Internet of Things (IoT) National Institute
*Everything will be connected.*

May 9–10, 2018  |  Washington, DC
1001 Pennsylvania Ave. NW (Crowell & Moring LLP)

We live in a connected world, where billions of vehicles, buildings, process control devices, wearables, medical devices, drones, consumer/business products, mobile phones, tablets, and other “smart” objects are wirelessly connecting to and communicating with each other. Forecasted by Gartner, Inc. to reach 20.4 billion connected things by 2020, with trillions of dollars in spending, this so-called “Internet of Things” or IoT is raising unprecedented legal and liability issues and becoming one of the hottest new law practice areas.

Join us for our third IoT National Institute, presented by the ABA Section of Science & Technology Law, for an unparalleled learning and networking opportunity for businesses, policymakers, and lawyers (M&A, IP, competition, litigation, health law, IT/outsourcing, and privacy/cybersecurity):

• Discover why corporate, law firm, government, university, and other attendees gave the last two IoT Institutes rave reviews: “magical,” “eye-opening,” “rock star” speakers, and “a grand slam.”

• Gain insights and practical guidance on the latest legal, legislative, regulatory, and liability issues of the IoT transformation — a game-changer for businesses, policymakers, and lawyers that’s now generating hundreds of billions of dollars in spending globally.

• Explore need-to-know IoT hot topics: big data/privacy, cybersecurity, litigation/mitigation, cloud/artificial intelligence, connected healthcare, ethics, global IoT product development and sales, insurance risk allocation, and homeland/national security.

• Get great value: 2 days of CLE credit (including ethics), 6 keynotes packed with compelling perspectives, 2 breakfasts and 2 lunches, and a cocktail/networking reception.

Learn more at ambar.org/iot2018.

## Agenda

**Wednesday, May 9, 2018**

<table>
<thead>
<tr>
<th>Time</th>
<th>Session</th>
</tr>
</thead>
<tbody>
<tr>
<td>8:00 – 8:45 am</td>
<td>Registration/Breakfast/Networking</td>
</tr>
<tr>
<td>8:45 – 9:00 am</td>
<td>Opening Remarks</td>
</tr>
<tr>
<td>David Z. Bodenheimer, Partner, Crowell &amp; Moring LLP; Chair, ABA Section of Science &amp; Technology Law</td>
<td></td>
</tr>
<tr>
<td>9:00 – 9:15 am</td>
<td>Keynote Address: IoT Bill and Views from the Hill</td>
</tr>
<tr>
<td>From caucuses and hearings to resolutions and bills like H.R. 1324 (Securing IoT Act), Congress has exercised oversight and leadership on IoT developments. This bicameral keynote panel will address IoT initiatives on the Hill, emerging opportunities and risks, and the importance of U.S. technology leadership.</td>
<td></td>
</tr>
<tr>
<td>U.S. Rep. Jerry McNerney, (9th District of CA)</td>
<td></td>
</tr>
<tr>
<td>9:15 – 10:00 am</td>
<td>Demystifying IoT Technology: Beyond the Buzzwords</td>
</tr>
<tr>
<td>Spanning both the public and private sectors, IoT touches virtually every person, governmental entity, and company. In addition to exploring what IoT means, this panel will discuss new and emerging IoT technologies, how they revolutionize the public and private marketplaces, and what legal, regulatory, and technical challenges we face today and tomorrow.</td>
<td></td>
</tr>
<tr>
<td>Darrell G. Mottley, Principal Shareholder, Banner &amp; Witcoff; Past President, DC Bar Vernon Evans, Counsel, Ericsson Thomas L. Jarvis, Chair, and Litigation Partner, International Trade Commission Practice, Winston &amp; Strawn LLP</td>
<td></td>
</tr>
<tr>
<td>10:00 – 10:15 am</td>
<td>Break</td>
</tr>
<tr>
<td>10:15 am – 11:30 am</td>
<td>Going Global with IoT: Navigating Regulations, Standards, and Other Challenges in Developing and Selling IoT Products Internationally</td>
</tr>
<tr>
<td>As daunting as national regulations and technical standards may seem now, the international challenges are multiplying exponentially. This panel will discuss the realities of global IoT regulatory compliance, the current efforts to develop international standards, and key strategies for navigating cross-border IoT markets.</td>
<td></td>
</tr>
<tr>
<td>Jack Zinman, Vice President &amp; Associate General Counsel, AT&amp;T Alonzo Barber, Attorney, U.S. Enterprise Commercial Group, Microsoft Janet Hernández, President, Telecommunications Management Group, Inc. Eric A. Hibbard, Chief Technology Officer, Security &amp; Privacy, Hitachi Vantara</td>
<td></td>
</tr>
<tr>
<td>11:30 – 12:30 pm</td>
<td>Lunch and Keynote Presentation</td>
</tr>
<tr>
<td>From its early IoT reports and workshops to its investigations and enforcement actions, the Federal Trade Commission (FTC) has been a world leader in shaping the discussions on emerging security and privacy issues in a connected world.</td>
<td></td>
</tr>
<tr>
<td>12:30 – 1:30 pm</td>
<td>Of Hal, Skynet, and iRobot: Evolving Business and Legal Issues in AI, Big Data, and IoT</td>
</tr>
<tr>
<td>As a major driver of growth in manufacturing, intelligent transportation, utilities, health, smart cities, financial services, retail, and agriculture (just to name a few), IoT offers a huge potential benefit to the economy and many wider benefits for the community in terms of improved transport, health, air pollution, and energy savings. Yet integrated services provided by multiple partners, collaborative ventures, and new business models may lead to legal challenges, requiring parties to address legal relationships as well as liability, IP, privacy/data security, insurance, and other regulatory issues. This session will assess some of the legal implications of a connected world and discuss new and evolving benefits and risks (including new risk types) for businesses operating in this brave new world.</td>
<td></td>
</tr>
<tr>
<td>William B. Baker, Partner, Potomac Law Group, PLLC: Chair-Elect, ABA Section of Science &amp; Technology Law Lisa R. Lifshitz, Chair and Partner, Technology, Privacy &amp; Data Management Group, Torkin Manes LLP Richard C. Balough, Balough Law Offices, LLC Theodore F. Claypoole, Partner, Womble Bond Dickinson Erin F. Fonté, Co-Head and Member, Privacy and Data Security Group, Dykema Gossett PLLC</td>
<td></td>

</table>

Agenda subject to change without notice based on speaker schedules.
1:30 – 2:45 pm  |  Data, Data, Everywhere: Navigating IoT Privacy Issues
We live in a connected world, where objects and buildings can track information about everyone 24/7. It’s data, data, everywhere, without a chance to think . . . especially about the privacy implications of such hidden powers. But smart businesses must think about, and address, the data protection issues raised by “smart” appliances, wearables, medical devices, warehouses, cars, and cities. What data is being collected, how will the data be used and protected, what kinds of notices/agreements come into play, what laws govern the data, and what are the rights of data subjects (that is, real people)? Such data is key to the bottom line, as it helps to improve products and services and also becomes a valuable commodity to be compiled, combined, analyzed, packaged, and sold. This has not gone unnoticed by the FTC, NIST, and others worldwide (e.g., EU). This panel will provide perspectives on ways to work smarter in navigating ever-changing IoT privacy issues.

Ruth Hill Bro, Privacy Attorney; Past Chair, ABA Section of Science & Technology Law
Naomi B. Lefkovitz, Senior Privacy Policy Advisor, National Institute of Standards and Technology
Robert S. Litt, Of Counsel, Morrison & Foerster LLP; former General Counsel, Office of the Director of National Intelligence

2:45 – 3:00 pm  |  Break

3:00 – 4:15 pm  |  Securing the Insecure: Cybersecurity in a Connected World
Where is security in the IoT ecosystem, and how do we know when we can trust it? IoT devices have been compromised to create botnet armies used for distributed denial of service or to attack underlying systems. IoT devices and their implementations may create numerous weaknesses that can compromise the security of individuals, homes, businesses, and industrial control systems (ICS). This panel will discuss inherent risks associated with these devices, potential vulnerabilities, and ways to mitigate and manage the risks flowing from them. The panel also will explore difficulties associated with responding to incidents involving IoT devices, as well as the critical need for verifying the trustworthiness of IoT devices and their security.

Jody Westby, CEO, Global Cyber Risk LLC
Megan Brown, Partner, Wiley Rein LLP
Jill D. Rhodes, Vice President and Chief Information Security Officer, Option Care Enterprises, Ltd.
Randy Sabett, Special Counsel, Privacy & Data Protection, Cooley LLP
William Wright, Director, Government Affairs & Senior Policy Counsel, Symantec

4:15 – 5:15 pm  |  Insuring the Technology Unknowns: Allocating Insurance Risks with IoT
Connected devices are changing the world, and that means risks are changing too. Insurers must face the challenge of understanding how exposures and liability are changing as a result of IoT. How will insurers respond to Internet-connected devices and the risks they pose? How will these risks be addressed under stand-alone cyber policies and traditional lines of insurance coverage? And how will carriers incorporate IoT data and usage into their products and business operations?

Laura Foggan, Partner, Crowell & Moring LLP
Angela Gleason, Senior Counsel, American Insurance Association
Lorie Masters, Partner, Hunton & Williams LLP
Catherine Mulligan, Managing Director & U.S. Cyber Practice Leader, Aon Benfield

5:15 – 5:30 pm  |  Keynote Address: Senate Initiatives on IoT Expansion and Security
From caucuses and hearings to resolutions and bills, the Senate has exercised oversight and leadership on IoT developments. As a sponsor of S.1691 - Internet of Things (IoT) Cybersecurity Improvement Act of 2017, Senator Warner will discuss views of cybersecurity risks and opportunities and the importance of establishing security standards to protect this vital economic highway of the future.

U.S. Sen. Mark Warner (VA)

5:30 – 6:45 pm  |  Cocktail Reception and Networking

Agenda subject to change without notice based on speaker schedules.
Thursday, May 10, 2018

8:00 – 8:30 am  |  Breakfast/Networking

8:30 – 9:00 am  |  Introduction and Keynote Address: IoT Oversight on the Hill
As the Ranking Member of the Subcommittee on Information Technology, Congresswoman Kelly brings leadership on the latest technology issues emerging before the House Committee on Oversight and Government Reform. She will address efforts to oversee the vast array of IoT economic, technology, and security issues confronting federal agencies in a connected world.

William B. Baker, Partner, Potomac Law Group, PLLC; Chair-Elect, ABA Section of Science & Technology Law
Robin Kelly, Congresswoman, 2nd Congressional District of Illinois, Chicago, IL

9:00 – 10:00 am  |  HealthTech on the Digital Frontier: Smart Pills, IoT Devices, and Connected Medical Technologies
The amount of digital health data — and the tools and sources of such data — (e.g., wearables, ingestibles, electronic health devices, and genomic profiles) are growing rapidly. With this digital transformation in health technology, laws governing interoperability, data sharing, privacy, security, and regulatory oversight continue to morph and evolve at an accelerating pace, leaving counsel scrambling to remain current and wondering how to support business and health care decisions in this uncertain legal environment. This panel will address the risks and opportunities in collecting and using electronic health data, the expanding regulatory regime for health devices (including artificial intelligence, clinical decision support, and medical device software), and the best practices for navigating health IoT risks and technologies.

Jodi Daniel, Partner, Crowell & Moring LLP; founding Director, Office of Policy, Office of the National Coordinator for Health Information Technology, U.S. Department of Health and Human Services
Afia Asamoah, Senior Counsel & Trust and Compliance Officer, Verily Life Sciences, LLC (an Alphabet Inc. company)
Jean Marie Pechette, Shareholder, Polsinelli
Ericka Watson, Lead Counsel, Global Data Privacy, Danaher Corporation

10:00 – 11:00 am  |  Homeland and National Security in an Internet-Everything World
While cutting-edge innovations have long served as a linchpin for effective homeland and national security defense in the United States, never have the opportunities and challenges been greater in a surging world of trillions of sensors, billions of devices, and zettabytes of data. This panel will address the looming risks to critical infrastructure and national security, the critical nature of public-private partnerships and information sharing, and the latest initiatives to safeguard domestic and national security.

Richard M. Martinez, Partner, Jones Day
Leonard Bailey, Special Counsel, National Security, Computer Crime & Intellectual Property Section, U.S. Department of Justice
Rajesh De, Partner, Mayer Brown LLP; former General Counsel, U.S. National Security Agency
Jonathan W. Gannon, Assistant Vice President—Senior Legal Counsel, AT&T Services; former Deputy Unit Chief, Office of Intelligence, National Security Division, U.S. Department of Justice

11:00 – 11:15 am  |  Break

Agenda subject to change without notice based on speaker schedules.
11:15 am – 12:30 pm  |  Inside IoT: Corporate Counsel Insights
In a white-hot marketplace adding billions of interconnected devices at warp speed, the leading corporate lawyers on IoT technologies tackle new legal, regulatory, and policy issues every day — and sometimes every hour. This panel will address the in-house challenges of advising clients on the IoT legal frontier, building business relationships across the rapidly expanding IoT supply chain, and balancing risks and opportunities where laws and regulations are still catching up.

Joe D. Whitley, Chair and Shareholder, Government Enforcement and Investigations Group, Baker Donelson; former General Counsel, U.S. Department of Homeland Security
Arash Heidarian, Senior Corporate Counsel, Amazon
Richard LeVee, Senior Attorney, Watson Internet of Things, IBM
Jarett A. Nixon, Legal Director, IoT, Cisco Systems, Inc.
Neil Sitron, General Counsel, Rivian Automotive

12:30 – 1:30 pm  |  Lunch and Keynote Presentation
Peter Davidson, General Counsel, U.S. Department of Commerce

1:30 – 2:45 pm  |  The Fate of the Furious: Litigation, Allocation of IoT Legal Risks, and Mitigation Strategies
As manufacturers of all levels of sophistication race to connect their products, what strategies should they consider to mitigate potential risks? These new products require security, safety, and privacy by design. Lawyers can help companies launch successful products by probing whether reasonable efforts have been used to meet these design requirements and identifying the liabilities and obligations between the numerous parties involved in the technology behind these products. Common legal gaps in ownership rights and contractual arrangements could also compound the risk profile with IoT products. Join us as we look at these issues and explore risk mitigation tactics.

Cheryl Falvey, Co-Chair and Partner, Advertising and Product Risk Management Group, Crowell & Moring LLP; former General Counsel, U.S. Consumer Product Safety Commission
Kim Hughes, Senior Attorney, Global Compliance, Microsoft
Michael A. Oakes, Partner, Hunton & Williams LLP

2:45 – 3:00 pm  |  Break

3:00 – 4:00 pm  |  Complicit? Ethical Challenges in a Connected World
Everything is connected, and that’s a good thing, right? But not so fast. Connectivity brings with it new ethical issues around lawyer’s duties, including those of competence and confidentiality. Data collection via wearables, mobile devices, and smart technology is creating a treasure trove of information for discovery, with implications for corporate lawyers, litigators, family law practitioners, personal injury attorneys, and others. Business advisors must consider how to advise clients about data analytics, including collection, use, and storage of sensitive and confidential information. The ABA Model Rules of Professional Conduct make clear that lawyers’ duties not only apply in all technological contexts but also specifically include a duty to keep up on technological advancements and their implications for clients. This stimulating and highly interactive panel will explore how you can be connected but not complicit.

Merri A. Baldwin, Co-Chair & Shareholder, Attorney Liability and Conduct Practice Group, Rogers Joseph O’Donnell, PC
Kathryn J. Fritz, Partner, Fenwick & West LLP

4:00 – 5:30 pm  |  Back to the Future: Where is IoT Going Next?
As IoT innovations roll out across industries at a breakneck pace, policymakers and thought-leaders in industry, universities, and government have begun to assess the major legal, commercial, and political challenges and issues presented by IoT. Are innovations and policy, as a ground-breaking MIT study concludes, “radically misaligned,” or will market forces create an appropriate path forward? Drawing on the insights presented during the ABA IoT National Institute and leading research findings, this expert panel will discuss the challenges that lie ahead and debate their impact.

Lucy L. Thomson, Founding Principal, Livingston PLLC; Past Chair, ABA Section of Science & Technology Law
Michael A. Aisenberg, Principal Cyber Policy Counsel, MITRE Corporation
Lisa Hayes, Vice President, Strategy & General Counsel, Center for Democracy & Technology
Eric A. Hibbard, Chief Technology Officer, Security & Privacy, Hitachi Vantara
Paul Ohm, Professor, Georgetown University Law Center; Faculty Director, Georgetown Institute for Technology Law & Policy

5:30 pm  |  Second Day Wrap-Up and Farewell
Who should attend: Lawyers (litigation, corporate, IT, IP, health law, etc.), regulators, legislators, policymakers, developers, manufacturers, service providers, marketers, business executives, privacy and security professionals, academics, and students

MCLE
The ABA directly applies for and ordinarily receives CLE credit for ABA programs in AK, AL, AR, AZ, CA, CO, DE, GA, GU, HI, IA, IL, IN, KS, KY, LA, ME, MN, MS, MO, MP, MT, NJ, NH, NM, NV, NY, NC, ND, OH, OK, OR, PA, PR, SC, TN, TX, UT, VT, VA, VI, WA, WI, and WV. These states sometimes do not approve a program for credit before the program occurs. This course is expected to qualify for 13.50 CLE credit hours in 60-minute states, including 1 hour of ethics credit and 16.20 credit hours in 50-minute states, including 1.20 ethics. This transitional program is approved for both newly admitted and experienced attorneys in NY. Attorneys may be eligible to receive CLE credit through reciprocity or attorney self-submission in other states. For more information about CLE accreditation in your state, visit www.ambar.org/iot2018.

Registration
To register, please go to ambar.org/iot2018, call the ABA Service Center at 800.285.2221, or see the on-site registration desk.

ABA Negotiated Airfare Discounts — Available Online!
With ABA Egencia®, you can automatically obtain ABA negotiated airfare discounts for travel to ABA Meetings. ABA Egencia enables you to purchase the best airfare at the time of booking by providing you with the ability to search for and compare fares from virtually every airline serving the destination.

Reservations with ABA Egencia can be made online or offline. For offline reservations, call (877) 833-6285. ABA Egencia is available online via ABA Travel Services®. ABA airfare discounts on some carriers may also be obtained by purchasing your tickets under the ABA Discount Codes directly from the airline or through your travel agent.

American Airlines
ABA Discount only available at ABA Egencia

United Airlines
Call (800) 426-1122
For ABA meetings only, not for leisure travel
Agreement Code: 633818/Z Code: ZE6X
Discount available at www.united.com
Online Discount Code: ZE6X3818

Delta Airlines
Call (800) 328-1111
ABA File Global Meeting Code: NMR3V
Discount available at www.delta.com
Online Meeting Event Code: NMR3V

* A Travel Profile is required when booking airline reservations with ABA Egencia, visit www.americanbar.org/travel for more information.

Car Rental
Hertz provides car rental discounts worldwide to ABA members. Visit Hertz to make a reservation; be sure to enter the CDP# 13000 when you book.

Attendees with Special Needs
Please specify your special needs at www.ambar.org/iot2018 or contact staff designee Donna Williams, Meetings Manager, at donna.williams@americanbar.org; 312.988.6210.

Cancellation Policy
Please contact the ABA Service Center at 800.285.2221 to cancel your participation in this program. Cancellations and refunds will be honored as follows:

Cancellations received 5 business days or more before the program will receive a 100% refund, less a $50 cancellation fee. No refunds will be provided for cancellations after that date; however, substitute registrants are welcome before the program. Registrants who do not cancel within the allotted time period and who do not attend the program will receive a copy of the program course materials after the program.

Press Credentials
ABA press credentials are available to reporters, editors working as reporters, producers, camera operators, and still photographers who present official proof of employment. Exceptions must be approved by the Director of the ABA Communications & Media Relations Division or his/her designee. For credentializing, please contact abanews@americanbar.org.

Member Discounts
ABA members save on this program and many other programs and products. Visit www.ambar.org/join to view the full range of benefits and services available to members and to join the ABA.

Members of ABA sections, divisions, and forums typically receive an additional discount on programs sponsored by their groups. Your myABA profile page will give you a list of all of the sections and other ABA entities of which you are a member. You can also sign up for new sections, divisions, forums, and other entities to take advantage of immediate entity discounts on live events and products. Visit myABA at ambar.org to review your profile.

Group Discounts
Save when you register three or more attendees for this National Institute.
3-5 attendees - save 5%
6-10 attendees - save 10%
10+ attendees - contact ABACLE
To register your group of 3 to 10 and receive the discount, please call the ABA Service Center at 800.285.2221.

Scholarships
For information on scholarships, visit www.americanbar.org/groups/cle/scholarship.

Program Confirmation
Written confirmation of your registration will be sent to you upon receipt. Please bring it with you to the National Institute as proof of registration. If you do not receive the confirmation notice prior to the presentation, please call the ABA at least 24 hours in advance to confirm that your registration was received and the program is being held as scheduled. Contact the ABA before making travel arrangements.

Standing Committee on Continuing Legal Education
Under the guidance of the Standing Committee on Continuing Legal Education, the Center for Professional Development administers and produces National Institutes, webinars, other technology-based products, and written course materials to assist lawyers’ continuing legal education efforts.

Attire
Business Casual attire is appropriate for all activities.
