Alcatraz Island
Piers 31-33 (1.1 miles from hotel, 6 min drive)

Alcatraz was the site of the first lighthouse built on the Pacific Coast and served as a huge harbor defense fort during the Civil War. After the fort became obsolete, the U.S. Army turned the Island into a grim military prison. It became a federal penitentiary from 1934-1963, housing famous convicts such as Al Capone and George "Machine Gun" Kelly. Following the closing of the penitentiary, Alcatraz became the site of an American Indian protest movement that would change modern American history. 49-Mile Scenic Drive

The 49-Mile Scenic drive was created in 1938 by the Downtown Association to highlight the city’s beauty and to promote it as a tourist destination. Over the years, the route has changed many times. Today, the route starts at City Hall and takes you along many of San Francisco’s historic and iconic landmarks including Lombard Street, Ghirardelli Square and Fort Point National Historic Site which lies beneath the structure of the Golden Gate Bridge, offering an unusual view of the bridge and the bay’s shifting tides.
