The Section of Family Law adopted, in August, 1976, by Council action, a recommendation concerning the federally aided State Child Support programs under Part B of PL 93-647 as modified by PL 94-88. The Section submitted a timely recommendation to the Secretary for the House of Delegates at the Midyear Meeting. After submission, however, it appeared that the recommendations which pertain to regulations being promulgated by HEW which will be before the Congress for review, should be delayed until after the publication deadline date for receipt of reports to determine HEW's approach to the problem. This will permit the Association, if it adopts the Section's recommendations, to be responsive to the material that Congress will have before it.

It is probable that the resolution can be cast in relevant terms for House consideration in time for a separate recommendation to be distributed with the Reports book to House members on January 21, 1977.

Henry H. Foster, Jr. Chairman
