THURSDAY, MAY 2

**The Media in the Crosshairs: The Vital First Amendment Values at Stake**

4:30 PM – 6:00 PM  
General CLE

The First Amendment is facing unprecedented challenges. This panel of superstar experts will examine the state of press freedom in our nation today, providing insights into such topics as the causes of press unpopularity, the “fake news” phenomenon, the polarization of news reporting, assaults on the institution of the press, and the prognosis for the future.

- **Moderator:** R. Bruce Rich, Weil Gotshal & Manges LLP, New York, NY

**Whither the 10th Amendment? State Attorneys General, Federalism, and Litigation**

8:15 AM – 9:45 AM  
General CLE

Issues of federalism are as old as the Constitution. Yet, important recent cases have raised the profile of State Attorneys General, the chief lawyers for their states and the citizens thereof. Whether the cases involve immigration, healthcare, implementation or disregard of federal mandates, litigation initiated by Attorneys General has grown in the past decade in response to initiatives from administrations in Washington from both parties. State AGs on both sides of the aisle have played a major role in federalism-styled litigation during the Trump and Obama administrations. Hear from those in the trenches in state AG offices (both AGs and solicitors) who will share their views as to why they bring (or defend against) these cases and as to how these cases fit into historical context. After listening to this balanced presentation, decide for yourself whether these cases are purely about politics or about the Rule of Law. (Or maybe it’s really some of both!)

- **Moderator:** Ellen F. Rosenblum, Attorney General for the State of Oregon, Salem, OR
- **Speakers:** Jeff Landry, Attorney General for the State of Louisiana, Baton Rouge, LA; Karl A. Racine, Attorney General for the District of Columbia, Washington, D.C.; Daniel B. Rodriguez, Northwestern Pritzker School of Law, Chicago, IL; Misha Tseytlin, Former Wisconsin Solicitor General, Troutman Sanders LLP, Chicago, IL

**The Internet of (Hackable) Things (IoT): Liability and Insurance for Smart Technology**

10:00 AM – 11:00 AM  
Technology CLE

We have smart homes, smart cities, smart factories, and even smart refrigerators. But what happens when our connected devices are compromised? Who pays when a smart car causes an accident? What happens if a smart powerplant is hacked? This panel discusses liability and insurance for the IoT and smart technology.

- **Moderator:** Geoffrey J. Miller, Saxe Doernberger & Vita PC, Trumbull, CT
- **Speakers:** John G. Buchanan III, Covington & Burling LLP, Washington, D.C.; Lucy L. Thomson, Proctor LLP, San Francisco, CA; Darryl M. Woo, Goodwin Procter LLP, San Francisco, CA

Issues of federalism are as old as the Constitution. Yet, important recent cases have raised the profile of State Attorneys General, the chief lawyers for their states and the citizens thereof. Whether the cases involve immigration, healthcare, implementation or disregard of federal mandates, litigation initiated by Attorneys General has grown in the past decade in response to initiatives from administrations in Washington from both parties. State AGs on both sides of the aisle have played a major role in federalism-styled litigation during the Trump and Obama administrations. Hear from those in the trenches in state AG offices (both AGs and solicitors) who will share their views as to why they bring (or defend against) these cases and as to how these cases fit into historical context. After listening to this balanced presentation, decide for yourself whether these cases are purely about politics or about the Rule of Law. (Or maybe it’s really some of both!)

Mastering Mass Tort Settlements
2:00 PM – 3:00 PM

Using Technology Assisted Review (TAR) in litigation to expedite the discovery process has become increasingly more common. TAR can also be used in many other analytical workflows where the main goal is to locate key documents in the early stages of a legal matter. Internal investigations, regulatory investigations, and litigation assessments can greatly benefit by implementing TAR as a tool. In this course, lawyers will explore how incremental practices of mindfulness support the ABA Model Rules of Professional Conduct as they relate to a lawyer's duty to competency, marketing, and maintaining the integrity of the legal profession. Interactive exercises will demonstrate the process and leave audience members excited and energized about the importance of mindfulness and its effect on their money. Panelists will discuss how decreased stress and enhanced mental health and functioning will follow from lawyers building mindfulness practices into their schedule each day. The panelists will describe how mindfulness will create a growth mindset to increase revenues and maintain integrity.

This panel will showcase the advances in technology concerning demonstrative evidence and will provide guidance for presenting such evidence in a simple yet entertaining and interesting manner. This program will include examples of modern demonstrative presentations in commercial, construction, and aviation litigation and will address different strategies for use at trial, arbitration, and mediation.

This program will explore best practices in the settlement of high-stakes mass torts. Our expert panel of distinguished judges, attorneys, and academics will discuss successful strategies, innovative solutions, and lessons learned, based on decades of experience resolving some of the most complicated mass torts cases arising in the U.S. judicial system.

In this program, participants will have the opportunity to master the latest technologies that are used to assist in the discovery phase of litigation.
