School-to-Prison Pipeline: From Report to Action

JW Marriott Austin
Level 4, JW Grand Ballroom Salon 1
February 15th 8:00 AM - 9:30 AM

In 2018, the ABA issued a formal report on the school to prison pipeline, the national trend wherein children, primarily students of color and students with disabilities, are funneled out of public schools and into the juvenile and criminal justice systems. This program will explore the five primary recommendations contained in that report, and discuss how the legal profession can work on the state and local level to interrupt the school to prison pipeline and ensure equity in education and discipline for all students.
