MESSAGE FROM THE CHAIR

Dear SciTech Members,

I invite you to gather with your colleagues for the American Bar Association Section of Science & Technology Law’s (SciTech) upcoming meetings and events in San Francisco on August 8-9, in conjunction with the ABA Annual Meeting.

This is our time. Science and technology issues ranging from climate change to privacy, from smart cities and Internet of Things to biotechnology and blockchain, are at the forefront of today’s news. SciTech’s members are working continuously to shape these and other topics in technology law for the next decade. SciTech’s San Francisco meeting provides you with a great opportunity to explore career-enhancing opportunities while expanding your network.

Our Section headquarters is the Hilton San Francisco Union Square on O’Farrell Street. It offers both classic and modern rooms and places you in the middle of things two blocks from the cable cars, the theater district, Yerba Buena and the Moscone Center, and great museums and shopping near Union Square.

Many thanks to our friends and colleagues at Jones Day, who will be hosting our Council and Business Meetings on Friday, August 9, at their offices at 555 California Street, 26th Floor. Much important work will get done as SciTech gears up for another year at the cutting-edge of technology law.

Our Section Dinner will be at the lovely St. Francis Yacht Club on the shore of the Bay with a spectacular view of the Golden Gate Bridge. Details to order your tickets for both the Council Lunch and the Section Dinner are included in this brochure.

SciTech is once again honored to be producing one of six of the ABA’s Showcase CLE programs. Our former Chair, Heather Rafter, is moderating a panel on “Shaping our Future: The Top Tech Company Lawyers Speak Out” featuring in-house counsel from leading tech companies including Lyft, Microsoft, Oracle, and 23andMe. This program will start at 10 a.m. on Friday, August 9, at the Marriott Marquis Hotel.

Of course, San Francisco is a beautiful, culturally diverse and vibrant city - one that many of the leading technology companies in the nation and world call home. While there, visit any of the city’s famous museums, ride a cable car, sample the flavors of Chinatown, Little Italy or the Mission District. Or take some time to venture outside of the city to the Silicon Valley, the wine country or Muir Woods. There is so much to do for families and couples alike.

WILLIAM B. BAKER
