It's time to wake up. Cyber crime is rapidly becoming the greatest threat facing all businesses, including law firms. With attacks growing in volume and sophistication, and costs running into trillions of dollars annually, it's more important than ever to ensure you're protected. Join us for an eye-opening keynote from Raj De, followed by a stimulating panel discussion with cybersecurity experts, including authors of the updated and expanded ABA bestseller, *The ABA Cybersecurity Handbook, 2nd Edition (2018)* (enter drawing for free copy at event). Ruth Hill Bro will lead a dynamic panel that includes Raj De; Suzanne Spaulding, and Thomas J. Smedinghoff, co-editor of *Guide to Cybersecurity Due Diligence in M&A Transactions* (ABA 2017). Gain insights on the cybercrime threat to all businesses, related technology issues, key legal requirements to protect data and disclose breaches, and vital steps to take now to lessen risks and prevent your worst nightmare. The business you save may be your own.
