Model Rule 8.4 is objectionable: it is too broad, too vague, and actually dangerous. It appears to have an agenda behind it, and not one that would advance our profession. What would it do to attorney-client relationships? The un-intended consequences of such a change would be detrimental on too many levels.. what about religious exemptions?

This affects ALL of us and I want to have our objections heard on this change.... please do NOT change Rule 8.4.

Yours respectfully,

Mr & Mrs C. Douglas Shepherd
