

## **Here's what others are saying about *The Executive's Guide to Navigating the Information Universe...***

"Information is now a C-suite and Board level concern. This comprehensive yet high-level guide by prominent industry veterans provides executives with practical guidance to manage what has become a Board level risk for many organizations."

-- Adam Bendell, CEO, *Toniic* – and former Chief Technology Counsel, *Gibson, Dunn & Crutcher*

"This straight talk guide helps a business leader understand how to navigate this brave new chaotic world to make the right business decisions to leverage the company's most valuable asset, information."

--Taa Grays, *MetLife Vice President & Associate General Counsel*

"a provocative and prescriptive tour of the issues and opportunities facing business executives regarding the transformative deployment and precarious well-being of their organization's most valuable asset."

–Doug Laney, best-selling author of "*Infonomics*"

"Kahn and Stavrou have created an eminently valuable roadmap to championing information as a corporate asset. A must read for every executive. Bravo!"

-Jay Cohen, Esq., former Chief Compliance officer at a global financial institution
