2008 REGIONAL PROGRAM

THE Construction Contracts Program: Understanding and Negotiating the Clauses in the New Industry Form Documents

On November 6, 2008, in five cities across the country, the ABA Forum on the Construction Industry will present THE Construction Contracts Program: Understanding and Negotiating the Clauses in the New Industry Form Documents.

Taught by experienced construction attorneys in each locale, this program addresses key contractual issues that commonly arise between and among Owners, Contractors, Subcontractors and Design Professionals. The key issues are examined in the context of the standard form contracts most used in the industry (AIA and EJCDC), as well as the new ConsensusDOCS. The program will provide a background discussion of each key topic, identify critical issues, provide a comparison between the form contracts and recommend alternative clauses for the practitioner to consider when drafting, negotiating, or interpreting contracts.

This affordable and accessible program is designed to provide an exceptional training opportunity for lawyers and non-lawyers alike, whether they are experienced practitioners looking for a "crash" course on the new industry form documents, or perhaps novice attorneys recently focusing on issues confronting the construction and design industries. Tuition for the program includes the Forum publication THE Construction Contracts Book: How to Find Common Ground in Negotiating Design and Construction Contract Clauses, Second Edition.
