Dr. Gavin Manes is a nationally recognized expert in e-discovery and digital forensics. He is currently the CEO of Avansic, a firm that provides the legal, business, and government sectors with e-discovery, digital forensics, data preservation, and online review services.

Dr. Manes founded this Tulsa-based company in 2004 after graduating with his Doctorate in Computer Science and serving as a professor at the University of Tulsa. There he led the creation of nationally recognized research efforts in digital forensics and telecommunications security.

In growing Avansic, Dr. Manes strives to create a scientific approach to ESI processing in order to make e-discovery more effective and efficient for clients. By designing a laboratory that combines industry standard programs with custom software, Avansic can create more useful data sets.

Dr. Manes has served as an expert witness for many legal proceedings through courtroom testimony, depositions and consulting with attorneys on data preservation issues. He has given hundreds of presentations to law firms, corporate officers, legal conferences and judges on the latest topics in e-discovery. Dr. Manes has briefed the White House, Department of the Interior, the National Security Council, and the Pentagon on computer security and forensics issues.
