ABA CLE SHOWCASE PROGRAM

Shaping our Future: Top Tech Company Lawyers on Innovation and Social Responsibility

*Presented by the ABA Science & Technology Law Section*

Lyft, Microsoft, Oracle and 23andMe are some of the most transformative tech companies shaping the way we think about philanthropy, privacy, and cutting-edge legal issues from AI to autonomous driving cars to genetic testing. These companies have also been leading the way on policies to encourage diversity in the workplace.

In this roundtable, we will explore how these tech leaders perceive their roles in shaping socially responsible policies, addressing merging areas of the law, and anticipating future challenges. Expect a lively conversation centered around what innovation and corporate responsibility really mean in 2019.

**Moderator:** Heather Dembert Rafter—RafterMarsh US, Silicon Valley, CA

**Speakers:**
- **Dorian Daley**—Executive Vice President, General Counsel and Secretary, Oracle Corporation, San Francisco, CA
