Illinois Department on Aging
Elder Abuse Fatality Review Team

Mission Statement

The DuPage County Elder Abuse Fatality Review Team will examine deaths associated with suspected abuse and or neglect of persons aged 60 years or older who are currently residing or have resided in DuPage County.

The purpose of our Elder Abuse Fatality Review Team is to identify whether those systems whose purpose or responsibility is to assist or protect victims are adequate for the particular circumstances or whether such systems require adjustment or improvement.

It is the express desire of these cooperative entities that by carefully examining older adult fatalities related to abuse, neglect, self neglect or exploitation and implementing necessary system changes, the resulting outcome will 1) lead to improvement in the response to elder and vulnerable adult victims of abuse and or neglect and 2) prevent similar outcomes in the future.
