Dear Friends and Colleagues:

For everyone who wants to understand the cutting-edge developments occurring in private antitrust redress, collectively and around the world . . . LET THEM COME TO BERLIN!

We are thrilled to welcome back many friends made at the inaugural Global Private Litigation Conference in Amsterdam in 2017. We look forward to making new ones at an exciting and different program in Berlin on June 16-17, 2019. The Conference again presents a world-class line-up of private plaintiff and defense litigators, as well as government enforcers, economists, corporate counsel, academics and jurists from around the globe. They will share insights into the continuing path of multi-jurisdictional and collective antitrust redress.

Featured sessions in various formats will address hot and emerging cases such as the fast-moving interchange fee/credit card litigation; the latest developments in collective actions and claims aggregation and assignment; implementation of the damages directive, with special attention to magnet venues; the approach of in-house counsel to multi-jurisdictional claims; the effects of settlement decisions on private enforcement; structuring “global” settlements; critical thinking about allocation questions; and convergence issues across jurisdictions, among others. Following the lunch, we will again bring together another U.S. Federal Judge and a European colleague for a unique discussion comparing issues of collective redress in different judicial systems.

The Conference will kick off with our “don’t miss” networking event on Sunday evening, followed by the full-day slate of panels on Monday, all in a historic conference space in the heart of Germany’s capital. We encourage you to come early and enjoy the weekend. We will be putting together a special sightseeing event in Berlin. And by all means explore this fabulous metropolis on your own, with sights both known and unexpected, both vibrant and family-friendly – ranging from the Brandenburg Gate to Europe’s most popular zoo, from the world-famous “Museum Island” to spectacular urban street art, from a dozen Michelin-starred restaurants to music clubs with no set closing time on the weekend. Berlin has become the leading city in the world for international conventions – and for good reason.

Oh, and if you’d like to continue the discussions “over a beer” after the reception and informal dine-arounds on Monday evening, we understand that the Germans also have some notoriety in that regard.

We look forward to seeing you in Berlin!

Global Private Litigation Committee

The Global Private Litigation Committee focuses on private antitrust enforcement, primarily litigation, around the world. The Committee tracks and highlights current and influential efforts in private antitrust enforcement outside of the United States and compares those activities to civil litigation in the United States. While international civil regimes are at various stages of development, the Committee focuses on the important aspects of each regime and analyses the interplay as global recovery and defense strategies emerge.
