17TH ANNUAL
WASHINGTON HEALTH LAW SUMMIT

DECEMBER 9-10, 2019
THE RITZ-CARLTON WASHINGTON, DC

CO-SPONSORED BY: GOVERNMENT AND PUBLIC SECTOR LAWYERS DIVISION

EARN UP TO 11 CLE CREDITS!

As the future of U.S. healthcare continues to evolve, the 2019 Washington Health Law Summit is the one conference you can’t afford to miss! It is essential for advisors in all segments of the healthcare industry to stay up-to-date on the latest legislative and policy developments, as well as implementation of significant healthcare initiatives emanating from HHS, CMS, DOJ, OIG, and other key government agencies.

We invite you to take advantage of this unique opportunity for federal and state government lawyers, in-house counsel, private practitioners, and consultants to learn from each other in an intimate conference setting.

Join our faculty of leading healthcare experts as they help to navigate an insiders’ view of timely policy issues affecting the healthcare industry today. Our speakers will guide you through key topics including Artificial Intelligence, responding to a pandemic situation, mental health and substance abuse issues, what to expect for election 2020, and key policy shifts following recent court rulings.

We are especially excited to welcome Kimberly Brandt, Principal Deputy Administrator for Operations of the Centers for Medicare & Medicaid Services (CMS) and a nationally recognized expert in healthcare compliance, fraud, and abuse issues as she provides an overview of the agency’s recent proposal reforms related to the Stark Law and Anti-Kickback Statute. A concurrent session by other CMS leaders immediately follows Ms. Brandt’s address and will provide a deeper dive of the proposed changes.

For the first time, two conference sessions will take place on Capitol Hill in the Everett M. Dirksen Senate Office Building, Monday, December 9! Round-trip bus transportation from the Ritz-Carlton will be provided to conference attendees.

This year, we’re also proud to introduce an event app for your mobile devices, Convene, which places conference information at your fingertips! After you register, stay tuned for an email from Convene with more details.

Ethics

#It'sMyLane: Legal & Medical Ethics When Doctors Speak Out on Public Policy

From gun violence to abortion to medical marijuana, physicians feel increasing pressure to speak out on public policy issues. At the same time, public advocacy activities may expose physicians to licensure risks, prosecution and even the threat of violence. Lawyers advising physicians on such issues likewise face ethics and professional responsibility challenges, especially where there are legal and practical constraints on physicians ability to advocate for certain positions. This session will explore current controversies affecting physicians and public policy, and on the professional responsibility obligations of lawyers advising them.

Debrief on Risk Corridor Arguments Before the Supreme Court on Dec. 10, 2019

On December 10, 2019, the U.S. Supreme Court said it will take up consolidated cases over whether the federal government must pay billions of dollars to health insurers that sold coverage on the Affordable Care Act exchanges. The court will consider whether the government had an obligation to pay private health insurers under the named “risk corridor” program that was established to offset insurer losses in the early years of the ACA exchanges. Although that three-year program has ended, health insurers argue that HHS owes them more than $12 billion in unpaid funds.
