

2017 ANNUAL MEETING
SCITECH CLE PROGRAMS

[View Full SciTech Annual Meeting Brochure](#)

THURSDAY, AUGUST 10

[Unblurring the Lines: Navigating the Complex Relationship between Technology, Music & Copyright Law](#)

This program highlighted the complexities and nuances of various pop-culture-famous copyright cases and the ubiquitous role of technology in the arcane world of copyright law.

FRIDAY, AUGUST 11

[Immerse Yourself: Creative Expression through Augmented & Virtual Reality](#)

The panel provided insight into the types of legal challenges faced by users, customers and businesses in this era of increasing competition to create immersive experiences using augmented and virtual reality to capture the attention of massive audiences for a variety of commercial and social purposes.

[Fakes & Forgeries: Art Authentication & Lessons Learned from De Sole, et al v. Knoedler Gallery, LLC et al](#)

Panel members discussed the application of both traditional and scientific authentication techniques in one of the most notorious, relevant and timely case study applications, the De Soles v. Knoedler case, which settled earlier this year.

SATURDAY, AUGUST 12

SHOWCASE PROGRAM (Co-sponsored with Cybersecurity Legal Task Force)

[Cyber Risk Management: How Should Lawyers, Corporations and Governments Deal With Risk?](#)

Former Department of Homeland Security Under Secretary Suzanne Spaulding, SciTech Leader Eric Hibbard and other cybersecurity experts provided insights and tips on how to protect legal practices.
