Data Source: American Bar Association's National Lawyer Population Survey

\* Individual state bar associations or licensing agencies are asked to provide the number of resident and active attorneys as of December 31st of the prior year, e.g. 2020 data is as of 12/31/2019. The numbers reflected here are the best available data provided to us from the respective associations or agencies; significant exceptions are noted below.

- (1) The Alabama number reflects all resident attorneys regardless of whether they were active or not.
- (2) Illinois, Guam, and Puerto Rico did not provide current data for 2011 so prior year's stats were used.
- (3) During 2011, Indiana began using a new system for attorney registration leading to greater accuracy in reporting in 2012.
- (4) Arizona, Illinois, Guam, Puerto Rico, and the Virgin Islands did not provide current data for 2012 so prior year's stats were used.
- (5) Oregon, Guam, and the Virgin Islands did not provide current data for 2013 so prior year's stats were used.
- (6) Dist. of Columbia, Florida, Maine, Mississippi, Nebraska, Nevada, New Mexico, Oregon, Puerto Rico, Tennessee, Utah, and Vermont did not provide current data for 2014 so the data from the most recent submission were used.
- (7) Due to timing of the survey in 2014, the following states submitted data from Fall 2014 rather than as of December 31, 2013: Arkansas, Connecticut, Indiana, Kansas, Louisiana, Michigan, Minnesota, Missouri, North Carolina, Rhode Island, Virginia, Wisconsin, West Virginia, and Wyoming. All but Kansas, Louisiana, Minnesota, Rhode Island, Virginia, and West Virginia chose not to submit updated data for the 2015 survey.
- (8) Prior to the 2014 survey, the Virgin Islands did not report on active/inactive status. The decrease in 2014 is a more accurate representation of Resident Active lawyers.
- (9) Prior to the 2014 survey, Oklahoma excluded lawyers categorized as "Over 70" from their Resident Active submission. The 2014 results include this group.
- (10) In 2016, New Jersey was in the process of a system conversion and was not able to provide information in time to be included in the survey. As a result, the most recent prior submission was used.
- (11) In 2016, four agencies had changes in the availability of Active/Inactive status data. Arkansas, Connecticut, and Indiana were not able to provide a breakout of Active/Inactive status for Resident attorneys as they had in prior years. Puerto Rico had not provided Active/Inactive status details in prior years, but was able to provide it for the 2016 survey. In 2018, Indiana corrected the resident active figures for 2016; this report has been updated to reflect the new total attorney count for 2016 than was previously reported.
- (12) In 2017, the source of the Maryland data changed from the voluntary Maryland State Bar to the Maryland Supreme Court. The Maryland Supreme Court does not track residency status, leading to larger results than prior years.
- (13) In 2017, three agencies had changes in the availability of Active/Inactive status data. Indiana was not able to provide a breakout of Active/Inactive status for Resident attorneys in 2016, but was able to for 2017. American Samoa had not provided Residency or Active status details in recent years, but was able to provide it for the 2017 survey. Virgin Islands changed its classifications for the Active/Inactive status for the 2017 survey.
- (14) Vermont was not able to provide current data for 2017 so the data from the most recent submission were used.
- (15) Virgin Islands was not able to provide residency in 2018 due to Hurricanes Irma and Maria.
- (16) In 2018, Oklahoma removed senior members from the Resident Active count (they can still practice but are over the age of 70).
- (17) In 2019, Maryland, Nevada, and New York provided corrected 2018 lawyer counts; this report reflects the corrected 2018 total attorney count.
- (18) In 2019, four agencies had changes in the availability of residency data. Arkansas adopted a new software system and cleaned up data; the decrease in 2019 is a more accurate representation of Resident Active Lawyers. Louisiana changed how it reports residency status, causing an increase in the reported lawyer count. Minnesota and Vermont no longer track resident/non-resident status; the counts now reflect all active lawyers.
- (19) New Hampshire, South Dakota, and Virgin Islands did not provide current data for 2019, so prior year's stats were used.
- (20) In 2020, the District of Columbia changed how it reports residency status to report DC addresses only and not the DC metro area.
- (21) In 2020, Oklahoma returned senior members to the Resident Active count after excluding them in 2018 and 2019.
- (22) Due to the COVID-19 pandemic and other reasons, not all states and territories participated in 2020; prior year responses were used for the following: Alaska, American Samoa, Arizona, Colorado, Connecticut, Delaware, Guam, Hawaii, Illinois, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Michigan, Minnesota, Mississippi, Missouri, New Jersey, New Mexico, North Carolina, North Mariana Islands, Ohio, Puerto Rico, Rhode Island, Vermont, Virgin Islands, Virginia, West Virginia, Wyoming.
