About the Editors

Sarah A. W. Fitts is a partner in the New York office of Schiff Hardin LLP. She advises clients on private mergers and acquisitions, development projects, joint ventures, financings, sustainable investing, and restructurings, with a focus on the energy and infrastructure industries.

She represents U.S. and global clients, including Japanese companies doing business in the United States and around the world. Her clients include power developers, investors, sovereign wealth funds, and private equity across a broad range of industries, such as power generation, infrastructure, and automotive. Enjoying business and the practice of law, she often acts as outside general counsel for clients without legal departments, in addition to advising on transactions.

Sarah is a past chair of the American Bar Association’s Renewable, Alternative, and Distributed Energy Resources Committee and a Senior Vice Chair on the International Bar Association’s Power Law Committee. She is a board member for the Women’s Infrastructure Network, Inc. (New York Chapter) and the Regional Plan Association. Sarah is a graduate of Harvard Law School and the University of Pennsylvania. She reads and speaks Japanese.

Florence K. S. (Flossie) Davis is an Assistant General Counsel with Exelon Corporation, where she provides regulatory and compliance support to the competitive retail business, Constellation Energy. In that capacity, she advises clients on state regulations related to retail energy supply and other energy projects, including distributed
generation. She has written numerous articles on legal and regulatory issues related to energy law, with a focus on renewable and distributed energy topics.

Before joining Exelon, Flossie was a partner in the Energy and Utilities group of Day Pitney, LLP, with a practice focusing on transactions involving energy companies, including retail and wholesale power contracts, renewable energy credit transactions, demand-side management, distributed energy projects, and mergers and acquisitions. While at Day Pitney, Flossie was Chair of its firm-wide women’s initiative, Women Working Together.

Flossie is a past chair of the Renewable Energy and the Energy Efficiency and Demand-Side Management committees of the Energy Bar Association, and a past Board Member of the Charitable Foundation of the Energy Bar Association. She is a graduate of Georgetown University Law Center and The College of William and Mary.
Amy Antoniolli is an environmental lawyer at Schiff Hardin LLP with broad experience in administrative and enforcement-related issues. Amy regularly advises a broad range of energy clients. Her expertise includes advising on the permitting and environmental, land use, and zoning laws applicable to renewable energy projects. She participates in state siting proceedings and advises clients on compliance with local, state, and federal environmental laws. Amy previously served as an attorney advisor and hearing officer for the Illinois Pollution Control Board. Before working for the board, Amy drafted legislation and advised representatives in the Illinois legislature.

Amy earned her J.D. from Illinois Institute of Technology Chicago-Kent College of Law and her B.S. from University of Illinois at Urbana-Champaign.

Monica M. Berry is an accomplished regulatory and corporate attorney with eighteen years of experience in the energy industry. Monica has experience appearing in various proceedings before the Federal Energy Regulatory Commission (FERC), state commissions, and the U.S. Courts of Appeals, advising clients in the electric and natural gas industries on matters related to the rates, terms, and conditions of service. She has extensive experience representing an independent transmission system operator (ISO) at FERC and in various appellate court proceedings concerning matters of wholesale market design, including the design and implementation of a capacity market, and represents clients who are active in the regional transmission
organization (RTO) wholesale markets. Monica also advised RTOs, electric and natural gas utilities, and energy companies on regulatory and compliance matters.

Monica has substantial expertise in multiple aspects of corporate energy representation including mergers and acquisitions, project development, complex contract negotiation and drafting, and litigation. A representation of Monica’s corporate and transaction experience includes negotiating pro forma rate schedules and cost-based formula rate agreements, reviewing and negotiating power supply arrangements, including contracts for capacity, energy and related services, and negotiating engineering, procurement and construction contracts (EPC), operations and management (O&M), energy services agreements, and purchase and sale agreements.

Monica’s clients have included RTO/ISOs (U.S. and Canadian), project developers, independent power producers, public power entities, municipalities and rural electric cooperatives, public utilities, large industrial users, gas pipelines, and local distribution companies. Monica is presently Senior Counsel at NRG Energy, Inc., where she is the chief legal counsel supporting all aspects of NRG’s distributed energy resources businesses. www.linkedin.com/in/monica-m-berry

Sophia Browning is an associate in the Washington, D.C. office of Day Pitney LLP. Her practice focuses on representing energy companies in regulatory, transactional, and litigation matters, including contract disputes, project development, and regulatory issues before state regulators and the FERC. Sophia also works on cybersecurity and data privacy issues, including compliance with North American Electric Reliability Corporation (NERC) standards and California Consumer Privacy Act (CCPA) compliance.

Prior to joining Day Pitney, Sophia worked on energy regulatory matters as a legal intern at FERC’s Office of General Counsel and at NextEra Energy’s Office of Federal Regulatory Affairs. Sophia was a Fellow with the Center on National Security and the Law at the Georgetown University Law Center, where she worked on developing curricula related to the intersection of Energy and National Security issues.

Steven Cash represents individual and corporate clients in criminal, commercial litigation, and national security matters. Steven has broad
experience at the federal and state level in the executive, legislative, and judicial branches. He was Chief Counsel and Staff Director (Minority) to the U.S. Senate’s Judiciary Committee, Subcommittee on Terrorism, Technology, and Homeland Security, and Chief Counsel to Senator Dianne Feinstein. He has also served as Chief of Staff to the Director of Intelligence, Department of Energy; as Staff Director to the U.S. House of Representative’s Select Committee on Homeland Security; and as a Professional Staff Member and Counsel to the Senate Select Committee on Intelligence. Steven was deeply involved in much of the legislation developed after the 9/11 attacks, including the USA-Patriot Act, the Department of Homeland Security Act, and the Intelligence Reform and Terrorism Prevention Act, which created the position of Director of National Intelligence. Steven also served as an Intelligence Officer with the Central Intelligence Agency, first as an Assistant General Counsel and then, with the Directorate of Operations.

Before joining federal service, Steven served as an Assistant District Attorney in the Rackets Bureau and Trial Division of the New York County District Attorney’s Office in Manhattan. There, he investigated and tried numerous cases, ranging from violent crime to industry corruption. Steven is the owner and founder of Deck Prism, LLC, a consulting firm specializing in providing assistance to U.S. and state government entities engaged in national security, homeland security, and law enforcement. Prior to 2008, Steven was a principal and counsel at PRTM Management (since merged with PriceWaterhouseCoopers), focusing on consulting with government clients involved in national security and law enforcement issues. Steven was a law clerk to the Honorable Thomas P. Griesa in the Southern District of New York.

Margaret Czepiel is a graduate from the George Washington University Law School class of 2020. During her time in law school, Margaret worked as a Writing Fellow and as Senior Notes Editor for the Journal of Energy and Environmental Law. She has worked at the Department of Commerce and the North American Electric Reliability Corporation as a law clerk. She was a student attorney with the George Washington University International Human Rights Clinic and is active on the Moot Court Board. Margaret graduated magna cum laude from Gettysburg College with a B.A.
Erica Dressler is an associate in the Trial and Dispute Resolution Practice Group with Pepper Hamilton LLP, resident in the Philadelphia office. Erica concentrates her practice on complex breach of contract litigation, securities litigation, corporate governance disputes, franchise disputes, international and domestic arbitration, and white collar investigations.

Erica has extensive experience managing litigation during all phases of discovery, including preparing for and taking depositions. She has also prepared witnesses for depositions and assisted colleagues in defending fact and expert witnesses at their depositions. Erica also has significant trial experience. In 2017, she third chaired an antitrust bench trial in federal court in Chicago. Erica is active in pro bono matters, including obtaining a favorable settlement in prisoner civil rights litigation. She also regularly works with the firm’s pro bono Adjustment of Status Clinic Practice Group, in which attorneys and paralegals assist refugees and asylum-seekers in obtaining permanent legal residence. Erica completed an internship for Judge Faith Angell of the U.S. District Court for the Eastern District of Pennsylvania during law school.

K.K. DuVivier taught full time for ten years at CU’s Law School before joining the University of Denver Sturm College of Law faculty in 2000, where she is currently a tenured full Professor of Law. K.K.’s research and teaching focuses are energy and renewable energy law, with a special emphasis on wind, solar, energy efficiency, and distributed generation. In addition to scores of articles, including seventeen years as author of The Scrivener column for The Colorado Lawyer, K.K. has two sole-author books: Energy Law Basics (2017) and The Renewable Energy Reader (2011) and “Chapter 19: Distributed Renewable Energy” in Legal Pathways to Deep Decarbonization in the United States (2019). She also co-authored an interdisciplinary work published in NATURE ENERGY on November 26, 2018: Costs and consequences of wake effects arising from uncoordinated wind energy development, J. K. Lundquist, K. K. DuVivier, D. Kaffine, J. M. Tomaszewski, Nature Energy, https://rdcu.be/bb0aS.
About the Contributors

Professor DuVivier worked as a field geologist before law school, and after earning her J.D., she practiced for eight years, first in natural resources law at the law firms of Sherman & Howard and Arnold & Porter, then as an Assistant City Attorney in the land use and revenue section for the City and County of Denver. K.K. has been a member of the American Law Institute since 2006. She received the Robert B. Yegge Excellence in Teaching Award from DU in 2018 and the Clyde O. Martz Award from the Rocky Mountain Mineral Law Foundation in 2019.

In 2008, Prof. DuVivier and her then-partner, Lance Wright, designed and built a net-positive energy home following German Passive House principles. This house was frequently featured in sustainability tours and won the Colorado Renewable Energy Society’s Renewable Energy and Sustainable Design in Buildings Award for the Residential-New Construction category in 2012.

Brian Farnen is the General Counsel and Chief Legal Officer for the Connecticut Green Bank, where he directs all legal, legislative, and regulatory affairs for the nation’s first green bank established in July 2011, a global leader in renewable and energy efficiency financing and winner of the prestigious Harvard Kennedy School of Government Ash Award for innovation in 2017. Brian’s counsel is helping the Green Bank realize its mission of leveraging public and private funds to scale up renewable energy deployment and energy efficiency projects. In fact, the Green Bank has mobilized well over $1 billion of total clean energy investment since 2012.

Directly prior to the Green Bank, Brian was a Senior Attorney with United Technologies’ Sikorsky Aircraft business unit, providing legal counsel for strategic international campaigns, as well as all of Sikorsky’s global environmental, energy, health, and safety legal matters. Brian also has worked as an attorney for MassMutual Financial Group and Edwards Angell Palmer & Dodge. Brian was awarded by the Connecticut Law Tribune as the “Best In-House Counsel” of the Year in 2018 and previously named a “New Leader in the Law” in 2013. He is passionate about the renewable energy space, taught business law and finance as an adjunct professor, is a board member of the Council of Development Finance Agencies and the Renewable Energy and Efficiency Business Association, and is a former member
of the CT Judicial Review Counsel. Brian proudly represents the 132nd Assembly District, covering much of Fairfield. He began his first term in January 2020 and serves on the legislature’s committees on Finance, Education, and Housing. Brian obtained his Bachelor of Arts Degree, Masters of Business Administration (Finance), and Juris Doctorate from the University of Connecticut.

David Fitzgerald has been working on electric utility and policy issues for more than twenty-five years. His experience has included advising U.S. Senator Howard Metzenbaum (D-OH) on energy issues including the Energy Policy Act of 1992. David has been in private practice since 1995, advising electric utilities, municipally owned utilities, and rural electric cooperatives on federal and state regulatory and transactional cases. He has authored a white paper for the National Rural Electric Cooperative Association on compliance obligations relating to the Public Utility Regulatory Policies Act of 1978 and Distributed Generation deployment. He is currently an articles editor for the Energy Law Journal and works with the energy team at Davison Van Cleve from their Seattle, Washington, office.

Bob Hemm is an associate in the New York office of Wilson Sonsini Goodrich & Rosati, where his practice focuses on energy and infrastructure finance. He handles various complex commercial lending and structured finance transactions, as well as trade finance, bankruptcy, restructuring, and general corporate matters.

William Holmes is a partner with K&L Gates’s Portland office. He focuses his practice in the area of energy and infrastructure projects and transactions with an emphasis on wind energy, solar energy, hydroelectric power, geothermal, biomass, natural gas, carbon offsets, and energy storage. His experience extends into corporate transactions, water law, and real estate law. Bill also advises clients in negotiating major power purchase agreements, acquisition and sale of energy projects, EPC agreements, O&M agreements, fuel supply, and energy project development agreements.

Alex Judd counsels energy clients on regulatory, compliance, and transactional matters. That counsel includes assisting energy clients
with the development and financing of renewable power and fossil fuel facilities. He works with competitive electricity suppliers, utilities, energy project developers, and investors. He appears frequently before the Connecticut Public Utilities Regulatory Authority (PURA). He also monitors regulatory developments in the energy and utilities field throughout New England.

Before joining the Day Pitney team, Alex served as the legislative attorney to the Energy and Technology Committee of the Connecticut General Assembly and previously interned for Eversource Energy, the Connecticut Department of Energy and Environmental Protection’s Bureau of Energy and Technology Policy, and the Connecticut Office of Consumer Counsel.

Aaron Levine serves as the Senior Legal and Regulatory Analyst in the National Renewable Energy Laboratory’s (NREL) Strategic Energy Analysis Center. Generally, Aaron focuses on legal, regulatory, and policy issues related to geothermal, hydropower, solar, wind, transmission, alternative fuels, and other energy-related matters. Aaron has specialized expertise in energy facility siting and transmission regulation. Aaron holds an L.L.M. from the University of Denver Sturm College of Law and a J.D. from the University of Kansas School of Law. Aaron is a Colorado Licensed Attorney and has served in various roles, including chair of ABA’s Renewable,Alternative, and Distributed Energy Resources Committee.

Tanner Long is an associate attorney in Rockford, Illinois, at WilliamsMcCarthy LLP. Tanner’s practice focuses on employment and intellectual property law, with a particular interest in issues faced by emerging companies and the gaming and tech industries. A 2018 graduate of the University of Illinois College of Law, Tanner served as Managing Editor for the College’s Elder Law Journal. Prior to law school, Tanner graduated from Baylor University with a Bachelor’s degree in Business Economics. Outside of the office, Tanner is an avid marathon runner and resides in Cherry Valley, Illinois, with his partner, Molly, and Hungarian Vizsla, Rennen.

Taite R. McDonald is an attorney in Holland & Knight’s Washington, D.C., office and a member of the firm’s Public Policy & Regulation
Group. Taite focuses her practice at the intersection of innovation and government. She is especially well-versed in running complex, cross-government matters with intricate legal, policy, and financing components. Taite is highly knowledgeable in several areas, including energy technology commercialization, federal energy procurement, biofuels, cannabis, hemp, innovative U.S. Department of Defense (DOD) contracting, and government grants and loan guarantees.

Taite provides counsel to companies of all sizes, from early-stage startups to Fortune 100 companies and large utilities. She has successfully represented clients in obtaining government contracts, non-dilutive funding in excess of $100 million, loan guarantees and conditional commitments in excess of $1 billion, and achieving complex policy and legislative objectives. Taite regularly plays a pivotal role in assisting clients to overcome gating obstacles and achieve new and innovative legislative objectives for emerging markets and technologies by forging key partnerships with federal agencies, industry, trade groups, and other government-facing bodies.

Additionally, Taite was selected as a 2019 Holland & Knight Rising Star and is a frequent writer and speaker on topics related to renewable energy, military privatization, cannabis, and government finance. She has spoken at dozens of conferences and events, including the Defense Energy Innovation Summit, Association of Defense Communities Advanced Energy Summit, Advanced Biofuels Leadership Conference, U.S. Department of Energy (DOE) Bioenergy Advanced Biofuels Leadership Conference, and Power-Gen International Finance Forum. In 2019, Taite was named as a Key Player on K Street in Politico’s Essential Guide to Cannabis.

Marc Machlin is a regulatory partner in the Washington, D.C. office of Pepper Hamilton LLP. He co-chairs Pepper’s Energy Industry Group. He advises a wide range of clients on regulatory matters, challenges to regulatory actions, and transactions with a regulatory dimension. His clients include energy and telecommunications providers, transportation companies, and other entities.

Marc has been very active in infrastructure development and in the renewable energy and cogeneration sectors. He regularly represents developers, owner-operators, lenders, and offtakers. He also represents investor-owned utilities and their affiliates in connection
Marc is currently advising clients on utility-scale solar and wind projects and on smaller distributed generation projects, including projects that incorporate energy storage systems. He is advising an interstate pipeline company and an industrial company that is building a small pipeline of its own. In addition to advising regulated firms, Marc often represents energy companies, telecommunications providers, and transportation firms seeking licenses or approvals from the FERC, the Surface Transportation Board, and from state public utility commissions. He frequently represents clients in contested administrative proceedings.

Marc obtained his J.D. degree, cum laude, from Harvard Law School. He obtained his A.B. degree, magna cum laude, from Brown University.

Jane Montgomery focuses her practice on sustainability, renewable generation resource development, and other redevelopment issues, and is a partner at Schiff Hardin LLP. Complex development requires a deep understanding of how environmental issues can drive a development, from financing to permitting to protection of environmental and human resources. By using her knowledge of technology, the generation of pollution, and the many ways to minimize impact on the environment, Jane assists her clients with the means to build projects while addressing climate and other sustainability issues. She believes that the best way to assist clients in reaching their business goals is to thoroughly understand the proposed technology and its possible environmental impact and to pass on that knowledge to her clients. Jane is a graduate of the Pritzker School of Law at Northwestern University and the University of Illinois. She is a frequent writer for her firm’s blog, Energy & Environmental Law Adviser, and enjoys speaking on many aspects of complying with environmental laws.

Chris Murray is an independent energy advisor and distributed energy developer. For over twenty years, he has specialized in energy and environmental issues in a variety of settings, including the White House.
House, the U.S. Congress, the Department of the Navy, the U.S. Air Force, and the FERC.

As an energy counsel in the U.S. Senate, Chris helped secure $2 billion in grants for U.S.-based lithium-ion battery manufacturers under the American Recovery and Reinvestment Act of 2009, which helped finance the construction of manufacturing facilities across the country. Chris also drafted the original Cash-for-Clunkers bill, which provided consumers with over $2 billion in cash incentives to purchase advanced, fuel-efficient vehicles in exchange for retiring older vehicles.

As the Deputy Associate Director for Legislative Affairs at the White House Council on Environmental Quality (CEQ), Chris advised White House staff and agency officials on outreach and communication strategies to further the President's environmental priorities. Chris also served as FERC’s top White House and congressional liaison.

Chris is currently serving as an advisor to the Air Force, helping them develop a non-Federal Acquisition Rules-based procurement strategy to obtain comprehensive and cost-effective energy services that are reliable, resilient, and efficient. Chris also served as a project manager at the Navy where he developed third-party financed microgrids to increase the Navy’s energy resilience. In recognition of his efforts, the Secretary of the Navy awarded Chris one of the Navy’s highest civilian honors—the Meritorious Civilian Service Award.

Chris has a J.D. from U.C. Davis School of Law and a Bachelor of Philosophy from Miami University. He lives in Bethesda, Maryland, with his wife and two boys. Linkedin.com/in/chris-m-5634169b

Ira M. Palgon is a partner in Wilson Sonsini Goodrich & Rosati’s New York office, where his practice focuses on a broad array of structured financing transactions. He has experience representing banks, investment banks, and institutional and private investors in various complex asset- and non-asset-based transactions in the banking, energy, shipping, and film industries.

Additionally, Ira has extensive experience in lease financing. He has represented equity investors and lessees in the financing of a range of equipment and facilities, including power plants, wind farms, aircraft, ships, and railcars.
Sam Panarella is a law professor at the University of Montana School of Law and the Director of the Max Baucus Institute. He has significant expertise and practical experience in contract law, renewable energy development, environmental law, and business and transactional law, including the legal and business aspects of siting, permitting, and operating renewable and fossil fuel energy projects. Sam has authored several papers and articles on energy and environmental topics and is a frequent presenter to legal and business audiences. He has also published extensively on business law topics, including two books on business process and electronic discovery. As a practicing attorney, Sam was involved in the development of over 4,000 megawatts of new renewable energy generation across the United States.

Manisha D. Patel is Vice President for the Environmental Policy Practice at WSP USA. She has 25 years of experience in successfully establishing and implementing environmental, energy, and natural resources policy. She is also an expert on environmental reviews under the National Environmental Policy Act and environmental regulations under the Clean Air Act and Clean Water Act. Manisha uses her expertise to help business partners successfully navigate environmental reviews and government processes.

Karl R. Rábago operates an energy consultancy as Rábago Energy LLC, in Denver, Colorado. Karl recently led the Pace Energy and Climate Center, at the Pace University Elisabeth Haub School of Law in White Plains, New York, where he also taught energy law. Karl has thirty years of experience in energy and climate policy and markets and is recognized as an innovator in utility regulatory issues relating to clean and distributed energy services and technologies.

Karl is a frequent author on electricity industry issues and has provided testimony as an expert witness in more than 100 electric and gas utility regulatory proceedings.

Karl serves as Chair of the Board of the Center for Resource Solutions, a San Francisco-based non-governmental organization that manages the Green-e Certification program for green power products, and on the Board of Solar United Neighbors.

Karl has been a Commissioner on the Texas Public Utility Commission; a Deputy Assistant Secretary at the U.S. Department of
Energy; Vice President of Distributed Energy Services at Austin Energy; Director of Regulatory Affairs for the AES Corporation and AES Wind; and Managing Director & Principal of the Rocky Mountain Institute.

While on active duty in the U.S. Army, Karl served as a trial counsel and defense counsel with the Fifth Infantry Division, and as an assistant professor of law at the U.S. Military Academy at West Point, NY.

Karl is a graduate of Texas A&M University with a Bachelor of Business Administration degree in Business Management and has a Juris Doctorate (Honors) from the University of Texas and Master of Law degrees, in environmental and military law, from Pace Law School and the U.S. Army Judge Advocate General’s School. He can be reached at karl@rabagoenergy.com and @rabagoenergy

Wilson Rickerson is Co-Founder and Principal of Converge Strategies, LLC, a consulting firm focused on the intersection of advanced energy, resilience, and national security. He has nineteen years of experience working with military, government, and corporate partners in twenty-five countries on energy and climate strategies. Prior to Converge Strategies, Wilson led Meister Consultants Group (MCG), where he served as CEO until 2016. Under his leadership, MCG supported energy and resilience projects with local, state, and international governments. He holds a Masters in Energy and Environmental Policy from the University of Delaware and a BA in International Relations from the College of William and Mary. He is a Policy Fellow with the Center for Climate and Security and a Resilience Strategies Expert with the Clean Energy Solutions Center. He has co-authored over 100 publications on energy and climate topics during the past decade. https://www.linkedin.com/in/wilson-rickerson-7067633/.

Heather Rosmarin is Executive Director of the InterAmerican Clean Energy Institute, a nonprofit organization working to advance clean energy deployment in the Americas. Previously, Heather practiced law at Cooley LLP in Palo Alto, where she represented clean energy and technology companies and investors.
Heather is a Fellow of the American Bar Foundation and a past co-chair of the American Bar Association’s Energy Markets and Finance Committee. Her articles have been published in the California International Law Journal and Energy Focus, and she is a regular contributor to REN21’s annual Renewables Global Status Report.

Heather holds a J.D. from the University of California, Berkeley, School of Law, where she served as supervising editor of the California Law Review, and an A.B. from Princeton University.

Radina Valova is Senior Staff Attorney and Regulatory Affairs Manager at Pace Energy and Climate Center, where she manages the Center’s regulatory docket and leads the Center’s engagement in New York’s Reforming the Energy Vision process, rate cases, and energy equity work. Prior to joining the Center, Radina worked in commercial litigation, and before embarking on the legal path, she coordinated a sustainable living program for community college students. She is a graduate of Pace Law School, with a postdoctoral concentration in Land Use and Sustainable Development, and currently teaches Energy Law.

Elizabeth Bellis Wolfe is an associate in the New York office of Wilson Sonsini Goodrich & Rosati, where her practice focuses on the tax aspects of energy finance transactions. Elizabeth has experience with public-private energy efficiency and renewable energy financing efforts including lending, bonds, and securitization programs.

Prior to joining the firm, Elizabeth served as vice president at the New York Green Bank, a division of the New York State Energy Research & Development Authority, and as an associate in the tax department at Debevoise & Plimpton LLP in New York, where she represented private equity and credit funds in fund formation, financing, and transactional work.

Michael Wu is a Co-Founder and Principal of Converge Strategies, LLC, a consulting firm focused on the intersection of advanced energy, resilience, and national security. He is the founder of the Military Energy Resilience Catalyst, an accelerator program for DoD energy resilience professionals. Michael formerly served as the Senior Advisor for energy resilience in the U.S. Air Force, helping found the
Air Force Office of Energy Assurance. He is an officer in the Army Judge Advocate General Corps, a Fellow in the Resource Security Program at New America, and a Policy Fellow with the Center for Climate and Security. He is a graduate of the Washington University in St. Louis School of Law and St. John’s College.

A. Christopher Young is a partner in the Philadelphia office of Pepper Hamilton LLP and chairman of the Franchise, Distribution and Marketing Section of the Trial and Dispute Resolution Practice Group. His trial practice, in federal and state courts, involves many substantive areas, including antitrust, commercial disputes, franchise disputes, insurance, and products liability. Chris has represented businesses in various industries, including electrical generation companies, petroleum marketers, chemical manufacturers and distributors, medical device makers, fire safety companies, security alarm providers, and convenience retailers, in litigation involving business and commercial disputes. Together with other Pepper attorneys, Chris has built a strong relationship with clients and has advised them on risk management, contract negotiations, alternative dispute resolution options, and litigation matters.

Chris obtained his Juris Doctor degree from Tulane Law School in New Orleans, Louisiana, and his Bachelor of Arts degree from Denison University in Granville, Ohio.

Editorial Support

Robin Happel is a law student and volunteer with the Renewable Energy Legal Defense Initiative. She has previously written or commented on various environmental policy concerns for The Nation, the BBC, and other publications.

Amanda L. Hemmerich, Esq., is an attorney who focuses her practice on environmental and natural resources law. Amanda holds a bachelor’s degree in Biology from Reed College, an M.P.A. from Indiana University’s School of Public and Environmental Affairs, and her J.D. from the University of Maine School of Law, where she served as the chair of the Environmental & Energy Law Society. Prior to law school, she worked for several years as an environmental planner.
and wildland firefighter. She is admitted to practice in Colorado and is currently a member of the Advisory Council of the Environmental Law Section of the Colorado Bar Association.

**Meredith Mitnick** is a graduate of Benjamin N. Cardozo School of Law and will serve as a Law Clerk to the Honorable Rosemary Gambardella, U.S. Bankruptcy Judge for the District of New Jersey, for the 2020–2021 term. She was the 2019–2020 Editor of the *Cardozo Law Review de•novo* journal, the online companion to the *Law Review*. It was her pleasure to assist with editing this book, and she enjoyed learning more about the field of distributed generation.

**Erin Palmer** is a student at Elisabeth Haub School of Law at Pace University, who is expecting to graduate with her Juris Doctorate and specialty certificate in environmental law in May 2021. She has a lifelong passion for environmental issues, which is evident through her education and professional experience. Erin received her Bachelor of Science in Environmental Studies from Gettysburg College in 2015 and spent several years working at nonprofit organizations before attending law school. While attending law school Erin has continued to develop her experience in environmental issues and environmental laws through internships with the New York State Department of Environmental Conservation and the United States Environmental Protection Agency. Erin is also active in planning and hosting the National Environmental Law Moot Court Competition and has been on the board for two years.

**Stephan Wazny** joined Schiff Hardin’s New York Office as an Associate in October 2019 after working as a Summer Associate in 2018. He handles primarily litigation matters, with a focus on products liability and mass torts. Steve is a graduate of Fordham University School of Law and the College of the Holy Cross.

**Tanner Long** and **Margaret Czepiel** also provided editorial support.
