The attached list contains recommendations made by the members of the following committees within the Section of Taxation.

In addition to these recommendations, the Section of Taxation continues to support the inclusion of its previous recommendations into the Priority Guidance Plan. The Section of Taxation’s recommendations for 2016-2017 are also attached as an appendix to this submission.

Although the members of the Section of Taxation who participated in preparing this list have clients who might be affected by the federal income tax principles addressed by these recommendations, no such member or the firm or organization to which such member belongs has been engaged by a client to make a government submission with respect to,
or otherwise to influence the development or outcome of, the specific subject matter of these recommendations.

We would be happy to discuss the recommendations with you or your staff, if that would be helpful.

3 Regulation section 1.132-4(a)(2)(i) provides that an employer’s lines of business is determined by reference to the Enterprise Standard Industrial Classification Manual (ESIC Manual) prepared by the Statistical Policy Division of the U.S. Office of Management and Budget. The ESIC Manual was last revised in 1987 and updated guidance on whether a taxpayer has separate lines of business under the QED rules would be helpful.
6. Guidance clarifying “significant amount” to not include de minimis penalties under the first-time abatement rule (FTA).

INVESTMENT MANAGEMENT
Roger S. Wise, Investment Management Committee, (202)-419-8436,
PWise@stradley.com

1. Guidance addressing investment in commodities and commodity-linked derivatives by regulated investment companies (“RICs”) through controlled foreign corporations (“CFCs”), qualified electing funds (“QEFs”), and commodity-linked notes. We ask that the IRS reconsider the proposed regulations issued under section 851, which would treat inclusions with respect to CFCs and QEFs as qualifying income only to the extent matched by a distribution.

2. Guidance regarding the tax treatment of exchange-traded notes.

3. Regulations regarding the taxation of notional principal contracts (“NPCs”), including the character of payments made under a NPC, the inclusion in income or deduction of a contingent nonperiodic payment, and the definition of a “payment” made pursuant to a NPC.

4. Guidance confirming that RICs can generally “look through” their interests in a partnership to the partnership’s underlying assets for purposes of the asset diversification test under section 851(b)(3). To date, the IRS’s published guidance has been limited to specific factual situations.\(^\text{15}\)

5. Regulations or other guidance expanding and clarifying existing tax hedging and straddle rules in the context of hedging transactions that reduce or manage risks on an entire portfolio of stocks or bonds held by a taxpayer (i.e., hedging transactions effected at the portfolio level, and not on a security-by-security basis).

6. Guidance on the application of the “cure” provisions in sections 851(d)(2) and (i), added by the RIC Modernization Act of 2010, including the schedules referred to in sections 851(d)(2)(A)(i) and (i)(1)(A) and the meaning of “due to reasonable cause and not due to willful neglect” in sections 851(d)(2)(A)(ii) and (i)(1)(B). We refer the Service to Regulation section 1.856-7, which provides guidance to real

estate investment trusts (“REITs”) concerning a REIT’s failure to meet its gross income requirements.

7. Guidance on the receipt of foreign withholding tax refunds by RICs, including revisions to the guidance in Notice 2016-10 to permit RICs to carry forward the amount of refunded taxes that cannot be offset in the year refunded.

**PARTNERSHIPS AND LLCs**
Martin D. Pollack, Partnerships and LLCs Committee, (212) 310-8461, martin.pollack@weil.com

1. Regulations concerning the new partnership audit rules.

2. Finalize Proposed Regulations under section 751(b).

3. Finalize Proposed Regulations regarding series LLCs.

4. Finalize Proposed Regulations concerning the fractions rule under section 514(c)(9).

5. Guidance on the proper treatment of contingent liabilities under sections 743(b) and 755.

6. Guidance on section 704(c) layers relating to partnership mergers.

7. Regulations establishing a new *de minimis* rule under section 704(b).

8. Guidance on the definition of a limited partner for SECA purposes.

9. Guidance on who can sign a partnership return.

**REAL ESTATE**
Julie C. Sassenrath, Real Estate Committee, (214) 745-5887, jsassenrath@winstead.com

1. Finalize Proposed Regulations under section 460 relating to the home construction contracts exemption and its application to land development contracts and condominium developers and contractors.

2. Guidance regarding the treatment of cancellation of indebtedness income as “unrelated business taxable income” under section 512. Many pension funds and other tax-exempt entities invest in real property. Although the rules for income from rental and sales of debt-financed real property are well understood, the treatment of cancellation of indebtedness income has remained unclear.
3. Finalize Proposed Regulations under section 514(c)(9)(E) and the “fractions rule.”

4. Guidance under the new rules for qualified foreign pension funds (“QFPFs”) under section 897(l) that would:
   a. confirm that a QFPF can be formed at a local level, e.g., a state or province;
   b. clarify extent of government regulation and scope of annual information reporting about their beneficiaries required for QFPFs under section 897(l)(2)(D);
   c. confirm that a foreign government pension fund that is eligible for relief under both section 892 and section 897(l) can claim the benefits of both sections; and
   d. confirm that, under section 897(l)(1)(B), QFPFs include subsidiaries held directly or indirectly by the QFPF.

5. Regulations clarifying the meaning of “rents from real property” under section 856(d). Although statutory changes have been made to update and modernize the REIT rules, the underlying regulations have not had corresponding updates.

SALES, EXCHANGES AND BASIS
Alan Lederman, Sales, Exchange and Basis Committee, (954) 713-6415, alederman@gunster.com

1. Guidance clarifying the section 108(c) discharged Qualified Real Property Business Indebtedness (QRPBI) exclusion and basis reduction, especially clarifying terms such as “used in” in section 108(c)(3)(A).\(^\text{16}\) As examples, guidance is needed on the application of section 108(c)(3)(A) for mixed-use property and property for which the use is not clear or decided at the time the debt is incurred or assumed, or where the use of the real property changes. In addition, the term “substantially improve” in section 108(c)(4) (concerning the definition of “qualified acquisition indebtedness”) and the term “acquired in contemplation of such discharge,” in section 108(c)(2)(B) (concerning the overall limitation on the exclusion and basis reduction) are unclear.

S CORPORATIONS
Dana A. Lasley, S Corporations Committee, (314) 553-2824, dana.lasley@emerson.com

1. Guidance on the situations in which the Service will not rule under section 1362(f) with respect to the validity or continuation of an S corporation election because the Service believes that the validity or continuation of the S corporation

---

\(^{16}\) While Rev. Rul. 2016-15, 2016-26 I.R.B. 1060 provides two scenarios to distinguish “used in,” it does not provide a specific rule or definition.
1. Guidance on Circular 230 interpretation and application. In recent years, the practitioner conduct provisions in Circular 230 have been shifting from a principles-based set of rules to a more targeted, mechanical set of rules that can be difficult to interpret and apply and that may not provide much guidance beyond the targeted issue they were enacted to address. A broader, principles-based approach may be easier to understand and flexible enough to apply in a wide range of practice scenarios. We recommend the Service and Treasury conduct a comprehensive evaluation of Circular 230 and consider eliminating or simplifying many of the existing rules in Circular 230, consistent with a principles-based approach.

2. Guidance on Circular 230 References to Registered Tax Return Preparers (RTRPs). Circular 230 should be updated to reflect the D.C. Circuit’s decision in *Loving v. Internal Revenue Service* and remove references to RTRPs. The IRS Form 2848 was updated in December 2015 to remove references to RTRPs. At that time, special rules and requirements were added with respect to the limited practice rights of unenrolled return preparers, including a requirement that they participate in the IRS’s Annual Filing Season Program, Rev. Proc. 2014-42.

3. Guidance on contingent fees. Circular 230 section 10.27 has not been updated to reflect the District Court’s decision in *Ridgely v. Lew*. The Service and Treasury should update Circular 230 to address the *Ridgely* decision.

---

18 The recent repeal of the covered opinion rules in former Circular 230 section 10.35 was an encouraging step back from this trend.
19 742 F.3d 1013, 1015 (D.C. Cir. 2013).
2. Regulations under section 451 regarding advance payments received for goods and services, including amounts received in exchange for the sale or issuance of gift cards, trading stamps, and loyalty points that can be redeemed for goods or services.

3. Revenue Procedure under section 263(a) regarding the capitalization of natural gas transmission and distribution property.

4. Finalize Proposed Regulations under section 263A regarding the inclusion of negative amounts in additional section 263A costs.

5. Regulations under section 460 regarding home construction contracts and rules for certain changes in method of accounting for long term contracts.

6. Guidance regarding the treatment of deferred revenue in taxable asset sales and acquisitions.

7. Guidance under section 263A to update, clarify and modify the existing rules to reflect current business practices.

8. Regulations under section 472 regarding dollar-value last-in, first-out (“LIFO”) inventories, including rules for combining pools as a result of a change in method of accounting, certain corporate acquisitions, and certain nonrecognition transactions.

9. Regulations under section 199 relating to computer software.

**TAX-EXEMPT FINANCING**

Stefano Taverna, Tax-Exempt Financing Committee, (214) 754-9200, staverna@mphlegal.com

1. Finalize Proposed Regulations regarding the public approval requirements under TEFRA.

2. Regulations under section 150.

3. Regulations addressing the integration of the existing multipurpose allocation rules under Regulation sections 1.141-13(d), 1.148-9(h), and 1.150-1(c)(3), each of which address the allocation of bonds to purposes financed.\(^{22}\)

TRANSFER PRICING
A. Tracy Gomes, Transfer Pricing Committee, (214) 840-2594, atgomes@kpmg.com

1. Guidance on the Service’s application of aggregation and the best method rule. The Temporary Regulations in T.D. 9738\(^{23}\) incorporate several provisions that may be considered inconsistent with existing guidance. For example, the regulations grant the Service broad authority to re-characterize controlled transactions, although historically that authority was limited to specific instances in which the Service concluded that the terms of the controlled transaction lacked economic substance or were not in accordance with the actual conduct of the controlled parties. The regulations also broaden the ability of the Service to aggregate controlled transactions, and they provide for a “coordinated best method analysis,” the parameters of which are not clearly explained.

2. Guidance on reporting by large U.S. companies to satisfy multilateral country-by-country reporting obligations. The Service and Treasury should consider additional guidance which may be needed to assist large U.S. taxpayers\(^{24}\) in complying with the requirements of Regulation section 1.6038-4. Despite the issuance of detailed regulations and IRS Form 8975 (with instructions), it is anticipated that developments may create a need for additional guidance as the deadline approaches for specific taxpayers to file these reports.

3. Guidance on the interaction between U.S. Regulations and final OECD guidance under BEPS Action Plan items 8-10. The Service and Treasury should consider guidance to confirm that the existing Regulations under section 482 are consistent with the updated transfer pricing guidance issued by the OECD under BEPS Action Plan items 8-10.\(^{25}\)

4. Guidance on the recognition of gain or loss on contributions to partnerships with a related foreign partner. Notice 2015-54\(^{26}\) indicated that additional guidance would be issued under section 482, as necessary, to enable taxpayers to comply with their obligations. The final regulations were published in T.D. 9814,\(^{27}\) but reserved on guidance under section 482. The current regulations under section 482 contain

\(^{24}\) Taxpayers with annual revenues in U.S. dollars greater than the equivalent of 750 million euro.
\(^{25}\) Officials from the Service and Treasury have made public statements regarding this issue. However, a published statement concerning the status of the U.S. Regulations in light of the BEPS guidance would assist taxpayers in complying with transfer pricing rules, both under U.S. law and in the evolving multilateral environment.
\(^{27}\) 2017-17 I.R.B. 878.
limited references to application of the arm’s length standard in the context of a partnership. The Service and Treasury should consider additional guidance under section 482 that would enable taxpayers to comply with the method specified for certain contributions of property to partnerships with one or more related partners. The Service and Treasury should also consider ordering or priority rules to clarify the intended interaction (if any) between the gain deferral method rules and existing allocation principles under section 482.

In each case, the name and contact information for a representative of the committee making the suggestion are provided.

CORPORATE TAX
Audrey N. Charling, Corporate Tax Committee, (203) 373-3380, audrey.charling@ge.com

1. Guidance under sections 1502 and 1504 regarding consolidated group continuation.

2. Guidance narrowing the scope of “fast pay stock” for purposes of tax shelter reporting obligations, including material advisor reporting.

3. Identification of legal issues under section 355 relating to device and business purpose for which private letter rulings will ordinarily be entertained.

EMPLOYEE BENEFITS
Susan A. Wetzel, Employee Benefits Committee, (214) 651-5389, susan.wetzel@haynesboone.com

1. Additional guidance under section 401(k)(12) and (13) regarding certain mid-year changes and certain business transactions, specifically focusing on the ability to merge two safe harbor plans in connection with a business transaction.

2. Guidance permitting more extensive incorporation of statutory and regulatory requirements by reference and the exclusion from plan documents of provisions that are not relevant to the plan sponsor and plan participants.

3. Guidance regarding the application of measurement methods under section 4980H and reporting requirements under sections 6055 and 6056 in the corporate transaction context.

1 2016-14 I.R.B. 533.
2 References to a “section” are to a section of the Internal Revenue Code of 1986, as amended (the “Code”) or the Treasury regulations issued thereunder, unless otherwise indicated.
4. Guidance clarifying how the regulations under section 414(c) apply to limited liability companies (“LLCs”) and their owners (for example, is control based on ownership of stock having a least 80% of the voting power or value (like corporations), or on ownership of 80% of the profits interests or capital interests (like partnerships, although these concepts have no clear analogs for LLCs)).

5. Guidance regarding whether the definition of “trade or business” and the concept of a “partnership-in-fact” that were applied under ERISA by the First Circuit and district court in Sun Capital will apply under section 414(b), (c) and (m).

7. Guidance regarding the retroactive effective date for Medicare Part A coverage for individuals who enroll after age 65 and the restrictions on HSA contributions for individuals with Medicare coverage under section 223.

**ESTATE AND GIFT TAXES**
Laura Hundley, Estate and Gift Taxes Committee, (303) 473-2732, lshundley@hollandhart.com

1. Guidance on “decanting” taking into consideration the recommendations submitted by the Section as well as other professionals in accordance with Notice 2011-101.

**EXEMPT ORGANIZATIONS**
David A. Shevlin, Exempt Organizations Committee, (212) 455-3682, dshevlin@stblaw.com

1. Proposed regulations pursuant to sections 4958, 4966 and 4967 regarding donor advised funds.

2. Update Rev. Proc. 92-94, including to (i) confirm that support from a non-U.S. governmental entity counts as public support in the same manner as support from a federal, state, or local governmental entity counts for purposes of the public support calculation under section 509(a), (ii) revise the definition of “currently qualified” in light of the current five-year calculation period for public support.

---

4 2011-52 I.R.B. 932. Specifically, immediate guidance is sought regarding Item #12 from Notice 2011-101, which requested comments on decanting when the Distributing Trust is exempt from the generation-skipping transfer (“GST”) tax under Regulation section 26.2601-1, has an inclusion ratio of zero under section 2632, or is exempt from GST tax under section 2663. Under the current regulations, guidance is provided for decanting a trust that is “grandfathered” from the GST tax (see Reg. §26.2601-1(b)(4)); similar guidance is requested for trusts that are exempt as a result of the allocation of a taxpayer’s GST exemption and not such “grandfathering.”

TRANSFER PRICING
Tracy A. Gomes, Transfer Pricing Committee, (972) 232-3064, tgomes@mwe.com

1. Guidance on financial guarantees. Reported decisions from other jurisdictions (for example, the Chevron decision in Australia) show the potential complexity of this issue. In our view, guidance concerning basic principles applicable to intercompany guarantees and other forms of credit support would be valuable. Such guidance need not address the full range of technical issues associated with valuation of guarantees.

2. Guidance on financial transactions in general (non-global dealing context). IRS Exam appears to be devoting increased attention to transfer pricing issues with respect to financial transactions (including intercompany loans, etc. by non-financial entities). At present, the regulatory guidance in this area consists of the arm’s length interest rate guidance in Regulation section 1.482-2(a) and –by analogy only -- the transfer pricing methods applicable to tangible and intangible property.

3. Guidance on difficult to value intangibles (commensurate with income standard). In an attempt to apply the commensurate with income standard, IRS Exam sometimes applies non-traditional approaches (including applications of the income method). In some cases, these approaches do not align with established valuation concepts or with the current understanding of the commensurate with income standard.

4. Guidance on appropriate use of country-by-country reporting data by treaty partners. Such guidance could address situations in which a treaty partner relies primarily on country-by-country reporting data to make a transfer pricing adjustment. The final OECD report contemplated that such adjustments are improper and, if made, could be dealt with in a summary manner via the Mutual Agreement Procedure.
1. Guidance under sections 877A and 7701(a)(50) regarding the status of certain individuals who relinquished U.S. citizenship under the Immigration and Nationality Act on or prior to June 3, 2004.

2. Guidance under section 897 with respect to the definition of qualified foreign pension plans and other aspects of the changes to section 897 made by the PATH Act.

3. Guidance on the application of treaty provisions to hybrid entities for non-FDAP items, *e.g.*, effectively connected income not attributable to a permanent establishment and branch profits tax.

4. Guidance on the applicability, or not, of international information return requirements (*e.g.*, Forms 5471, 8865, 3520, 3520-A) to dual residents filing nonresident returns under a treaty tie-breaker provision.
