designations on State Water Rights  
1. History and Goals  
2. Eligibility and Suitability  
3. Effect of Designation on Activities and Water Rights  

13  The National Environmental Policy Act  
Robert H. Abrams  
A. Introduction  
B. Major Federal Actions Significantly Affecting the Human Environment  
1. Retroactivity and the Determination of What Constitutes a Change in Operations That Triggers NEPA Obligations  
2. The Absence of Discretion Agency Defense  
C. The Private Role in Creating Environmental Assessments and Environmental Impact Statements  
D. Using NEPA as a Means to Affect Substantive Decisions on Private Activities That Require Federal Action
PART IV
Challenging Federal Actions as Takings of Property 383

14 Water Rights and Takings of Property 385
Robert H. Abrams

A. Takings Doctrine 386
   1. Physical Invasion Takings: Permanent and Temporary 387
   2. Regulatory Takings: “Wipeouts” and Partial Takings 388
   3. Exactions 389

B. The Endangered Species Act Curtailing Water Deliveries 390

C. Dam Operations and Takings 396
