Forum Fall Meeting Postponed to 2021
Message from the Forum Chair, Kristine Kubes.

Dear Forum Members: As we move further into the year of co-existence with COVID-19, we are all realizing that we are in a marathon, not a sprint. As some parts of the USA have had resurgence of the pandemic, we are faced with another challenge to our Forum in-person meeting schedule.

Memphis has imposed a city-wide restriction that prohibits events of more than 50 persons at a time. In light of that declaration, as well as the designation of the COVID-19 disease as a pandemic, and the significant number of attendees and speakers who would be compelled to cancel their participation due to travel restrictions put in place by employers, the ABA and the Forum on Construction Law have made the difficult decision to postpone this year’s 2020 Fall Meeting scheduled for October 21-23, 2020 in Memphis, TN.

We are working to reschedule this event to occur live, in-person in the summer of 2021. The updated location and date for the re-scheduled Fall Meeting will be released when available.

In the meantime, the Forum is increasing its Distance Learning CLE to provide you with construction law-related credits. Our next program is August 19, 2020, at 1 p.m. ET, on Video Arbitration, co-sponsored with AIA. Register here. Please check the Forum website for further Distance Learning CLE programs throughout the Fall season.

Thank you for your patience and please take all necessary measures to protect yourselves and visit the CDC, WHO, and Johns Hopkins University for additional information about the virus.
