PUBLICATIONS FOR JUDGES

The American Bar Association's Judicial Immigration Education Project is pleased to offer two books related to immigrants and immigration law-related Bench Books. Every state in the nation is now home to immigrants and refugees who were born outside the United States. To address the increasing need of courts throughout the nation to understand the complexities of addressing noncitizens in their courtrooms, two publications are available for state and federal court judges.

The most recent volume is:

A Judge's Guide to Immigration Law In Criminal Proceedings (2004)

The first comprehensive judge's guide to cover a broad spectrum of immigrant- and immigration law-related issues that may arise in the criminal justice process prepared specifically for judges sitting in criminal court, both federal and state.

The previous publication:

A Judge's Benchbook on Immigration Law And Related Matters (2001)

The first manual of its kind, prepared for judges on a range of issues relating to immigration law and immigrants in court proceedings.

These publications are written to serve the needs of federal, state, and local courts, providing material that will be of value on a daily basis in the course of their work on the bench. Reference aids, charts, addenda and selected resources will assist judges in quickly locating the information that is most important to their individual dockets.

Both publications were developed through the generous support of *The Ford Foundation* and are available to judges, court libraries, and judicial institutions throughout the nation.
