RESOLVED, that the American Bar Association condemns the federal government shutdowns, which impaired our legal system and undermined the rule of law.

FURTHER RESOLVED, that the American Bar Association calls upon the President of the United States and Congress to refrain, now and in the future, from allowing the federal budget process to injuriously impact the proper functioning of the federal judiciary and the rule of law.

Deletions struck through; additions underlined
RESOLUTION

1 RESOLVED, That the American Bar Association urges the enactment of a rule by all state, local, territorial, and tribal legislative bodies or their highest courts charged with the regulation of the legal profession, as well as by all federal courts, providing that a motion for continuance based on parental leave of either the lead attorney or another integrally involved attorney in the matter shall be granted if:

6 a) consented to by all parties
7 b) or if not consented to by all parties and the movant demonstrates:

RESOLUTION

RESOLVED, That the American Bar Association supports the principle that the doctrine of “fair use” should be applied consistently and in a manner consistent with the constitutional goal of provision for copyright, which is “to Promote the Progress of Science and useful Arts” by giving authors exclusive rights in their works for limited times, by securing for limited times to authors and inventors the exclusive right to their respective writings and discoveries.” (see U.S. Const., Art. I, §8, cl.8); and

FURTHER RESOLVED, That the American Bar Association supports the principle that the such a copyright owner’s actual or potential market includes are those markets that are traditional, reasonable or likely to be developed, regardless of whether the copyright owner has already entered a particular market or has plans to do so.

Deletions struck through; additions underlined
RESOLVED, That the American Bar Association urges the federal judiciary to recognize the substantial privacy and confidentiality interests, as well as the important national security and law enforcement interests, implicated by searches and seizures of electronic devices at the border; and

FURTHER RESOLVED, That the American Bar Association urges Congress to enact legislation and, until legislation is enacted, urges the U.S. Department of Homeland Security to adopt policy, that would:

(1) require a warrant based on probable cause for seizures (other than temporary seizures for searches other than forensic searches or for the purpose of obtaining a warrant) and forensic searches of electronic devices carried by individuals American citizens and lawful permanent residents entering the country, or by any person leaving the country, at the border unless an exception to the warrant requirement other than the border search exception applies;

(2) prohibit any government entity from denying an American citizen or lawful permanent resident entry or exit based on the person’s failure to disclose an access credential or provide access to an electronic device for a search;

(3) implement policies and procedures to preserve fully protect the attorney-client privilege, the work product doctrine, and the lawyer’s ethical obligation to maintain confidential information during border crossings; and

(4) require the federal government to record each instance in which it conducts a forensic search of an electronic device seized at the border and issue an annual report summarizing such searches.

RESOLUTION

RESOLVED, That the American Bar Association urges Congress to pass enact the federal Equality Act, H.R. 2282 (115th Congress), or similar legislation which explicitly affirms that: (1) discrimination because of sexual orientation, or gender identity, gender identity/expression, sex stereotyping, or pregnancy is sex discrimination prohibited by the Civil Rights Act of 1964 and certain other federal statutes; and (2) federal statutory protections for religious freedom do not authorize violation of nondiscrimination laws; and adds sex, sexual orientation and gender identity protections to those statutes; and

FURTHER RESOLVED, That the American Bar Association supports enactment of the Equality Act (H.R. 2282, 115th Congress) or similar legislation that advances LGBTQ rights; and

FURTHER RESOLVED, That the American Bar Association urges all courts within the United States to recognize that religiously neutral laws of general applicability prohibiting discrimination on the basis of sex (which includes discrimination on the basis of sexual orientation or gender identity/expression) do not improperly burden the religious free exercise rights of those operating places of public accommodation. This resolution does not apply to the application of nondiscrimination laws to religious institutions to the extent that application would substantially interfere with the exercise of a fundamental religious tenet of the religious institution.
