ABA Governmental Affairs Office
CDC reopening guidance for workplaces

Workplaces are guided to meet all requirements in each stage before advancing

**Should you consider reopening?**
- Is reopening consistent with state and local orders?
- Are there protections for higher-risk employees?

**Are recommended health and safety actions in place?**
- Promote healthy hygiene practices such as hand washing and employees wearing a cloth face covering, as feasible
- Intensify cleaning, disinfection, and ventilation
- Encourage social distancing and spacing, including through physical barriers, changing layouts, encouraging telework, staggered shifts, reduced access to communal spaces, and limiting large events as feasible
- Consider modifying travel and commuting practices
- Train employees on health and safety protocols

**Is ongoing monitoring in place?**
- Develop and implement procedures to check for signs and symptoms of employees upon arrival, as feasible
- Encourage people who are sick to stay home
- Develop plans for if an employee gets sick
- Communicate and monitor developments with local authorities and employees
- Monitor absences and have flexible leave policies
- Be prepared to consult with local health authorities should there be a case in the facility or an increase in cases in the surrounding area

Any NO

DO NOT OPEN

OPEN AND MONITOR
