National Health Care Decisions Day is an annual event established to educate and empower the public to engage in effective advance-care planning for health care. A key part of planning is the selection and appointment, in writing, of a trusted person to make decisions on your behalf if you are:

- permanently or temporarily impaired for any reason; and
- hoping to avoid having critical healthcare decisions made by strangers or the healthcare system

The Commission on Law and Aging will explain the three key questions that make up health decisions planning. It is for ages 8-108. Please join us and get the essentials.

**Topic:** “Essentials of Advance Care Planning Regardless of Your Age or Your Parents’ Age”

**Presenter:** Charlie Sabatino

Director, ABA Commission on Law and Aging
Thursday, March 23, 2017 | 10–11 am CDT
South Boardroom, 21st Floor

For more information, go to the National Health Care Decisions Day Link: http://www.americanbar.org/groups/health_law/news/2016/04/a_call_to_actionon.html

*Another event brought to you by the ABA Staff Diversity Council.*
